

Government of Malawi

2018 Malawi Population and Housing

# Census

Main Report

National Statistical Office

May 2019

---

## PREFACE

The third Malawi Growth and Development Strategy (MGDS III) will be implemented from 2017 to 2022. It is the fourth medium-term national development strategy aligned to the country's long-term national development aspirations, which are articulated in Vision 2020. The Government of Malawi is fully cognizant of the need for quality statistics in policy formulation, decision making, targeting of resources and in the monitoring and evaluation of the MGDS III and the Sustainable Development Goals (SDGs). The Government, through the National Statistical office, conducts a Population and Housing Census (PHC) every 10 years in order to address the data requirements of these frameworks.

Malawi has regularly participated in the United Nations Decennial Census programs and the sixth and latest was the successful conduct of the Population and Housing Census by the National Statistical Office (NSO) in September 2018. As a primary source of socio-economic and demographic data, the Census provides the country with important information to foster national development, good governance and decentralization.

I would like to acknowledge the support received from development partners and individuals during the whole process of the census operation. Specifically, I wish to thank the United Nations Population Fund (UNFPA) for providing funding, technical assistance and coordinating all development partners. I wish to also thank DFID of the British Government, USAID of the US Government, the Norwegian Government, GIZ from the German Government, the Irish Aid from the Irish Government, the UN Family and the Standard Bank for providing financial resources for the 2018 Population and Housing Census. My thanks are also extended to US Census Bureau for providing technical support for the CAPI census and the Regional Centre for Mapping of Resources for Development (RCMRD) based in Nairobi Kenya for providing technical support for the census mapping

My thanks also go to other government ministries and departments for their cooperation and support during the census process. Finally, I would like to thank staff from the National Statistical Office for their professionalism and dedication; and all stakeholders who played a key role in making the Census a success.

**Cliff Chiunda**

**Secretary to the Treasury**

---

## FOREWORD

This report presents the main results of the 2018 Population and Housing Census (PHC) that was conducted from 3 – 23 September 2018 by the National Statistical Office (NSO). The Census enumeration was successfully conducted by the large teams of enumerators and supervisors after undergoing rigorous training prior to their deployment. The planning and organizational structure put in place ensured good household coverage.

The 2018 PHC was the first one to be conducted on Computer Assisted Personal Interview (CAPI) programme. The data was collected and captured on tablets and transmitted to the NSO server electronically via internet. This process is very efficient and reduces time for data processing and cleaning as these processes are done at data capture stage in the field.

The report presents basic results of the census: population size, composition and distribution; population characteristics; population dynamics and household and housing characteristics.

In January 2018, NSO released the Preliminary Census Report, which provided a general picture of the Malawi Population.

This report is the second of several reports that will be generated from the census data. These include thematic analysis reports covering interalia fertility; mortality (including maternal mortality); economic characteristics; migration; marital status and nuptiality; household and housing conditions; gender; children and youth; elderly population, population with disability, water and sanitation; education; population projections, and census implementation and methodology. NSO will also produce district monographs, constituency reports, social atlas and census data wheels.

I wish to acknowledge the dedication and professionalism portrayed by staff of the NSO in handling the Census operation. My gratitude also goes to the Government, the cooperating partners and the general public for the cooperation and support they rendered to make the Census a success.

**Mercy Kanyuka (Mrs)**  
**Commissioner of Statistics**

## **1 INTRODUCTION**

### **1.1 Census overview**

The 2018 Population and Housing Census (PHC) is the sixth in the series of conducting censuses in Malawi and it falls under the 2020 round of World population censuses advocated by the United Nations. The first census in Malawi was conducted in 1966 with the subsequent ones being conducted in 1977, 1987, 1998 and 2008. Malawi decided to conduct a Computer Assisted Personal Interviewing (CAPI) census for the first time, a shift from previous censuses which were conducted using Pen and Paper for data collection. This entailed thorough preparations from questionnaire and programme design, tool testing, piloting through to training. National Statistical Office (NSO), implementers of Population and Housing Censuses in Malawi received technical assistance from the US Census Bureau who provided technical support for designing a CAPI based census.

The main census process started in 2016 with the drafting of the Main Census Project Document which was approved by the Cabinet the same year. Prior to this, the Census Mapping Strategy was developed in 2015 and implementation started the same year. National Statistical Office conducted census mapping using satellite imagery, the first such maps to be produced for the whole country. The country was demarcated into Enumeration Area (EAs) in the computer lab and teams were only sent to the field to verify physical features. Technical support for census mapping was provided by the Regional Centre for Mapping of Resources for Development (RCMRD) based in Nairobi, Kenya, a regional mapping group to which Malawi is a member state.

The design of the questionnaire and CAPI programming started in January 2017. The programme was pretested three times in June and July 2017 and in April 2018. The CAPI census was piloted in September 2017 exactly one year prior to the main census. The pilot census was a dry run of the main census aimed at assessing the completeness of preparations from technical, to logistical and administrative arrangements. Another key component for the success of the census was community mobilization and census publicity. The 2018 PHC publicity and count down campaign was launched by the Minister of Finance, Economic Planning and Development Honorable Goodall Gondwe in June 2018. Various campaign tools were utilized including use of airing of jingles, radio theatre, radio feature programmes,

---

television adverts, TV debates and live phone-in programmes, newspaper publications and adverts, printing and distribution of IEC materials which culminated into the community sensitization week, one week prior to the recruitment of enumerators. Training of enumerators was conducted between 27th August and 1st September 2018. Field enumeration was conducted between 3rd and 23rd September 2018. Data was captured electronically on tablets by Enumerators and was transmitted by Control Centre Supervisors through a private internet connection directly to the server at NSO.

## **1.2 Census management**

The census implementation was highly decentralized with each of the 42 census districts acting like an autonomous structure. The district was manned by two District Supervisors, one from NSO and the other from the District Commissioner's (DC) Office. Below the census district were Control Centres which were manned by Control Centre Supervisors. There was a total of 485 Control Centres across the country. Each Control Centre Supervisor was supervising about 8 Field Supervisors who were in turn supervising around 5 Enumerators each. In total each Control Centre Supervisor had 40 Enumerators and 8 Field Supervisors. There was a total of 18,772 enumerators manning the same number of Enumeration Areas (EAs) and 3,791 Field Supervisors in this census. At the national level, a Steering Committee was constituted chaired by the Minister of Finance, Economic Planning and Development. The Steering Committee provided direction for the census and acted as an overseer for the census activities and was very instrumental in resource mobilization.

## **1.3 The census questionnaire**

The questionnaire development was a very consultative process where stakeholders were consulted on questions they would like to be included in the census bearing in mind the need to keep the questionnaire short. Topics included in the questionnaire were among others: household member characteristics like age, sex, literacy and education, migration, mortality, fertility, economic activities, and disability and housing characteristics. For disability, a set of questions recommended by the Washington Group on Disability was used. The 2018 PHC also included questions on albinism and household business activities.

---

## **1.4 Quality of census data**

It was recognized that data quality enhances credibility of census and ensures that decision-making process is more effective. Efforts were therefore made at ensuring that the quality of census data was not compromised at critical stages of census implementation. Specifically, it was necessary to ensure that quality was not compromised due to use of poor maps, untested methodologies/instruments, inadequate supervision, poor training, inadequate support from the general public and inadequacies in data processing.

A number of strategies were therefore put in place to address issues mentioned above. These strategies involved the demarcation of the country into small administration areas to ensure complete coverage; preparation of comprehensive supervisors' and enumerator' manuals and most importantly CAPI manual; pretesting and piloting questionnaires and other procedures; providing adequate training to all staff involved in census activities, more especially enumerators; providing adequate publicity in order to gain public support; and undertaking key data edits immediately after receiving data from the field.

## **1.5 Organization of the report**

The report is organized into five chapters. Chapter 1: Introduction which includes background to the census. Chapter 2: Population structure and composition, which includes population size, population growth since 1966; intercensal population growth rates, sex ratios, population distribution that is spatial distribution, urban population, population density and age sex distribution. Chapter 3: Population characteristics covering nationality, emigration, religion denomination, tribe, education characteristics, persons with disabilities, orphanhood, and economic activities. Chapter 4: Household and housing characteristics covering household size housing units characteristics and occupancy, main source of emerged used for lighting and cooking, source of water for drinking, type of toilet facility, household means of communication and transportation, household agricultural equipment, appliances, furniture, livestock and business ownership. Chapter 5: Population dynamics covering fertility and mortality

## 2 POPULATION STRUCTURE AND COMPOSITION

### 2.1 Population size

The Population of 2018 is almost 4 times the size of the population of the 1966 and 1.3 times of the 2008 census. The total population increased by 35 percent between 2008 and 2018 representing an intercensal growth rate of 2.9 percent per annum. With this growth rate, the population is expected to double in 2042. **Table 2.1** and **Figure 2.1** show intercensal population growth rates from 1966 to 2018 for all the censuses conducted since independence. The general trend is that the population growth rate has remained high in Malawi except for 1987 to 1998 when the country experienced mass repatriation of refugees to Mozambique.

