# Meet OASIS
Powerful support for your collection strategy

Hundreds of libraries around the world use ProQuest OASIS (Online Acquisition and Selection Information System) to quickly find and purchase academic content online with more accuracy. OASIS is a trusted system available to any library, with powerful tools and broad choices to support your collection development strategies, no matter what they may be. Through EDI and APIs, OASIS can integrate with your library ILS and other systems to ensure your day-to-day workflows are smooth and efficient.

Convenient Integrations
EDIs and APIs offer integrations with your existing LMS to reduce manual steps in the order workflow.

Flexible Acquisition Models & Workflows
Choose from firm order, DDA, Approvals, Standing Orders, or any combination to meet your collection strategy.

Shelf-Ready Services and Cataloging
Customized physical processing of books and cataloging services to suit the library's needs.

Comprehensive Academic Marketplace
40+ Million Print Books, 3.3+ Million Ebooks, covering 100+ Languages.

Collection & Workflow Support
Consultations, custom title lists, and collection development support provided by our team of experts at no charge.

An Upgraded Experience for Selection and Acquisitions

The OASIS interface has been modernized significantly over the last few years to make acquisitions faster and easier than ever before. And it keeps getting better, with continuous enhancements planned based on customer feedback.
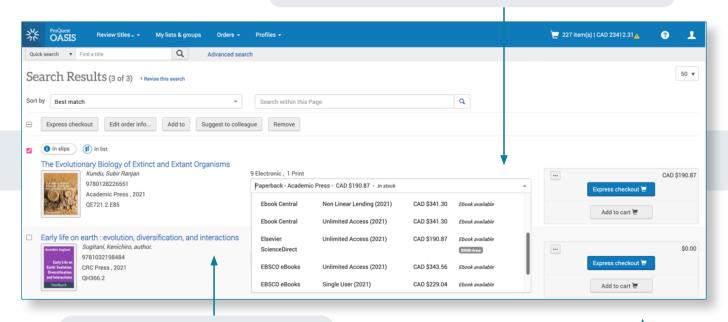

Libraries using OASIS can streamline their purchasing process at each stage of the workflow:

- **Search and select from a vast database** of print and electronic books and streaming video in one unified system. With access to 40+ million print books and 3.3+ million ebooks from over 24 publisher-direct platforms, your staff no longer need to visit multiple vendor sites to build book collections.
- **Review options in a single interface** for different formats, licensing, prices, and platforms to meet your requirements before placing orders.
- **Utilize integrations with leading ILS/LMS systems** like Ex Libris Alma and Innovative Interfaces Sierra to automatically transfer order information and reduce manual work.
- **Upgraded accessible design** takes a responsive screen-size approach to facilitate flexible work options.

No implementation or maintenance fees. From unlimited holdings loads to integration support, there is no cost to use OASIS's powerful tools and information.

Quickly review purchase options in a drop-down menu that contains all available platforms, formats, and license models together for easier review.

Streamlined Search Results: The browse row only includes the most relevant information for quick, easy viewing. Other details can be viewed in a pop-out drawer, and the split-screen view was removed from this page.

Express Checkout or Add to Cart buttons available for easy access.

Explore global content from top ebook platforms

We are committed to giving you options to purchase titles from a variety of ebook platforms in your existing workflow for a one-stop shop experience. OASIS brings content from over 24 leading academic publisher and aggregator platforms into a single marketplace for a seamless shopping experience. Acquiring these works directly through OASIS can help you consolidate searching, ordering, invoicing, and activation within a single system to save you time and steps.

Add any of the below ebook platforms to your OASIS environment, and look out for new options as we continue to expand our offering with new partners from around the globe.

- Bloomsbury Collections
- Brill
- Cairn.info

Expert services to ease your workload

ProQuest offers a range of services for OASIS libraries to help streamline your print and electronic book ordering workflow, including:

- **Shelf-Ready Services.** Customized physical processing of books can include any of the following so that titles are ready for circulation: barcodes, barcode protector bookplates, book pockets, date due slips, three-part labels, spine labels, spine label protectors, stamping, security strips, and outer book cover options.

- **Various levels of cataloging** to suit a library's specific needs, including OCLC's WorldCat Collection Manager and customized MARCs.

- **Around-the-clock support.** Weighing upcoming purchases? Adjusting your approval plans? Need to understand gaps or identify duplicates in your collection? Have technical issues that need to be addressed immediately? The team at ProQuest is here to help you.

Ready to get started?

Our team of Consultants and Training Partners are excited to welcome you to OASIS and get your staff up to speed. We offer collection-building services, workflow support, customized training plans, and more to save you time — so that you can focus on supporting your patrons.
