Zoom for Government

# One solution for Phone, Meetings, Rooms, and more

Zoom One for Zoom for Government (ZfG) helps government agencies and contractors save time, reduce costs, increase productivity, and make teamwork more meaningful with a secure, all-in-one collaboration platform. ZfG has been authorized at the FedRAMP Moderate level and bundles Phone, Meetings, Team Chat, Whiteboard, and more for internal and external communications and collaboration, all designed to support accessibility. Choose the right plan for your unique needs, scale to support growth, and customize with optional add-ons.

## Key Benefits

### → All in one

It's all about simplicity – one platform, one user experience, one admin experience. Manage everything from a web-based portal with intuitive settings to provision, add team members, set permissions, and more.

### → Accelerate productivity

Enable richer collaboration, support tighter alignment, and help drive mandated Future of Work initiatives across government agencies, employees, contractors, and teams.

### → Secure experience

Zoom for Government is FedRAMP-authorized, leveraging the U.S.-based AWS GovCloud infrastructure and U.S.-based co-located data centers, managed by U.S. persons.

### → Simple pricing

Choose from a variety of plans with transparent pricing to help meet your unique needs. Customize with optional add-ons and add users as needed.

## Zoom One for ZfG products

### Phone

Make and receive calls on any supported device with our reliable, feature-rich cloud phone system that is simple to deploy and built for the modern collaboration era.

### Meetings

Bring teams together with reliable, HD audio and video interactions. Collaborate and help make everyone feel included with capabilities like screen sharing, chat, captions, and translations.

### Webinars & Sessions

Host high-quality, engaging virtual experiences and easily broadcast your message to large internal and external audiences.

### Team Chat

Collaborate with teams and communicate effectively across your organization with our persistent chat solution that is tightly integrated with Zoom products and third-party apps.

### Whiteboard

Brainstorm, plan, and learn using our persistent, virtual collaboration space. Ideate from anywhere with sticky notes, drawing tools, comments, and more.

### Rooms

Elevate your office experience with modern workspaces for hybrid teams, making it simple to start a meeting, book a room, and share content.

### Notes

Enhance the way you work with our built-in note-taking app, which allows you to quickly capture thoughts, action items, and more before, during, and after a Zoom Meeting.