**Table 2.1: Total population 1966-2018**

Year of Census	Total Population	Average Annual/Intercensal Growth Rate

## 2.2 Population growth

**Table 2.2** shows intercensal annual growth rates and intercensal population increase for the period, 2008 – 2018, at national, regional and district levels. At regional level, Central Region had the highest intercensal growth rate of 3.1 percent per annum followed by the Northern Region at 3.0 percent and Southern Region at 2.7 percent. Among the cities, Mzuzu city experienced the highest intercensal growth rate at 5.4 percent followed by Lilongwe city at 3.8 percent, Zomba city at 2.5 percent and Blantyre city at 2.0 percent.

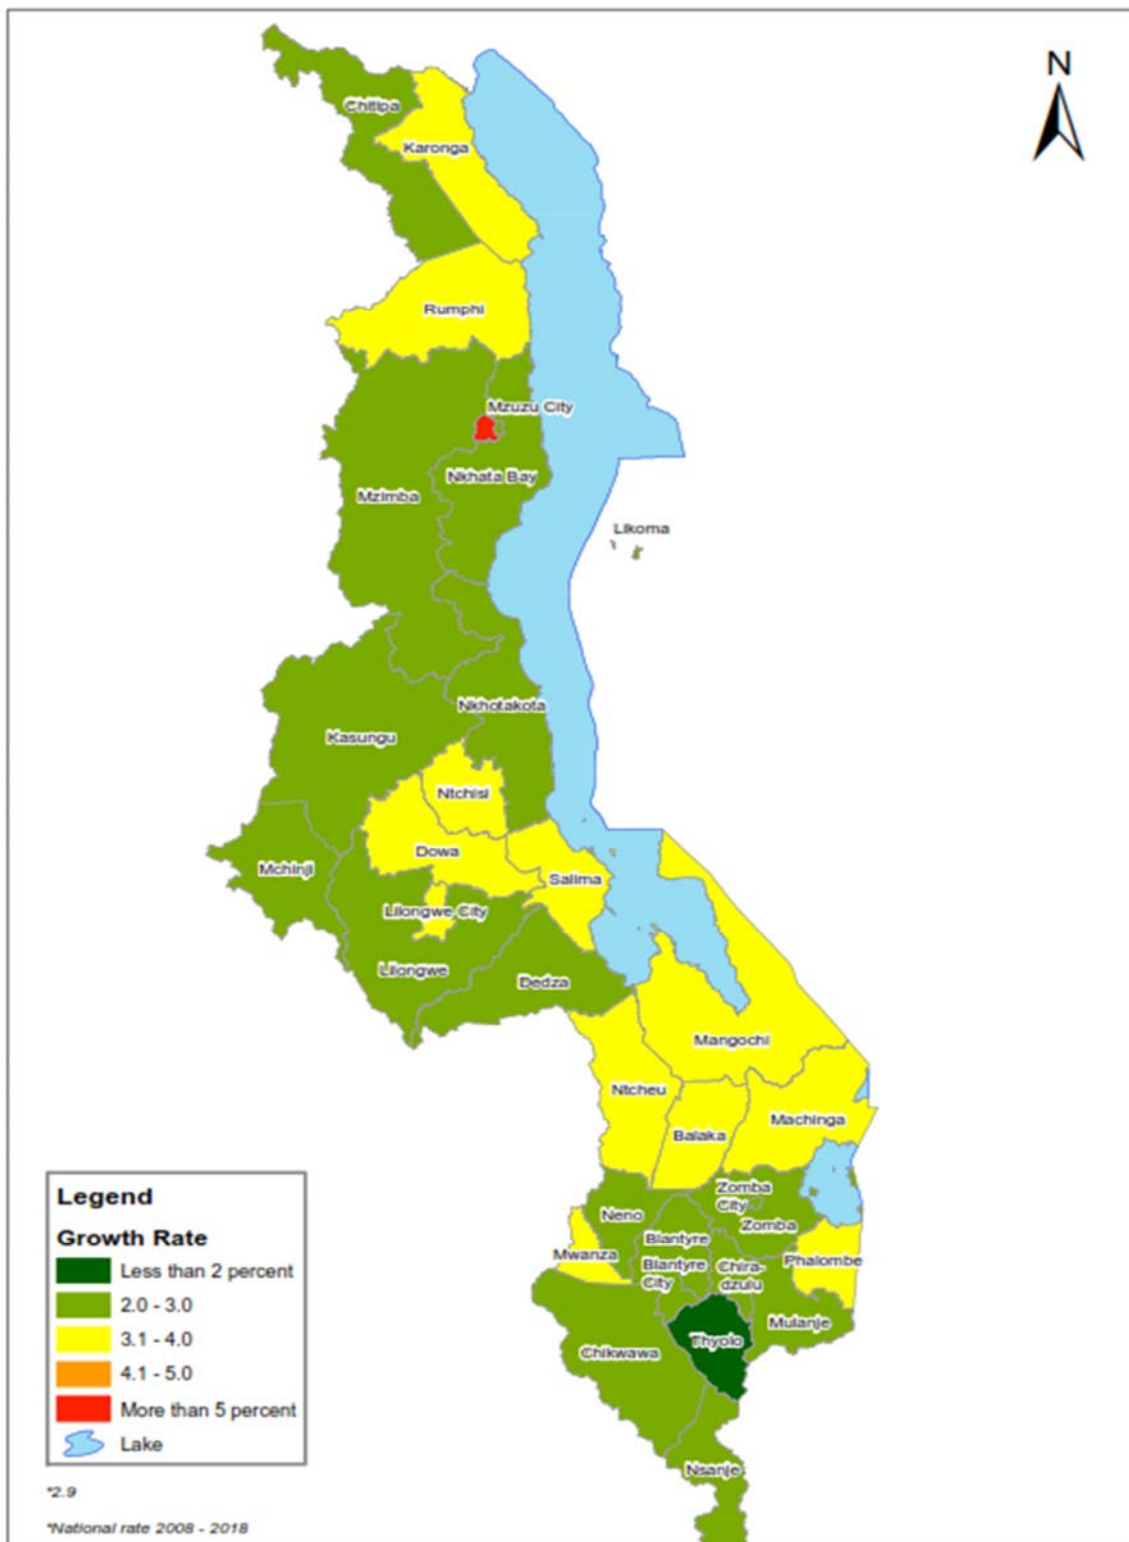

At district level, Machinga had the highest intercensal growth rate of 3.9 percent followed by Mangochi at 3.6 percent while Thyolo had the lowest intercensal population growth rate of 2.0 percent.

**Table 2.2 Intercensal annual growth rates**

Region and District	Intercensal Annual Growth Rate (percent) 2008-2018			Intercensal Population Increase 2008-2018		
	Total	Male	Female	Total	Male	Female
<b>Malawi</b>	<b>2.9</b>	<b>2.8</b>	<b>3.0</b>	<b>4,534,251</b>	<b>2,150,521</b>	<b>2,383,730</b>

