## MONOCHROME HOUSE

Residential building Wohngebäude

Project by \_\_\_\_\_ Architects 49 House Design limited  
Client/Manufacturer \_\_\_\_\_ Architects 49 House Design limited  
Location \_\_\_\_\_ Bangkok

Weaving craft and digital technology into a monochromatic design. This is the key concept behind the design of this luxury residential estate, which deftly weaves architecture, interior, landscaping, technology, graphics and artistic elements to create a common theme. Veyla Natai Residences is a new development of freestanding seaside villas, each with unobstructed views of the immaculate Natai Beach and the Andaman Sea. Veyla is the Thai word for Time and Sanskrit for a house by the beach. True to this name, the residences are a luxurious hideaway of exquisite tranquillity, located on the most pristine and secluded Natai Beach, one of the hidden gems in Phang-nga, Thailand.
