

## SUBLIME BLISS

After an elegant wedding, follow up with a vacation to remember. Enter The Layar.

An exclusive boutique estate with just 23 villas in the heart of Seminyak, The Layar exudes contemporary luxury. Translated as 'sail' in Indonesian, the resort's stunning designer villas feature dramatic roofs that sweep to the ground, evoking the rigging of traditional fishing boats. Each distinct villa is a private sanctuary with a spacious, open-plan design perfect for entertaining. Living areas flow seamlessly to private swimming pools, Jacuzzi decks and tropical gardens. The villa layouts offer a choice of one, two, three or four bedrooms to suit couples, families or groups of friends. Friendly Balinese staff will make you feel right at home as they help to book tours, happily share insights into the local culture and recommend places to visit.

Opt for room service, private pool-side barbecues, or a meal at the acclaimed Settimo Cielo restaurant, which is perched on the edge of the estate and serves up some of the island's best Italian dishes. Those in search of pre-wedding pampering will love the in-house spa offering signature facials and massages. Energy healing and private yoga sessions are also available.

It may be hard to tear yourself away from this resort haven, but all the delights of cosmopolitan Seminyak are just moments away.

Savour world-class dining on 'Eat Street', check out chic designer boutiques and gorgeous homeware stores in Oberoi, and hit one of Seminyak's uber-cool beach clubs at sunset. The nearby Petitenget beach lures surfers and sun-seekers. A complimentary buggy service makes getting around a cinch.