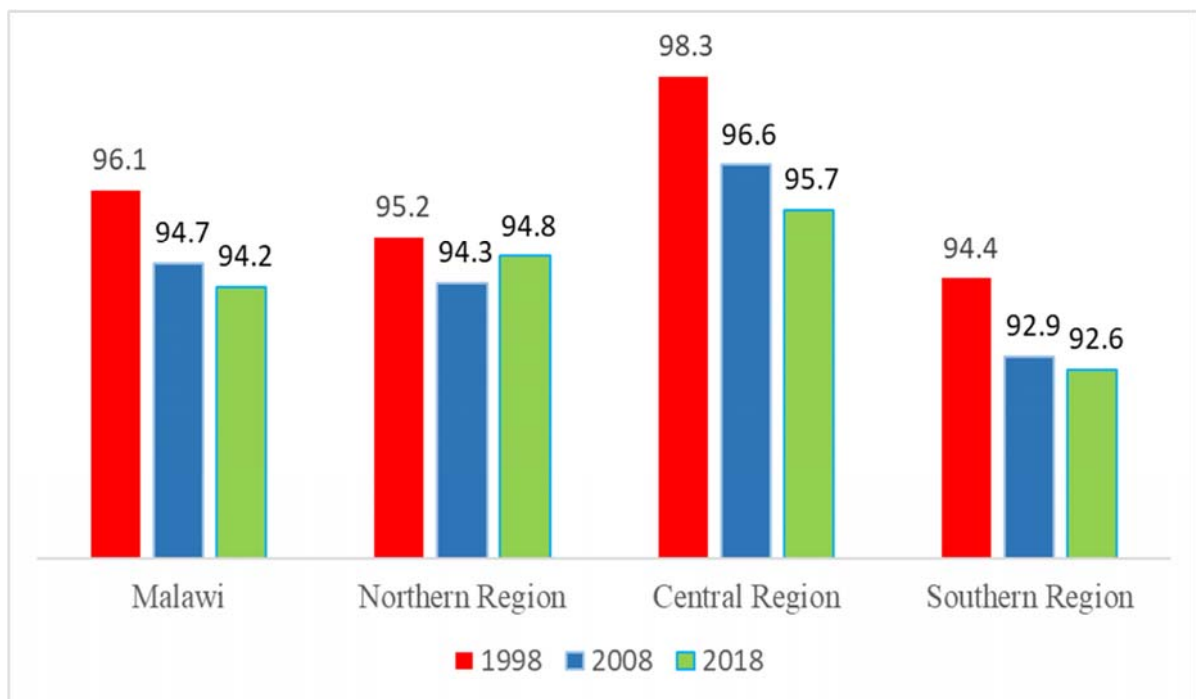

Figure 2.2: Map of Malawi showing annual growth rates by district 2008-2018

### 2.3 Sex ratio

Sex ratio is defined as the number of males per 100 females. **Figure 2.3** shows the sex ratio for 1998, 2008 and 2018 at national and regional levels. In 2018 the sex ratio was 94.2 at national level. At regional level the sex ratio was 94.8 for the Northern Region, 95.7 Central Region and 92.6 for Southern Region.

**Figure 2.3: Sex ratios by region, 1998, 2008 and 2018**

**Table 2.3** further shows that the four cities of Lilongwe, Blantyre, Mzuzu and Zomba had more males than females. The table also shows that there were more females in the rural areas of the country. Almost similar patterns were observed in the 1998 and 2008 censuses.

**Table 2.3: Sex ratio at regional and district levels, 1998, 2008 and 2018**

Region/District	Sex ratio		
	1998	2008	2018

## 2.4 Population distribution

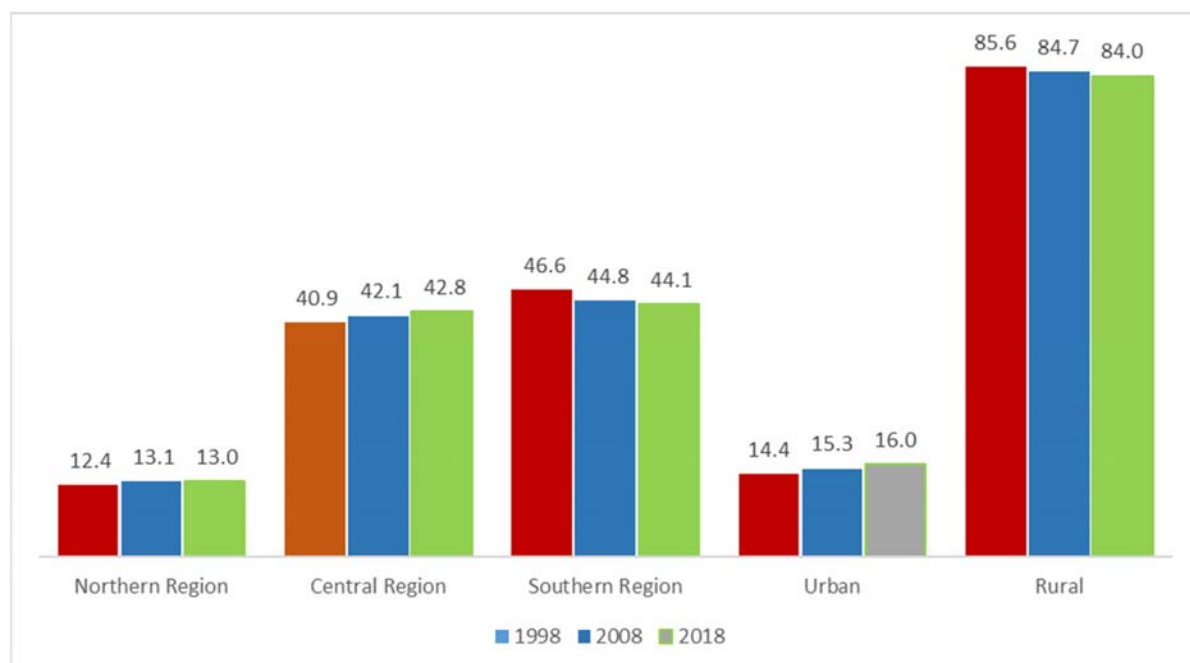

### 2.4.1 Spatial distribution

**Figure 2.4** shows population distribution by region, urban and rural areas. The Southern Region had the highest population with 44 percent of the total population. Central Region is the second most populous with 43 percent while Northern Region constitutes 13 percent of the total population.

**Table 2.4** shows population distribution by region, urban, rural and district. Lilongwe rural had the highest proportion of the population at 9.3 percent followed by Mangochi at 6.5 percent and Mzimba 5.4 percent. Likoma had the smallest proportion at 0.1 percent followed by Neno at 0.8 percent and Rumphi 1.3 percent.

Among the four cities, Lilongwe city constituted 5.6 percent of the total population, Blantyre city 4.6 percent, while Mzuzu city and Zomba city constituted 1.3 percent and 0.6 percent respectively.

**Figure 2.4: Distribution of population by region, urban and rural, 1998-2018**

---

### 2.4.2 Urban population

In Malawi, Urban Areas refer to the four major cities of Blantyre, Lilongwe, Mzuzu and Zomba and other towns and Bomas, and gazetted town planning areas. **Table 2.4** shows that 16 percent of the population resided in the urban areas of the country in 2018. Of the total urban population, 12 percent resided in the four major cities and 4 percent resided in the other towns and Bomas. Urban population in Malawi has been on the increase from about 850,000 in 1987 to 1.4 million in 1998 to 2.0 million in 2008 to 2.8 million in 2018. However, the proportionate increase as a proportion of the national population has been marginal rising from 14.4 percent in 1998 to 15.3 percent in 2008 to 16 percent in 2018.

