

## OVERVIEW

The study was conducted for CNN via web and telephone on the SSRS Opinion Panel, a nationally representative panel of U.S. adults ages 18 or older recruited using probability-based sampling techniques. SSRS is an independent research company. Surveys were obtained **October 27 to November 2, 2023** with a representative sample of **n=1,514** respondents. The margin of sampling error for total respondents is +/- **3.1** at the 95% confidence level. The design effect is **1.48**. More information about SSRS can be obtained by visiting [www.ssrs.com](http://www.ssrs.com).

## EMBARGOED FOR RELEASE: Tuesday, November 7 at 7:00 p.m.

### NOTE ABOUT RESULTS

Unless otherwise noted, results beginning with the August 3-6, 2017 survey and ending with the April 21-26, 2021 survey are from polls conducted by SSRS via telephone only. For more information about other trend data included in this topline, please see the “More on Methodology” section at the end of this document.

Results beginning with the March 31-April 2, 2006 survey and ending with the April 22-25, 2017 survey are from telephone surveys conducted by ORC International. Results before March 31, 2006 are from telephone surveys conducted by Gallup.

Question text noted in parentheses was rotated or randomized. Values less than 0.5 percent are indicated by an asterisk (\*).

### NOTE ABOUT CROSSTABS

Surveys were conducted among a representative sample of the adult population, age 18 or older, of the United States. Members of demographic groups not shown in the published crosstabs are represented in the results for each question in the poll. Crosstabs on the pages that follow only include results for subgroups with a minimum N=125 unweighted cases. Results for subgroups with fewer than N=125 unweighted cases are not displayed and instead are denoted with "**SN**" because samples of that size carry larger margins of sampling error and can be too small to be projectable with confidence to their true values in the population.

A1. Do you approve or disapprove of the way Joe Biden is handling his job as president?  
 A1cDK. If you had to choose, do you lean more toward approving or disapproving of the way Joe Biden is handling his job as president?

\* Beginning with the Jan./Feb. 2022 survey, those who did not initially express an opinion on Biden's handling of the presidency were asked the leaner follow-up question.

A1. Do you approve or disapprove of the way Joe Biden is handling his job as president?

A1cDK. If you had to choose, do you lean more toward approving or disapproving of the way Joe Biden is handling his job as president?

A1a. Do you approve strongly, or only moderately?

A1b. Do you disapprove strongly, or only moderately?

	Definitely support	Might change mind	No opinion
Oct. 27-Nov. 2, 2023	59%	41%	*

## MORE ON METHODOLOGY

A total of n=1,514 adults were surveyed via web and phone on the SSRS Opinion Panel, a nationally representative panel of U.S. adults ages 18 or older recruited using probability-based sampling techniques. Surveys were conducted in English and Spanish.

Results for the full sample have a margin of sampling error of +/- 3.1 percentage points.

Among the entire sample, **33%** described themselves as Democrats, **32%** described themselves as Republicans, and **35%** described themselves as independents or members of another party.

The entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, population density, civic engagement, and Pew Research Center's NPORS figures for religious affiliation and frequency of internet use. The sample was also weighted for self-reported voter registration, 2020 recalled vote, party identification in detail (leaners broken out) and collapsed crossed by self-reported political ideology, self-reported voter registration, race by education, sex, age, region. The benchmarks for voter registration, 2020 recalled vote and the party identification crosses were taken from CNN's national poll conducted by SSRS via web and phone from July 1-31, 2023, which implemented a full probability design via Address-Based Sampling (ABS).

Surveys were conducted among a representative sample of the adult population, age 18 or older, of the United States. Members of demographic groups not shown in the published crosstabs are represented in the results for each question in the poll. Crosstabs on the pages that follow only include results for subgroups with a minimum n=125 unweighted cases. Results for subgroups with fewer than n=125 unweighted cases are not displayed and instead are denoted with "SN" because samples of that size carry larger margins of sampling error and can be too small to be projectable with confidence to their true values in the population.

**NOTE ON TRENDS**

All included trend points were based on surveys conducted using probability-based sampling methods. Some surveys included as trend points in this document were conducted using different methodologies, or with different combinations of sponsors. Unless otherwise noted, results beginning with the August 3-6, 2017 survey and ending with the April 21-26, 2021 survey are from polls conducted by SSRS via telephone only. Here are more details on the methodology behind each CNN poll conducted by SSRS using other methods.

Address-Based Sampling	Probability Panel: Web + Phone	Probability Panel: Web only	Probability Panel: SMS only
August 3-September 7, 2021	November 1-4, 2021	March 25-26, 2019	February 25-26, 2022
January 10-February 6, 2022	December 8-12, 2021	September 21-22, 2020	May 12-13, 2022
June 13-July 13, 2022	January 13-18, 2022	October 7-11, 2021	March 31-April 1, 2023
September 3-October 5, 2022	April 28-May 1, 2022	February 23-26, 2022	October 12-13, 2023
March 1-31, 2023	October 26-31, 2022	May 3-5, 2022	
July 1-31, 2023	December 1-7, 2022	July 22-24, 2022	
	January 19-23, 2023		
	March 8-12, 2023		
	May 17-20, 2023		
	June 13-17, 2023		
	August 25-31, 2023		
	October 4-9, 2023		
	October 27-November 2, 2023		

Results beginning with the March 31-April 2, 2006 survey and ending with the April 22-25, 2017 survey are from telephone surveys conducted by ORC International. Results before March 31, 2006 are from telephone surveys conducted by Gallup.
