Spellbound by the Kaba Kaba Estate Bali

This enchanting no-expenses-spared eight-bedroom villa rises majestically on royal land in the village of Kaba Kaba in Bali's fertile Tabanan regency, just 10 minutes from the beaches of Canggu. The setting is jaw-dropping spectacular – three acres of garden extending into a sea of rice terraces that stretch to the volcano-dotted horizon. The interiors are equally impressive, hosting museum-quality antiques, eclectic paintings and priceless *objets d'art* that bring vibrant and eclectic life to every space.

The estate has been designed for lavish entertaining and is supported by flawless, five-star service provided by a gargantuan staff of butlers, housekeepers, gardeners and an accomplished chef. There are multiple formal and casual living areas where both opulence and elegance meet sumptuous comfort– among them an air-conditioned living room, open-sided dining pavilion harbouring a six-metre table, expansive poolside decking, and a glorious rooftop terrace with bar and *balé*.

To complete the ultimate of trappings there is a Moroccan-themed media room with 106-inch projector screen and 60-inch TV, a library, games room with air hockey and table football, a well-equipped gym and a professional spa. Within the extensive gardens is a 25-metre swimming pool as well as two plunge pools (one serving the master suite and the other adjoining a guest suite), a children's wading pool, a superb tennis court, croquet lawn, lotus ponds and even a duck ponddoted over by a raft of resident ducks.

With its seamless pavilion layout and magnificent facilities, Kaba Kaba Estate is perfect for multiple families or friends who relish an escape of distinction – exclusive, elegant and utterly luxurious.