**Table 2.4 Percentage distribution of population by region, urban, rural and district  
1998, 2008 and 2018**

District/Region	Year of the Census		
	1998	2008	2018

### 2.4.3 Population density

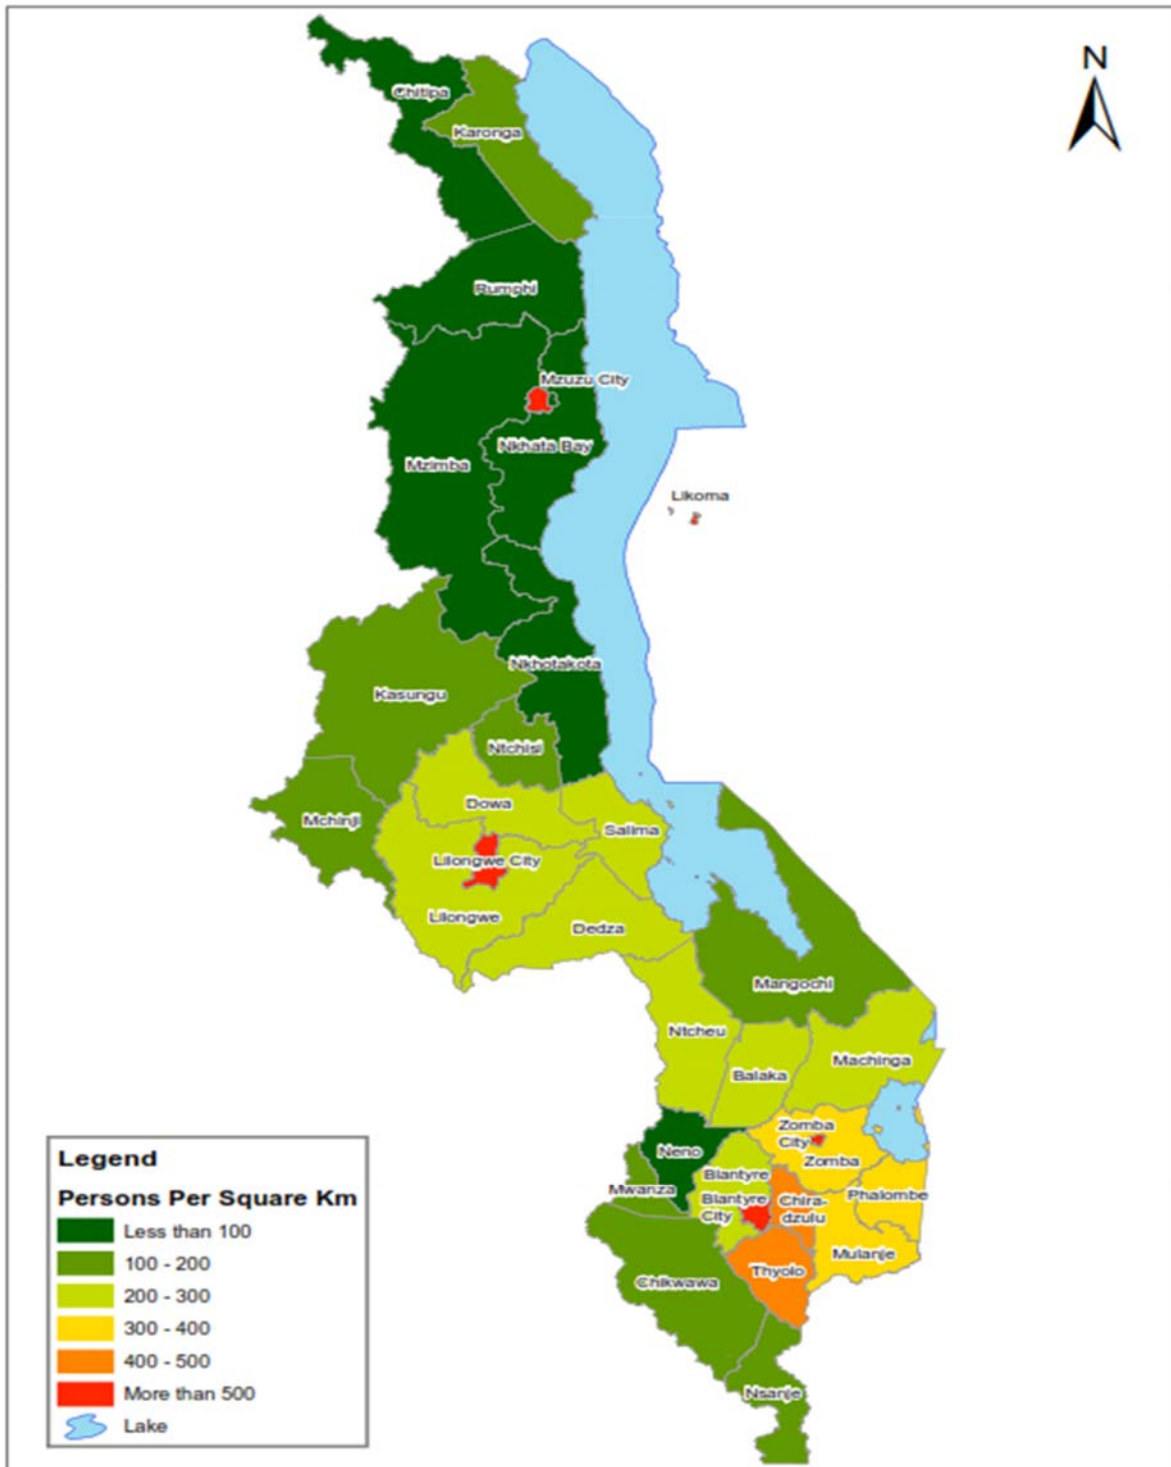

Population density is the measurement of average number of persons per square kilometer. **Table 2.5** gives population density by region and district for 2008 and 2018. The population density for the country increased from 138 persons per square kilometer in 2008 to 186 persons per square kilometer in 2018. Across the regions, there were more persons per square kilometer in the Southern Region (244) followed by Central region (211) and Northern region (84). Among the districts, Likoma had the highest population density of 726 persons per square kilometer, Chiradzulu and Thyolo had 469 and 433 persons per square kilometer respectively. Rumphi district had the lowest population density of 50 persons per square kilometer followed by Chitipa with 54 persons per square kilometer as shown in **Figure 2.5**.

**Table 2.5: Population density by region and district, 1987-2008**

Figure 2.5: Map of Malawi showing Population Density by district, 2018

## 2.5 Age and sex distribution

The census shows that in Malawi 2.6 million people were aged under-five years, 6.3 million people were aged between 5 and 17 years and about 8.7 million were aged 18 years or more.

Proportionately, the census results revealed that about 3 percent of the total population in Malawi comprised infants aged less than 1 year, 15 percent were aged under-five years and about 49 percent were aged 18 years or older, while a further 4 percent were aged 65 years or older. The median age of the population in Malawi is 17 years. The age and sex pyramid shows that Malawi's population is still youthful but also transitioning from high fertility to low fertility as is confirmed by the narrowing base of population aged 0-4 years.

Figure 2.6: Population pyramid of Malawi

### 3 POPULATION CHARACTERISTICS

#### 3.1 Nationality

The Census classified the population by nationality. **Table 3.1** shows Non-Malawian population enumerated in Malawi during the time of the census. There were 57,211 Non-Malawian population representing 0.33 percent. Of those Non-Malawian population, 21 percent were from Zambia, 9 percent were from Mozambique, 5 percent were Zimbabwe, 3 percent were South Africa and 2 percent were Tanzania. Forty-five percent of foreign nationals came from other African countries while 11 percent came from other countries outside Africa. United Kingdom and United States of America contributed 1.5 percent and 0.6 percent to the foreign nationals enumerated in Malawi respectively.

**Table 3.1 Non-Malawian population by country of nationality**

Nationality	Number	Percent
<b>Total</b>	<b>57,211</b>	<b>100.0</b>
United Kingdom	862	1.5
United States of America	366	0.6
Zambia	12,127	21.2
Zimbabwe	2,875	5.0
Mozambique	5,349	9.3
South Africa	1,736	3.0
United Republic of Tanzania	1,252	2.2
Other Africa Countries	25,876	45.2
Other countries outside Africa	6,768	11.8

#### 3.2 Emigration

The census collected information on household members who emigrated from Malawi between 2008 and 2018 census and reasons why they left Malawi. **Table 3.2** shows non-return emigrants by country of destination. Almost 81 percent of Malawians moved to South Africa, 8 percent to Mozambique, 4 percent to Zimbabwe and 3 percent to Tanzania and 4 percent to other destinations in the world. **Table 3.3** shows non-return emigrants by reasons for leaving Malawi. Most emigrants left Malawi looking for work (almost 38 percent), 6 percent were following family, 2 percent were students while 15 percent for other reasons and 39 percent did not state the reason for leaving the country.

**Table 3.2 Distribution of non-return emigrant by country of destination, 2018**

Destination Country	Total		Male		Female	
	Number	Percent	Number	Percent	Number	Percent
<b>Total</b>	<b>254,934</b>	<b>100.0</b>	<b>197,501</b>	<b>100.0</b>	<b>57,433</b>	<b>100.0</b>

### 3.3 Religious denomination

**Table 3.4** and **Figure 3.1** show distribution of religious denominations Malawians belong to. There were 17,563,749 million usual residents of whom 3.0 million (17.2 percent) were Roman Catholics, 2.5 million (14.2 percent) belonged to Church of Central African Presbyterian (CCAP), 2.4 million (13.8 percent) were Moslems, 1.6 million (9.4 percent) were Seventh Day Adventist/Baptist/Apostolic, 4.7 million (26.6 percent) were other Christians denominations, 5.6 percent were population with other non-Christian denominations and 0.4 million (2.1 percent) had no religion.

**Table 3.4: Population distribution by religious denomination, 2018**

Religious Denomination	Total	Percent
<b>Total</b>	<b>17,563,749</b>	<b>100.0</b>
Roman Catholic	3,028,435	17.2
Church of Central African Presbyterian	2,498,969	14.2

No Religion	376,784	2.1

**Figure 3.1: Population distribution by religious denomination, 2018**

### 3.4 Population distribution by tribe

The 2018 Population and Housing Census collected information on tribe. **Table 3.5** and **Figure 3.2** show that 6.0 million people (34.4 percent) were Chewa, 3.3 million people (18.9 percent) were Lomwe, 2.3 million people (13.3 percent) were Yao, 1.8 million people (10.4 percent) were Ngoni, and 1.6 million people (9.2 percent) were Tumbuka.

**Table 3.5 Population distribution by tribe, 2018**

Tribe	Region			
	Malawi	Northern Region	Central Region	Southern Region
<b>Total</b>	<b>17,506,022</b>	<b>2,283,680</b>	<b>7,486,480</b>	<b>7,735,862</b>
Chewa	6,020,945	158,250	5,351,396	511,299
Tumbuka	1,614,955	1,311,292	236,695	66,968
Lomwe	3,302,634	30,040	229,244	3,043,350
Tonga	310,031	218,758	63,888	27,385

Other	186,319	114,448	16,095	55,776

**Figure 3.2: Population distribution by tribe, 2018**

### **3.5 Education characteristics**

The 2018 PHC collected information on literacy, school attendance and highest education qualification attainment for persons aged 3 years and older. In this section information is provided for persons aged 5 years and older on literacy, current school attendance and children out of school.

