---

Hidden away in Pererenan is a majestic property known as the Chalina Estate. Here, on 5300 square metres of land, a palatial villa with a 30-metre swimming pool as its centrepiece offers accommodation for up to 26 guests in six luxurious bedrooms and a bunk room. The classic Balinese architecture showcases along-alang thatched roofs, yellow 'paras' sandstone walls, and floors of polished terrazzo, teak and bengkirai wood. If you visit this splendid riverside property, you will be bombarded with delights

and surprises, including glorious views of the rice terraces, the sunsets, and on a clear day the island's second highest volcano, the 2276-metre Mt Batukaru. Chalina's abundance of space and natural beauty makes it the perfect venue for weddings, parties and special events.

# Villa Batujimbar

WEBSITE:

Situated beachside amongst the towering trees of Batujimbar Estate in Sanur, is the splendid six-bedroom Villa Batujimbar. A historical treasure trove inspired by the 19th century royal Balinese palaces of Klungkung and Amlapura, this grand residence stands as a living tribute to an era when rock stars and monarchs spread their wings to Bali's mystical shores to revel in its hedonism and mystique. This is where Mick Jagger and Jerry Hall got married; Princess Diana stayed over; Yoko Ono

entertained, Fergie disappeared. Sting gave an impromptu concert; and the royalty of Malaysia and Thailand laid their crowns. Immersed in such a rich history, Villa Batujimbar creates its own magical ambience that will carry you back to a privileged place in time and a level of old-world luxury that is now seldom found.
