

How to sign up for Amazon Currency Converter for Sellers (ACCS)

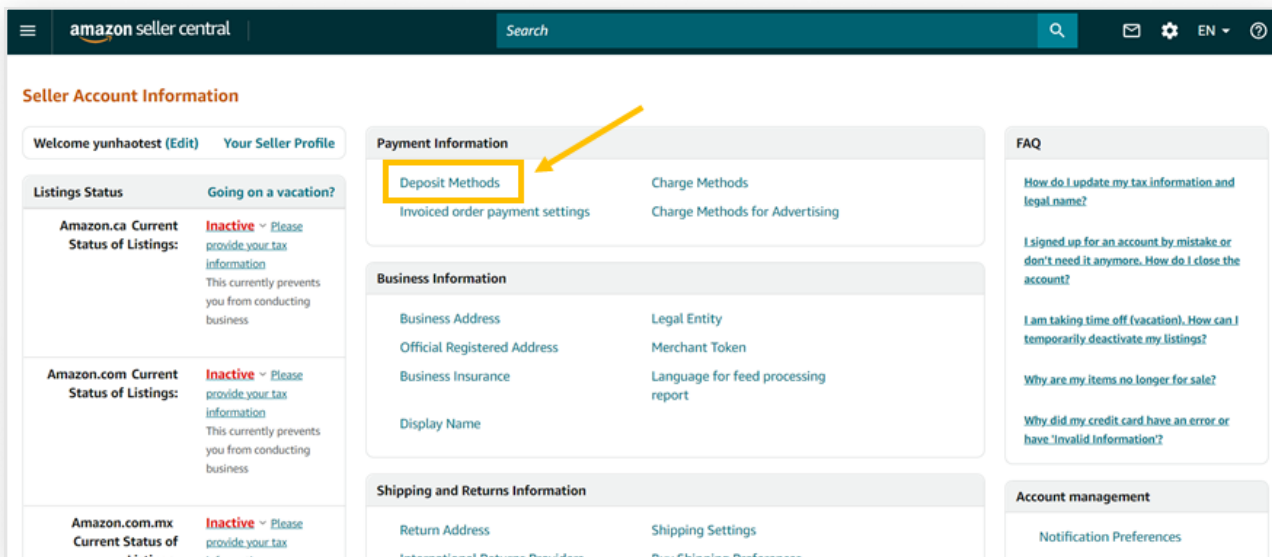

How to sign up for ACCS

1. Log in to your Seller Central account and click **Account Info** from Settings.

The screenshot shows the Amazon Seller Central dashboard. At the top, there is a navigation bar with the Amazon logo, a search bar, and a settings icon. Below the navigation bar, there are several widgets: Marketplaces (10), Open Orders (0), Buyer Messages (0), Total Balance (\$0.00), and Global Promotions Sales (--). The main content area is divided into four columns: Seller Forums, Add a Product, News, and Tutorials. The Account Info menu is highlighted in the top right corner, with a yellow arrow pointing to it. The menu items include: Global Accounts, Notification Preferences, Login Settings, Return Settings, Shipping Settings, User Permissions, User Permissions History, Your Info & Policies, Fulfillment by Amazon, and Log out.