#### **3.5.1 Literacy**

According to the definition adopted by the census of literacy, a person was considered literate if he or she was reported to be able to read and write a simple sentence in any language. During the census enumeration, persons eligible to answer this question were those aged 3 years and above. In this report, literacy is reported for persons aged 5 years and over. **Table 3.6** shows distribution of persons by literacy status and **Figure 3.3** provides literacy rates. There were 15.0 million persons aged 5 years and older and out of these 10.3 million persons were literate, representing 68.6 percent literacy rate. There were more literate men than women, 71.6 percent and 65.9 percent respectively. The Northern Region had the highest literacy rate at 79.0 percent then the Central and Southern Regions at 67.0 percent.

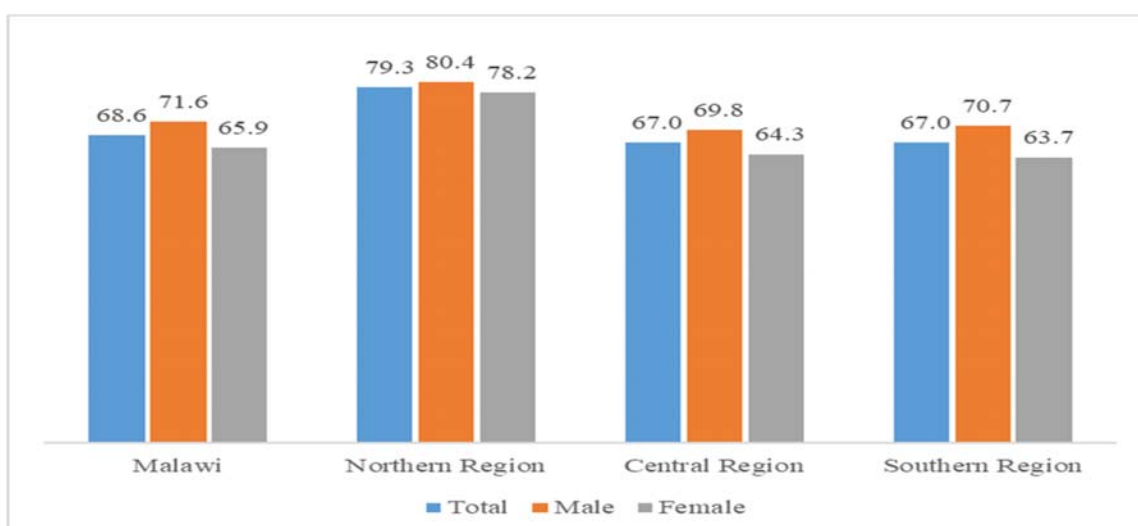

At district level, Likoma district had a highest literacy rate of 85 percent followed by Rumphi (83 percent) and Chitipa (80 percent) while Mangochi had the lowest literacy rate of 53 percent followed by Nsanje (56 percent) and Machinga (57 percent).

Looking at the four cities in Malawi, Mzuzu, Lilongwe, Zomba and Blantyre in terms of literacy rate; Mzuzu City had the highest literacy rate of 91 percent followed by Zomba and Blantyre Cities (90 percent) then Lilongwe City at 87 percent as shown in **Figure 3.4**.

**Table 3.6 Population aged 5 years and older by literacy status, sex and region, 2018**

Region	Population aged 5 years and older		
	Total	Male	Female
<b>Malawi</b>	<b>15,011,343</b>	<b>7,255,489</b>	<b>7,755,854</b>
Northern Region	1,970,696	956,606	1,014,090
Central Region	6,434,150	3,139,752	3,294,398
Southern Region	6,606,497	3,159,131	3,447,366
Literate			
<b>Malawi</b>	<b>10,301,467</b>	<b>5,192,701</b>	<b>5,108,766</b>

Central Region	2,124,091	948,953	1,175,138
Southern Region	2,177,582	926,722	1,250,860

**Figure 3.3: Percentage of population aged 5 years and older by sex and region, 2018**

**Figure 3.4 Percentage of literacy rates by district, 2018**

### 3.5.2 School attendance

Table 3.7 shows distribution of persons aged 5 years and older by school attendance. Out of 15.0 million persons aged 5 years and older, 5.3 million were currently attending school representing 35.4 percent. In Malawi 81 percent of persons aged 5 years and older have ever attended school, whilst 19 percent of the persons aged 5 years and older have never attended school.

**Table 3.7 Distribution of persons aged 5 years and older by school attendance, 2018**

5 year age groups	Total	Never Attended School	Ever Attended School		
			Total	Not Currently Attending	Currently Attending
<b>Total</b>	<b>15,011,343</b>	<b>2,902,838</b>	<b>12,108,505</b>	<b>6,800,303</b>	<b>5,308,202</b>
5 - 9	2,632,878	599,144	2,033,734	300,547	1,733,187
10 - 14	2,533,303	179,530	2,353,773	236,638	2,117,135
15 - 19	2,035,945	201,152	1,834,793	691,314	1,143,479
20 - 24	1,651,576	216,179	1,435,397	1,192,913	242,484
25 - 29	1,229,411	198,544	1,030,867	987,988	42,879
30 - 34	1,107,226	207,699	899,527	884,498	15,029
35 - 39	968,998	206,025	762,973	755,764	7,209
40 - 44	729,600	197,726	531,874	528,111	3,763
45 - 49	535,868	177,958	357,910	356,013	1,897
50 - 54	387,812	135,629	252,183	251,173	1,010
55+	1,198,726	583,252	615,474	615,344	130

**Figure 3.5** shows distribution of persons 5-29 years who never attended school in their life. Among those who never attended school there is a higher proportion of males than females in the age group 5 – 9 years who never attended school, 24 percent males and 22 percent females respectively. Education policy for Malawi makes provision for children to be in school for at least 12 years. This allows for 8 years of primary school education and 4 years of secondary school education.

**Figure 3.5: Percentage of persons 5-29 years never attended school by age and sex, 2018**

### 3.5.3 Out of school Children in primary and secondary school

As is shown in **Table 3.8**, the total number of out of school children both primary and secondary schools was 2.4 million representing 41.0 percent of the total children of school going age. Slightly over one million or 24.5 percent were children of primary school going age (6 to 13 years old) and 1.4 million or 82.2 percent were children of secondary school age (14 to 17 years old) as shown in

**Figure 3.6.**

**Table 3.8: Population age 6 to 17 years in school and out of school, 2018**

Total	Total	Primary (6-13 year old)		Total	Secondary (14-17 year old)	
		In-School	Out-of-school		In-School	Out-of-School
<b>Total</b>	<b>4,142,872</b>	<b>3,126,670</b>	<b>1,016,202</b>	<b>1,670,145</b>	<b>297,339</b>	<b>1,372,806</b>

Female	2,102,494	1,602,911	499,583	836,679	162,627	674,052

**Figure 3.6 Out of school children in primary and secondary school**

### 3.6 Orphanhood

An orphan is defined as a child under 18 years of age who has lost one or both biological parents to any cause of death. In 2018 PHC 51 percent (8,894,534) of children were aged 0-17 years and of these children, 11 percent (978,363) were orphans.

Figure 3.7 shows the distribution of orphaned children. Eleven percent of children in the Northern Region were orphans, 9.9 percent in the Central Region and 12.0 percent in the Southern Region.

**Figure 3.7 Orphaned children by Region, 2018**

**Table 3.9** shows orphans in Malawi. Out of these 61 percent had lost father only, 27 percent had lost mother only and 12 percent had lost both parents. The table further shows that Central Region had highest percentage of children that lost mothers only.

**Table 3.9 Orphaned children by region, 2018.**

Region	Orphaned children							
	Total		Paternal		Maternal		Both Parents	
	Number	Percent	Number	Percent	Number	Percent	Number	Percent
<b>Malawi</b>	978,293	100.0	597,302	61.1	267,050	27.3	113,941	11.6

### 3.7 Persons with disabilities

Persons with disabilities were defined as having difficulties or problems in one or all of the following areas; seeing, hearing, walking/climbing, speaking, intellectual, self-care and other difficulties. About 10.4 percent of the population aged 5 years and older in Malawi had at least one type of disability, 10 percent were males and 11 percent females. Out of the 1,556,670 persons with at least one type difficulty, 49 percent had difficulty seeing, 24 percent had difficulty hearing, 27 percent had difficulty walking/climbing, 9 percent had difficulty in speaking, as shown in **Table 3.11**. The table further shows that 16 percent of persons with disabilities, had intellectual difficulties while 8.5 percent had problems with safe care. The 2018 PHC also collected information on persons with albinism. Of the total population about 0.8 percent (134,636) were persons with albinism.

