MALIMBU CLIFF VILLA

New focus on exceptional Lombok hospitality for a luxury villa experience

Guests staying at Malimbu Cliff Villa are used to the high life. The dramatic setting hugging the hillside has a real WOW factor for West Lombok's best sunset views, and the team at Malimbu Cliff Villa have plans to elevate the experience even more. At MyLombok we have already showcased the villa's eye-catching design and captivating location and now there is a commitment to take the villa experience above and beyond anything Lombok has seen before. These lofty ideals come from Lombok based luxury villa management specialists Selong Selo, who have now taken over management of the villa. With this there is a renewed focus on providing premium in-villa services to match the aspirations of an increasingly demanding luxury market.

This translates in to all aspects of personalised service, incorporating high-end cuisine, wellness, housekeeping and security – pretty much everything one comes to expect from a five-star hotel stay. Overseeing the operation is a European trained villa manager supported by a private butler service and experienced local chef. Bearing in mind the villa's fairly isolated location, eating well is an essential part of the villa experience. The villa's private chef sources fresh local produce to create an inventive menu of classic Indonesian and international dishes served with style and a smile by a dedicated villa host, along ▶

► with refreshing drinks and cocktails. Family in-villa dining is elevated to an interactive experience with an open kitchen and dining area to watch the master at work. Delicious home-style meals can be tailored to suit each and every guest regardless of personal preferences and dietary needs, including meals just for kids.

There is also a big focus on healthy living and wellness at Malimbu Cliff Villa. It offers luxury spa treatments provided in-villa by highly skilled therapists from a reputable local spa. A traditional Indonesian rubdown, foot reflexology, manicure or blissful body scrub can be arranged by the villa staff. The serene aura of a luxury spa comes to you, in the privacy of your own villa.

Service delivery also extends to a well trained team diligently working behind the scenes to ensure everything runs like clockwork. There are housekeepers, a gardener and pool attendant and no less than five security guards providing discreet round-the-clock security.

Malimbu Cliff Villa has always ticked all the boxes for eye-catching design, style and priceless views but the villa experience is only as good as the seamless guest-centric service team behind it. Exceptional Lombok hospitality is the hallmark behind the new Malimbu Cliff Villa experience.