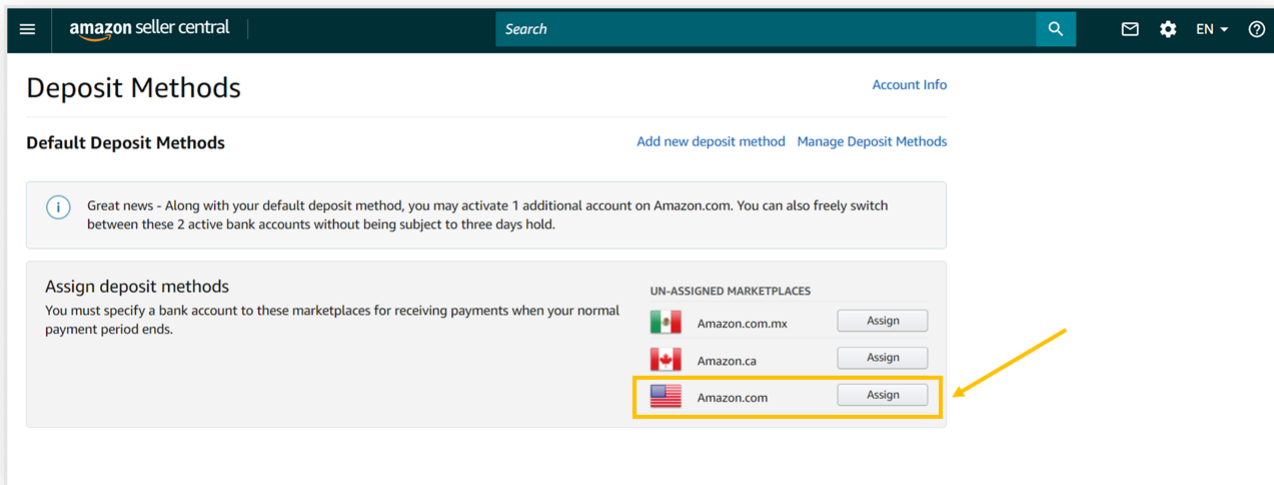

2. Click **Deposit Methods** under **Payment Information**.

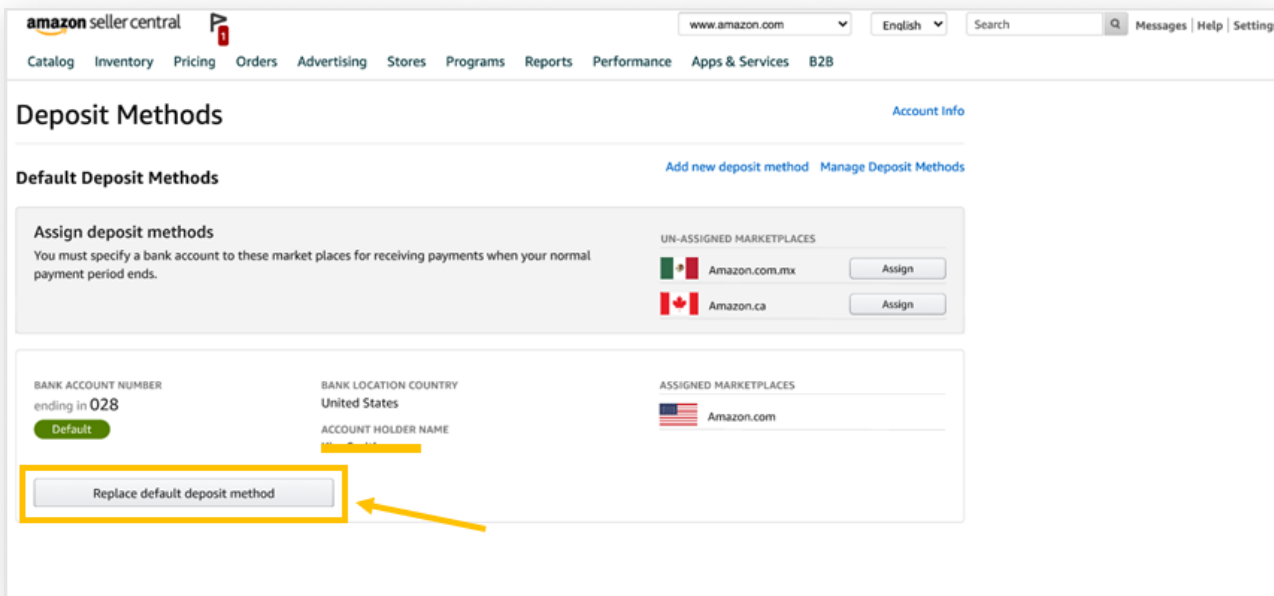

The screenshot shows the Amazon Seller Central Seller Account Information page. The page is divided into several sections: Seller Account Information, Payment Information, Business Information, Shipping and Returns Information, and FAQ. The Payment Information section is highlighted, and the Deposit Methods link is highlighted with a yellow box and a yellow arrow. The Deposit Methods link is located under the Payment Information section, which also includes Charge Methods and Charge Methods for Advertising. The Business Information section includes Business Address, Official Registered Address, Business Insurance, Display Name, Legal Entity, Merchant Token, and Language for feed processing report. The Shipping and Returns Information section includes Return Address, International Returns Provider, Shipping Settings, and Buy Shipping Preferences. The FAQ section includes questions about updating tax information, closing an account, taking time off, and credit card errors. The Account management section includes Notification Preferences.

3. Under Deposit Methods

a. If you don't have a deposit method set up in Seller Central, click **Assign** to register a new bank account.

b. If you've set up a deposit method in the past, click **Replace default deposit method**.

4. On the **Deposit Methods** page, select your **Bank Location** in the drop-down menu and fill in the details. Don't forget to check that you've read the **Terms and Conditions**. Keep a record of your bank account information, which will be asked if you want to replace in the future.

Type of Account
 Default Account
This account will replace your current default deposit method for Amazon.com. Funds earned from Amazon.com will be disbursed to this account.