**Table 3.11: Distribution of the population aged 5 years and older with at least one type of disability, 2018**

Type of Difficulty	Total		Male		Female	
	Number	Percent	Number	Percent	Number	Percent
<b>Person with disability</b>	<b>1,556,670</b>	<b>10.4</b>	<b>701,484</b>	<b>9.7</b>	<b>855,186</b>	<b>11.0</b>
Difficulty seeing	762,702	49.0	336,358	47.9	426,344	49.9
Difficulty hearing	377,790	24.3	170,524	24.3	207,266	24.2
Difficulty walking	418,669	26.9	151,803	21.6	266,866	31.2

Problems with safe-care	131,597	8.5	65,889	9.4	65,708	7.7
Other difficulty	283,365	18.2	145,423	20.7	137,942	16.1

### 3.8 Economic activity

The 2018 Population and Housing Census collected information on economic characteristics of the population aged 10 years and older but in this report information is provided for the population aged 15 to 64 years. All the eligible household members were asked whether one worked during the last seven days or not.

#### 3.8.1 Working age population

In this report working population comprised all persons aged 15 to 64 years. **Table 3.12** shows that out of 17,563,749 persons enumerated, 9,188, 275 (52.3 percent) were persons aged 15 to 64 years. Of these 6,614,065 were economically active (72 percent) and 2,574,210 were economically inactive (28 percent).

**Table 3.12 Working age population by sex, 2018**

Population	Total	Male	Female
<b>Total</b>	<b>17,563,749</b>	<b>8,521,460</b>	<b>9,042,289</b>
Working population	9,188,275	4,431,102	4,757,173
Economically active	6,614,065	3,242,280	3,371,785
Economically inactive	2,574,210	1,188,822	1,385,388
Employed and unemployed			
Labour Force	6,614,065	3,242,280	3,371,785
Employed	5,389,463	2,702,506	2,686,957
unemployed	1,224,602	539,774	684,828

#### 3.8.2 Employment and unemployment

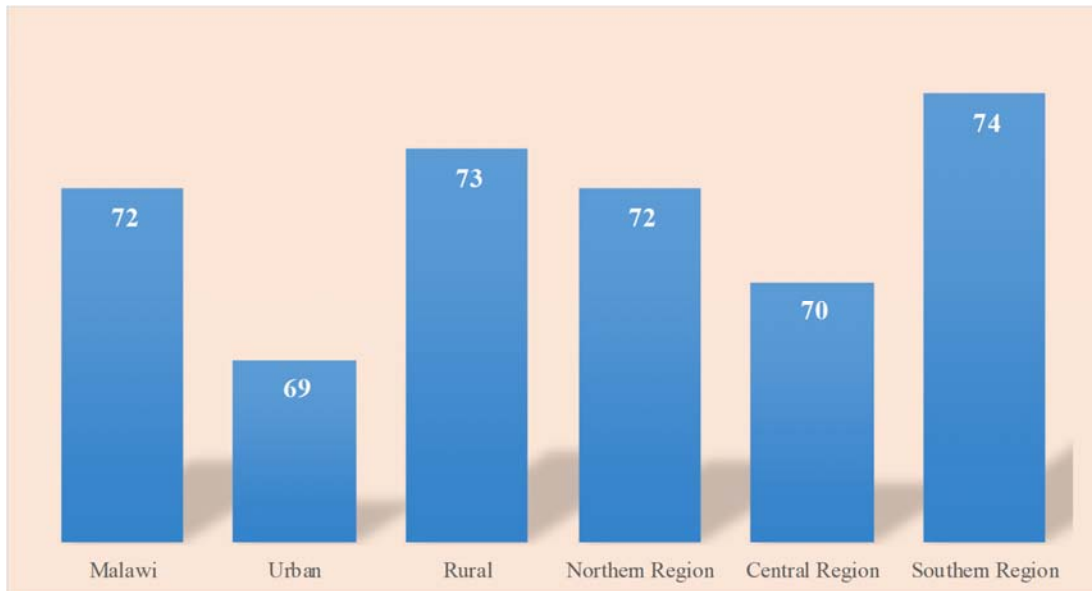

**Table 3.12** shows employed and unemployed persons. Out of the labour force of 6,614,065 persons, 5,389,463 (81.5 percent) were employed and 1,224,602 (18.5 percent) were unemployed. The unemployed were persons who during the reference period of seven days did not work even for an hour but were available for work.

### Labour force participation rates (LFPR)

Labour force participation rate is the percentage of working population to the total population aged 15 to 64 years. **Figure 3.8** shows labour force participation rates at national, urban, rural and regional levels. Labour force participation rate at national level was 72 percent, 69 percent for urban areas and 73 percent for rural areas. At regional level, the Northern Region had 72 percent of participation rate, 70 percent for the Central Region and 74 percent for the Southern Region.

**Figure 3.8: Labour force participation rate by urban, rural and region, 2018**

## 4 HOUSEHOLD SIZE AND HOUSING CHARACTERISTICS

### 4.1 Number of households and average household size

**Table 4.1** shows number of households and average household sizes by region. There were 3,984,929 households in Malawi in 2018 Population and Housing Census, up from 2,869,933 in 2008 PHC, representing a 39 percent rise. Average household size is defined as total household population divided by the total number of households in an area. **Table 4.1** and **Figure 2.1** show the average household size for 2018 PHC was at 4.4 persons per household, a marginal drop from 4.6 in 2008 PHC. The Northern Region had the biggest average household size of 4.8, followed by the Central Region with household size of 4.4 and Southern Region with household size of 4.3 persons per household in 2018 PHC.

**Table 4.1: Distribution households and household size by region, 2008 and 2018**

Region	2008		2018	
	Number of Households	Average Household Size	Number of Households	Average Household Size
<b>Malawi</b>	<b>2,869,933</b>	<b>4.6</b>	<b>3,984,986</b>	<b>4.4</b>
Northern Region	336,602	5.1	472,376	4.8
Central Region	1,192,139	4.6	1,713,010	4.4
Southern Region	1,341,192	4.4	1,799,600	4.3

**Figure 4.1: Average household size by region, 2008 and 2018**

## 4.2 Housing units characteristics

There were 4,805,431 housing units enumerated in the 2018 PHC as shown in **Table 4.2**. Of these housing units, 41.1 percent were permanent, 23.0 percent were semi-permanent and 35.9 percent were traditional. In the Northern Region, 53.9 percent of housing units were permanent, 26.3 percent were semi-permanent and 19.8 percent were traditional. For Central Region, 33.6 percent of housing units were permanent, 22.1 percent were semi-permanent and 44.3 percent were traditional. Southern Region had 45.1 percent permanent housing units, 23.1 percent semi-permanent and 31.8 percent traditional housing units.

**Table 4.2: Type of housing units, 2018**

Type of Housing Units	Malawi		Northern Region		Central Region		Southern Region	
	Number	Percent	Number	Percent	Number	Percent	Number	Percent
<b>Total Housing Units</b>	<b>4,805,431</b>	<b>100.0</b>	<b>565,331</b>	<b>100.0</b>	<b>2,098,353</b>	<b>100.0</b>	<b>2,141,747</b>	<b>100.0</b>
Permanent	1,974,613	41.1	304,588	53.9	704,277	33.6	965,748	45.1
Semi-permanent	1,107,447	23.0	148,691	26.3	463,829	22.1	494,927	23.1
Traditional	1,723,371	35.9	112,052	19.8	930,247	44.3	681,072	31.8

### 4.3 Housing units occupancy

**Table 4.3** shows distribution of housing units by type of occupancy. Of the total number of housing units occupied, 85 percent were owner or family occupied, 12 percent were rented and 2 percent were institutional.

**Table 4.3: Housing units occupancy, 2018**

Housing Occupancy	Malawi		Northern Region		Central Region		Southern Region	
	Number	Percent	Number	Percent	Number	Percent	Number	Percent
Total Housing Units	4,805,431	100.0	565,331	100.0	2,098,353	100.0	2,141,747	100.0
Owner occupied	4,089,937	85.1	472,895	83.6	1,784,474	85.0	1,832,568	85.6
Rented	554,738	11.5	66,523	11.8	246,430	11.7	241,785	11.3
Institutional	90,642	1.9	15,655	2.8	39,232	1.9	35,755	1.7
Other	70,114	1.5	10,258	1.8	28,217	1.3	31,639	1.5

### 4.4 Main source of energy used for lighting and cooking

The 2018 PHC collected information on main source of energy used for lighting and for cooking which included electricity, paraffin, gas, charcoal, firewood and other. **Table 4.4** shows distribution of main sources of energy used for lighting and used for cooking. **Figure 4.2** shows that battery was the main source of energy used for lighting in most households in Malawi (52.9 percent) followed by electricity (11.4 percent), solar (6.6 percent), candles (6.2 percent) and 4.4 percent of households used firewood as main source of lighting.

