Restorative Justice Professional Learning Group

Build your individual capacity in restorative justice. Through a combination of virtual and in-person workshops, coaching sessions, and collaborative activities, educators will receive comprehensive training and support to effectively implement restorative justice practices in schools.

A Year-Long Professional Development Program

Individualized Plans & Schedules

Participants will have the opportunity to create individualized professional development plans focused on their specific goals for implementing restorative justice within their roles.

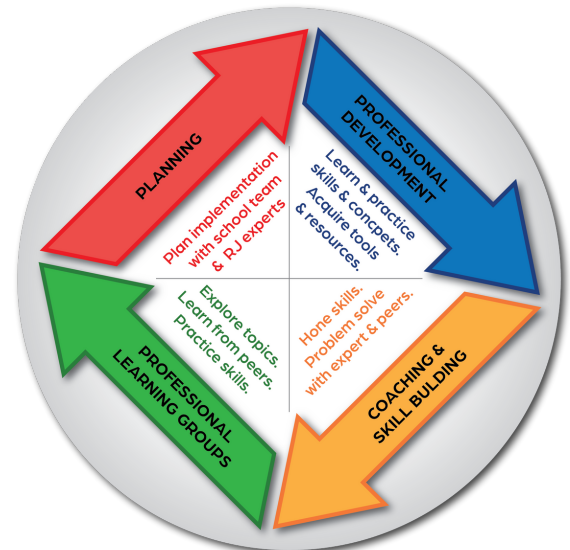

The content and assignments will vary depending on participants' plans allowing for targeted professional growth.

Application QR Code

Professionals in a variety of positions and roles will benefit from this opportunity, including school leaders, educators, behavior staff, counselors, mental health staff, social workers, psychologists, family engagement specialists, school resource officers, and more!