All disbursements to this bank account will be made in the currency of the country your bank is located in ("Your Bank Location Currency"). Any required conversion of the funds to Your Bank Location Currency will be carried out using Amazon Currency Converter for Sellers. Please check the box below to confirm that you have read and accepted the terms and conditions for use of Amazon Currency Converter for Sellers.

I accept the terms and conditions set forth for all payments by the following agreement. [Amazon Currency Converter for Sellers Terms and Conditions](#)

Otherwise, please enter a bank account in the same country as the Marketplace on which you are selling.

What is the Payment Service Provider Program?
The Payment Service Provider Program maintains a list of participating Payment Service Providers that allow you to receive your Amazon store sales proceeds. [Learn more](#)

What is a participating Payment Service Provider?
A participating Payment Service Provider (PSP) is a PSP that meets the Payment Service Provider Program (PSPP) requirements and has become a member in the PSPP. Sellers choosing to use a PSP to receive Amazon store sales proceeds must choose a participating PSP. A full list of participating PSPs and other acceptable disbursement options can be accessed [here](#).

How can I get a bank account from a participating Payment Service Provider?
You can first choose a participating Payment Service Provider [here](#), then visit their website to follow their instructions to apply for a bank account that supports your desired disbursement currency.

What are default deposit methods?
Default deposit methods are where all funds earned from a given store will be disbursed. You can only have one default deposit method per store.

What are active deposit methods?
Active deposit methods are like backups for your default deposit method. These accounts can be easily switched with your current default deposit method without being subject to three days hold.

How many active deposit methods can I have on Amazon.com?
You can have a total of $\$(\text{hash-get bankAccountLimit})$ active deposit methods for $\$(\text{hash-get marketplaceName})$, including your default deposit method.

5. You're all set. Simply select and activate for the store you're selling in if you already have local bank account information saved. Note that you can now switch between two active deposit methods for US store without being subject to another 3 day hold.*

*Each deposit method will go through the verification hold when it's first added to your account.

Why sellers choose ACCS?

Sellers use Amazon Currency Converter for Sellers (ACCS) to receive global payments fast, securely, and directly into a local bank account. So they don't have to maintain a foreign bank account in the selling country or use a 3rd party payment service provider to get paid in their local currencies.

Sign up for ACCS if you want:

A trusted partner

Amazon is committed to providing you with a safe way to receive your global funds in local currencies.

Ease of use

Just add your local bank account in Seller Central, and we will pay you automatically, in your local currency.*

No hidden fees

The only cost is the volume-based fee. Our bank providers convert currencies at wholesale foreign exchange (FX) rates without any markups, the same highly competitive rates used by the largest traders in the FX market.

*Sellers who are selling on the US store can add up to two bank accounts for their US store as "active" deposit methods. After the bank accounts are verified, sellers can switch between the two "active" bank accounts and receive payments without being subject to an additional 3-day hold.

Frequently asked questions

Is my volume based on all my global accounts?

Yes, when your global selling accounts are merged. You can go to Seller Central and use the [Merge Accounts](#) function to connect all your regional accounts, and we will take care of applying the rate based on your cross-currency net proceeds across all Amazon stores. For example, a Germany-based seller earned \$400K on Amazon.com, \$300k on Amazon.co.uk, and \$200k on Amazon.co.jp could save \$2,250 if all accounts are merged.

What's the ACCS foreign exchange (FX) rate?

FX rates vary by currency corridors and time of conversion. ACCS uses wholesale FX rates close to the mid-market, the same highly competitive rates used by the largest traders in the FX market. [Contact](#) our sales team to learn more.

Is my account subject to additional verification if I update my bank account info?

New bank account will go through a 3-day hold when it's first added to Seller Central.

If I register a bank account located in a different country/region from the marketplace I am selling on, how will I be paid?

Once your bank account is registered, all payments will be directly made to that account in the local currency of the bank location country.

Can I receive payment to a bank account in a country that is not listed in the "Bank Location" drop-down menu?

No. Only the countries and regions that are present in the "Bank Location" drop-down menu from the Deposit Methods page are supported. Check the full list of countries and currencies [here](#).

Are there any additional fees for using the Amazon Currency Converter for Sellers?

The only cost to move the money to your local bank account is the volume-based fee.

[Contact us](#) to get a custom rate.

Cross-currency Net Proceeds*	Volume-based Fee**
>=USD 1M	Contact us
>=USD 500K<1M	1.25%
<USD 500K	1.50%

*Total cross-currency net proceeds across all Amazon stores for past 12 months.

**Volume-based fee shown here is not available on certain Amazon sites and disbursement currencies. Learn more about volume-based fee and availability [here](#).