**Figure 4.2 Household by main source of energy for lighting, 2018**

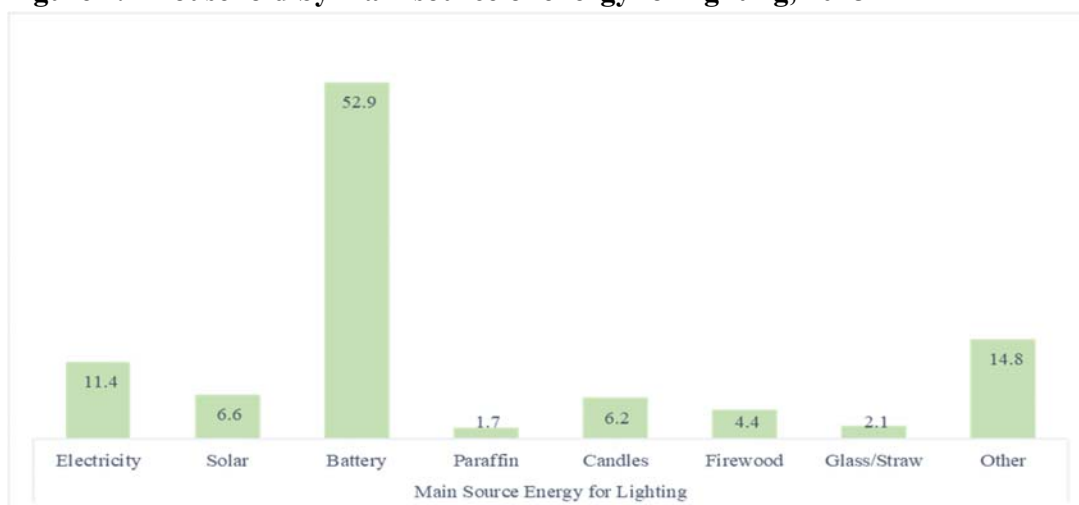

Table 4.4 also shows main source of energy used for cooking in Malawi. The majority of households used firewood the main source (77.4 percent) followed by charcoal (18 percent) and electricity (2 percent).

At regional level, 13.0 percent of the households in the Northern Region used electricity as main source of energy for lighting, 8.8 percent for Central Region and 13.4 percent for Southern Region as shown in **Figure 4.3**. Solar energy was used by 12.3 percent of households in the Northern Region as main source of energy for lighting, 7.0 percent in the Central Region and 4.7 percent in the Southern Region. Battery was used as main source of energy for lighting by 47.9 percent of the households in the Northern Region, 54.3 percent in the Central Region and 52.9 percent in the Southern Region.

**Table 4.4: Households by main source of energy used for lighting and Cooking, 2018**

Source of Energy	Main Source of Energy Used for Lighting				Main Source of Energy Used for Cooking			
	Total	North	Centre	South	Total	North	Centre	South

**Figure 4.3 Households by main source of energy for lighting by region, 2018**

#### 4.5 Source of drinking water

Household information regarding sources of drinking water in dry season is used as a proxy of general population welfare of the country. In the 2018 PHC, each household was asked to mention the main source of drinking water during the dry season. It was shown that 85 percent of population in households used improved sources of drinking water which include piped water, public standpipes, tube/protected wells and boreholes. **Table 4.5** shows that about 61.7 percent of the population used boreholes, 8.1 percent used community standpipe, and 10.3 percent used piped water into dwelling or plot as main source of drinking water in the dry season. At regional level, 16.8 percent of the population in Northern Region used piped water in dwelling or plot as main source of drinking water, 9.3 percent in Central Region and 9.4 in the Southern Region.

**Table 4.5 : Number and Percentage of population by main source of drinking water during dry season, 2018**

Main Source of Drinking Water	Malawi		Northern Region		Central Region		Southern Region	
	Number	Percent	Number	Percent	Number	Percent	Number	Percent
<b>Total</b>	<b>17,517,349</b>	<b>100.0</b>	<b>2,281,105</b>	<b>100.0</b>	<b>7,503,594</b>	<b>100.0</b>	<b>7,732,650</b>	<b>100.0</b>

#### 4.6 Type of toilet facility

The 2018 PHC collected information on the types of toilet facility used by the household members. Types of toilet facility included flush toilet, ventilated improved pit latrine (VIP), Pit latrine with concrete slab, pit latrine with earth/sand slab, pit latrine without slab or open pit, composite toilet and other. **Table 4.6** shows that 46.3 percent of household members had pit latrine with earth/sand slab, 28.3 percent use pit latrine without slab or open pit, 9.4 percent had pit latrine with concrete slab and 3.0 percent had flush toilet and still 5.9 percent of household members used bush or field. At regional level, 47.4 percent in the Northern Region used pit latrine with earth/sand slab, 45.1 percent in Central Region and 47.2 percent in the Southern Region. There was not much difference in the use of pit latrine without slab across the three regions.

**Table 4.6 : Number and percentage of population by type of toilet facility, 2018**

Type of Toilet Facility	Malawi		Northern Region		Central Region		Southern Region	
	Number	Percent	Number	Percent	Number	Percent	Number	Percent

#### 4.7 Household means of communication

The 2018 PHC collected information on household effects and telecommunication. **Table 4.7** shows distribution of households with telecommunication equipment. Of the total households in Malawi (3,984,981), 51.7 percent had a mobile phone, 33.6 percent had a radio, 11.8 percent had a television and 16.4 percent had an access to the Internet. At regional level, 66.0 percent of households in the Northern Region had a mobile phone, 48.5 in the Central Region and 51.0 percent in the Southern Region. The Table also provides information on households with access to the Internet by region. In the Northern Region 16.4 percent of household had access to the Internet, 10.0 percent in Central Region and 23.2 percent in the Southern Region. Access to the radio was at 37.1 percent in the Northern Region, 31.3 percent in the Central Region and 34.7 percent in the Southern Region. Landline was at 1.5.

**Table 4.7 : Number and percentage of households by means of communication, 2018**

Communication Equipment	Malawi		Northern Region		Central Region		Southern Region

#### 4.8 Household means of transportation

The 2018 PHC collected information on household transportation means such as bicycle, motorcycle or scooter, motor vehicle, oxcart and boat or canoe. **Table 4.8** shows distribution of households with transportation effects. Of the total households in Malawi, 35.8 percent of had a bicycle, 3.7 percent had a motor cycle or scooter, 2.4 percent had a motor vehicle and 2.3 percent had an oxcart. At regional level, 31.9 percent of households in the Northern Region had a bicycle, 34.8 in the Central Region and 37.7 percent in the Southern Region.

**Table 4.8 Percentage of households by means of transportation, 2018**

Means of transport	Malawi		Northern Region		Central Region		Southern Region	
	Number	Percent	Number	Percent	Number	Percent	Number	Percent
<b>Total</b>	<b>3,984,981</b>	<b>N/A</b>	<b>472,376</b>	<b>N/A</b>	<b>1,713,009</b>	<b>N/A</b>	<b>1,799,596</b>	<b>N/A</b>

#### 4.9 Household agricultural equipment

The 2018 PHC collected information on household agricultural equipment such as motorized pump, treadle pump, generator, water can, hoe or panga knife, plough or ridge and finishing net. Table 4.9 shows distribution of households with agricultural equipment at home. The enumeration showed that 87.7 percent of households in Malawi had a hoe or panga knife, 26.5 percent had water can, less than 2 percent of households had a motorized pump or treadle pump or plough or ridge as household agricultural equipment.

**Table 4.9 : Percentage of households by agricultural equipment, 2018**

Agricultural equipment	Malawi		Northern Region		Central Region		Southern Region	
	Number	Percent	Number	Percent	Number	Percent	Number	Percent
<b>Total</b>	<b>17,517,349</b>	<b>N/A</b>	<b>2,281,105</b>	<b>N/A</b>	<b>7,503,594</b>	<b>N/A</b>	<b>7,732,650</b>	<b>N/A</b>
Motorized pump	167,791	1.0	22,197	1.0	72,191	1.0	73,403	0.9

#### 4.10 Household appliances and furniture

The 2018 Population and Housing Census collected information on household appliances and furniture such as refrigerator or deep freezer, cooker/gas cooker/hot plate, Iron, solar panel, torch or Lamp or lantern, sleeping mat, table or chairs, bed and mattress. At national level, 84.8 percent of households had torch or lamp, 92.2 percent had a mat used for sleeping, 38.6 percent had a table or chairs, 32.2 percent has a bed used for sleeping, 31.4 percent had mattress for sleeping on, 17.1 percent had a solar panel while 14.9 percent had iron used to iron out clothes and 5.6 percent of the household had a refrigerator.

