

Guidelines for Reference List

Please follow the following Zootaxa reference format: **(Note: Words in red are the common mistakes made by authors.)**

1. Digital Object Identifier (DOI)

Zootaxa is a CrossRef member. It is required by CrossRef to include DOI links for cited papers that have DOI. If DOI is not completed, our staff will need to add these for you. Due to hundreds of papers waiting to be processed, your one will be delayed. Therefore we strongly encourage authors to add DOI links to cited papers as it will speed up the publishing process. Steps are shown as followed:

1. Go to <http://www.crossref.org/SimpleTextQuery/> (Note that you will have to register your email.)
2. Enter your registered email.
3. Copy and paste your references. (Note that there is a limit amount of the references it can process.)
4. Press "Submit".
5. Copy all the DOI links in your manuscript. (Please follow the instruction below when citing all DOI links.)
6. Check each DOI link and its corresponding paper shown via the link is correct.
