Resting upon 2,000 square metres of land overlooking the sea and separated from the beach only by a small river, a narrow access road and a line of bushy trees, Seseh Beach Villa is a study in perfect symmetry. The five-bedroom, thatched-roofed property comprises a main two-storey house, a large flat lawn, and a pair of open-sided pavilions (one for semi-alfresco dining and the other for semi-alfresco living) situated at either end of a 16.5-metre swimming pool.

The main building offers an air conditioned living and dining room with a bar, a rooftop terrace, and five air conditioned bedrooms, each furnished with king-sized beds (three of which can be converted to twins) and equipped with satellite-channel TV and DVD players. At night enjoy the comfort of an air-conditioned sleep, or slide back the French doors and let the sea breeze cool your room along with the soothing sounds of the sea.

The villa's location in the traditional village of Seseh offers guests the opportunity to witness the daily rural life of the Balinese, enjoy the beauty of the rice fields, take bicycle rides through the country lanes, or walks along the beach. Temple ceremonies are a common sight and visitors are made to feel welcome by the local community. This peaceful village feels like it is miles from anywhere but is actually only 14 kilometres from the restaurants, nightlife and shops of Petitenget and Seminyak, while golf lovers will appreciate the fact that it is just nine kilometres from Nirwana Bali Golf Course, one of the best in Asia. Guests who want to go further afield will have the facility and service of the villa's car and driver for eight hours per day.