**Table 4.10 : Percentage of households by appliances and furniture, 2018**

Appliances and Furniture	Malawi		Northern Region		Central Region		Southern Region	
	Number	Percent	Number	Percent	Number	Percent	Number	Percent
<b>Total</b>	<b>3,984,981</b>	<b>100.0</b>	<b>472,376</b>	<b>100.0</b>	<b>1,713,009</b>	<b>100.0</b>	<b>1,799,596</b>	<b>100.0</b>
Refrigerator	224,521	5.6	28,179	6.0	84,540	4.9	111,802	6.2
Cooker/Gas Cooker	182,775	4.6	23,764	5.0	74,068	4.3	84,943	4.7
Iron	594,713	14.9	96,373	20.4	232,049	13.5	266,291	14.8

Table/Chairs	1,536,357	38.6	280,294	59.3	563,691	32.9	692,372	38.5
Bed	1,282,134	32.2	271,527	57.5	440,846	25.7	569,761	31.7
Mattress	1,249,749	31.4	241,050	51.0	458,244	26.8	550,455	30.6

#### 4.11 Household with Livestock

Information on household possession was asked to all households during 2018 PHC enumeration. The following types of livestock were asked for: goats, pigs, cattle, sheep, chickens and other poultry **Table 4.11** shows 33 percent of households had chickens, 18 percent had goats, 8 percent had pigs, 4 percent had cattle and 16 percent of the households had other poultry.

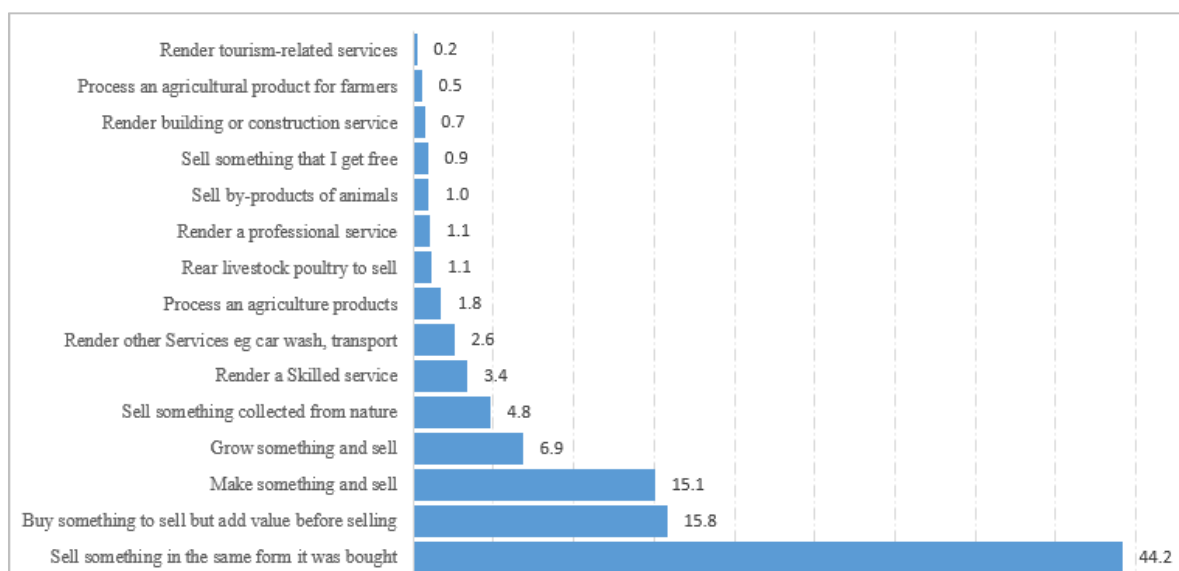

**Table 4.11 Percentage of households with livestock, 2018**

Type of livestock	Malawi		Northern Region		Central Region		Southern Region	
	Number	Percent	Number	Percent	Number	Percent	Number	Percent
<b>Total</b>	<b>3,984,981</b>	<b>N/A</b>	<b>472,376</b>	<b>N/A</b>	<b>1,713,009</b>	<b>N/A</b>	<b>1,799,596</b>	<b>N/A</b>
Goats	707,850	17.8	87,019	18.4	322,011	18.8	298,820	16.6
Pigs	308,325	7.7	73,764	15.6	159,270	9.3	75,291	4.2
Cattle	172,317	4.3	54,127	11.5	64,268	3.8	53,922	3.0
Sheep	15,938	0.4	2,360	0.5	8,683	0.5	4,895	0.3
Chicken	1,322,309	33.2	234,969	49.7	547,641	32.0	539,699	30.0
Other poultry	623,126	15.6	161,050	34.1	217,709	12.7	244,367	13.6

#### 4.12 Household business ownership

The 2018 PHC collected information on small businesses operated by any member of the household. Out of 3,984,981 households in Malawi, 651,357 households operated a business of some kind representing 16.3 percent of all the households. **Figure 4.4** shows that 44 percent of the businesses owned by households sell products in the same form that they were bought, 16 percent buy products to sell but add value before selling, 15 percent make products and sell, 7 percent grow and sell while 15 percent household indicated that they were re-selling products after re-packing, re-grading or cooking, which entails light manufacturing, especially given that trading in foodstuff is widespread in Malawi.

**Figure 4.4 : Percentage of households with business by core business activities, 2018**

---

## **5 POPULATION DYNAMICS**

Fertility, mortality and migration are the dynamics of population change. Fertility analysis is important in understanding past, current and future trends of population size, composition and growth. Information on fertility and mortality levels, patterns and trends experienced by a country is important for socio-economic planning, monitoring and evaluating programs and reveal much on the country's population standard of living, health care and overall development.

### **5.1 Fertility**

The census collected data on number of women of reproductive age (15-49 years) and number of children ever born and number of children born and births during the 12-month period prior to census. The data will allow calculation of direct measure of fertility.

#### **5.1.1 Crude birth rate**

The Crude Birth Rate (CBR) is defined as number of births that occurred in a particular year per 1,000 populations. There were 576,606 children born to all women in the 12-months prior to the census date. This gives the reported or unadjusted CBR of 32.8 births per 1,000 population. At regional level the CBR was 30.5 births per 1,000 populations in the Northern Region, 32.5 in the Central Region and 33.8 in the Southern Region.

#### **5.1.2 Total fertility rate (TFR)**

The Total Fertility Rate (TFR) is defined as the number of births a woman would have if she survived to the end of her childbearing age, which ranges from 15-49 years, and experienced the current observed age-specific fertility rates as shown in Figure 5.1. The total unadjusted fertility rate for Malawi is 4.2 children per women.

**Table 5.1: Number of women aged 15-49 years and number of births in the last 12 months to the census and Age Specific Fertility Rates (ASFR)**

Age Group	Number of Women (15-49 years)	Number of Birth in the last 12 Months	ASFR
15-19	1,031,165	104,102	0.50
20-24	873,999	177,527	1.02
25-29	646,545	120,806	0.93
30-34	590,721	93,053	0.79
35-39	500,810	57,266	0.57
40-44	362,429	19,247	0.27
45-49	262,119	4,605	0.09
<b>Total Fertility Rate</b>			<b>4.17</b>

**Figure 5.1 : Age specific fertility rates (ASFR), 2008 and 2018**

## 5.2 Mortality

The 2018 census collected data on the deaths that occurred in the household in the 12 months period prior to the census enumeration date, which provided information on the distribution of deaths by age, sex and residence. The data allowed calculation of direct measures of mortality.

### 5.2.1 Crude death rate

Crude Death Rate (CDR) is defined as the number of deaths that occurred in a given year per 1,000 persons. **Table 5.2** shows that a total of 110,776 deaths occurred during the 12 months prior to the census which gives a CDR of 6.3 deaths per thousand persons. The CDR was higher in rural areas (6.6 deaths per 1,000 persons) than in urban areas (4.9 deaths per 1,000 persons). At regional level, CDR in the Northern Region was 6.5 deaths per 1,000 persons, Central Region was 5.8 death per 1,000 persons and in the Southern Region was 6.7 deaths per 1,000 persons. **Figure 5.2** compares deaths in 2008 and in 2018 censuses. In 2008 CDR was 10.4 as compared to 6.3 in 2018. There was high CDR for men than females in both 2008 and 2018 censuses.

**Table 5.2 : Number of Deaths in the last 12 months and Crude Death Rate by Urban, Rural and Region, 2018**

Residence	Number of Deaths in the last 12 months			Crude Death Rate		
	Total	Male	Female	Total	Male	Female
<b>Malawi</b>	<b>110,776</b>	<b>61,881</b>	<b>48,895</b>	<b>6.3</b>	<b>7.3</b>	<b>5.4</b>
Urban	13,595	7,711	5,884	4.9	5.6	4.2
Rural	97,181	54,170	43,011	6.6	7.6	5.6
Northern Region	14,926	8,258	6,668	6.5	7.4	5.7
Central Region	43,977	24,869	19,108	5.8	6.8	5.0
Southern Region	51,873	28,754	23,119	6.7	7.7	5.7

## INTERVIEW INTRODUCTION

Hello. My name is \_\_\_\_\_. I am working with The National Statistical Office in Zomba. We are conducting the 2018 Malawi Population and Housing Census.

I have several questions that I need to ask you about your household. All the answers you give will be confidential and will not be shared with anyone other than members of the technical team for the 2018 Population and Housing Census. Taking part in the census is the responsibility of every citizen and we will be glad if you agree to answer the questions.

Do you have any questions?

May I begin the interview now?
