BEST PORTFOLIO OF PRIVATE EVENT VILLAS
MARKETING VILLAS LIMITED (MVL)

In the beginning there were hotels. Then it changed to five-star hotels. Then boutique hotels. And then, with a quantum leap, the

popularity of private villas in Asia established an entirely new industry for destination weddings.

Increasingly one of Asia's largest players in the industry is one whose presence is rarely acknowledged. Singapore-based MVL markets a portfolio of nearly 100 of Asia's finest private villas throughout Indonesia, Sri Lanka, and Thailand.

Ranging in size from one to nine bedrooms each luxurious property is fully staffed, including a personal chef, and comes with private pool. Villa styles range from deeply traditional to chic ultra modern, and locations from absolute beachfront to iconic cliff top to nestling in tropical forests and terraced rice fields.

Every year MVL plays behind the scenes host to hundreds of Asia's most unique and extraordinary weddings, its industry leading property management policies and service standards are the invisible hand ensuring the experiences are as worry free as they are magical and memorable.
