

OVERVIEW

The study was conducted for CNN by SSRS with representative samples of registered voters in Georgia (n=732), and North Carolina (n=750). SSRS is an independent research company. Surveys were obtained online and by telephone from **October 23-October 28, 2024**. More information about SSRS can be obtained by visiting www.ssrs.com.

Unless otherwise noted, results are reported below for likely voters. Results for each state have the following margins of sampling error at the 95% confidence level and design effects:

	Registered Voters		Likely Voters	
	Error Margin	Design Effect	Error Margin	Design Effect
Georgia	+/- 4.7% pts.	1.67	+/- 4.7% pts.	1.65
North Carolina	+/- 4.7% pts.	1.70	+/- 4.5% pts.	1.62

EMBARGOED FOR RELEASE:

Thursday, October 31 at 12:00 p.m.

NOTE ABOUT RESULTS

Question text noted in parentheses was rotated or randomized. Values less than 0.5 percent are indicated by an asterisk (*).

NOTE ABOUT CROSSTABS

Surveys were conducted among a representative sample of registered voters in each state. Members of demographic groups not shown in the published crosstabs are represented in the results for each question in the poll. Crosstabs on the pages that follow only include results for subgroups with a minimum n=125 unweighted cases. Results for subgroups with fewer than n=125 unweighted cases are not displayed and instead are denoted with "SN" because samples of that size carry larger margins of sampling error and can be too small to be projectable with confidence to their true values in the population.

V9. How motivated, if at all, would you say you (were/are) to vote in this year’s election for president? [RESPONSES ROTATED IN ORDER FOR HALF/IN REVERSE ORDER FOR HALF]

Georgia registered voters	Extremely motivated	Very motivated	Somewhat motivated	Not too motivated	Not at all motivated	No opinion
October 23-28, 2024	72%	13%	8%	4%	3%	0%
August 23-29, 2024	66%	16%	11%	4%	3%	0%

North Carolina registered voters	Extremely motivated	Very motivated	Somewhat motivated	Not too motivated	Not at all motivated	No opinion
October 23-28, 2024	74%	12%	8%	4%	2%	0%
September 20-25, 2024	75%	14%	9%	2%	1%	*

P4. IF HAVE NOT VOTED: Suppose that the presidential election were being held today and you had to choose between Kamala Harris and Tim Walz as the Democratic Party’s candidates, Donald Trump and JD Vance as the Republican Party’s candidates, Robert F. Kennedy, Jr. and Nicole Shanahan, as independent candidates, Cornel West and Melina Abdullah, as independent candidates, Jill Stein and Butch Ware, the Green Party’s candidates and Chase Oliver and Mike ter Maat, the Libertarian candidates. Who would you be most likely to vote for?
 IF ALREADY VOTED: Thinking about the presidential election, did you vote for Kamala Harris and Tim Walz, as the Democratic Party’s candidates, Donald Trump and JD Vance as the Republican Party’s candidates, Robert F. Kennedy, Jr. and Nicole Shanahan, as independent candidates, Cornel West and Melina Abdullah, as independent candidates, Jill Stein and Butch Ware, the Green Party’s candidates or Chase Oliver and Mike ter Maat, the Libertarian candidates?

P4a. IF HAVE NOT VOTED: If the presidential election were being held today and you had to choose do you lean most toward:
 IF ALREADY VOTED: Your answers are important to us, and we don't want someone else to speak for you. Keeping in mind that this is a confidential survey, we’d really appreciate it if you would tell us how you voted in the presidential election. [ITEMS ASKED IN RANDOM ORDER; CANDIDATES LISTED AS NA BELOW WERE NOT ASKED IN THE INDICATED STATE]

P4/P4a COMBO TABLE: LIKELY VOTERS

Georgia likely voters	Kamala Harris and Tim Walz	Donald Trump and JD Vance	Robert F. Kennedy, Jr. and Nicole Shanahan	Cornel West and Melina Abdullah	Jill Stein and Butch Ware	Chase Oliver and Mike ter Maat	Other	Do not plan to vote	None of these candidates	No opinion

MORE ON METHODOLOGY

A total of n=1,482 registered voters in Georgia and North Carolina were surveyed online and by telephone from a registration-based sample purchased by SSRS from L2. The Georgia and North Carolina samples included an oversample of voters modeled as likely African American on the voter file as well as oversamples of voters ages 18 – 34. All oversampled groups were weighted to their correct share of the registered voter population.

Sampled voters were invited to participate in the study through multiple contact methods, including a mailed postcard, SMS (text-message) invitation in collaboration with Survey160 to sample who had a cell phone number on file, email invitations to those with an email address on file, and multiple telephone call attempts to voters with a telephone number on file. Upon receipt of the postcard, sampled voters could complete the survey online (including by scanning a QR code on mobile devices) or by calling a toll-free number. All respondents were screened for age, voter registration status, and state of voter registration prior to administering the survey. Respondents who said they were under 18, not registered to vote, or not registered to vote in the state on file were excluded from the survey. Those who did not confirm they were the named person on the voter file were also excluded from analysis. Surveys were conducted in English and Spanish.

All respondents were asked questions concerning basic demographics. The entire sample was weighted to reflect Census figures for the state's registered voters for education and race/ethnicity. The sample was also weighed to parameters from the L2 voter file for gender, age, party registration (North Carolina) or modeled party affiliation (Georgia), 2020 general election turnout by mode of voting, 2022 general election turnout, 2024 primary turnout, Census tract-level population density, and National Election Pool (NEP) region. The samples were also weighted to parameters from the L2 voter file for the cross of race (African American, all others) by age, gender, and party. Finally, the samples for each state were weighted among validated 2020 voters for recalled 2020 vote within NEP regions. The benchmark for recalled 2020 vote was taken from county-level National Election Pool (NEP) presidential election results provided by CNN.

Results for likely voters include all registered voters interviewed for the poll weighted by their predicted probability of voting in the 2024 general election. This likely voter weight was created for each state by multiplying the registered voter weight by the modeled probability of voting in the 2024 general election. For voters ages 29 or below, the probability of voting was calculated as 0.25 times a voter file score plus 0.75 times a self-report score. For voters ages 30 or older, the probability of voting was calculated as 0.75 times a voter file score plus 0.25 times a self-report score. The voter file score was assigned using a model built on the L2 voter file that included past turnout history and demographic variables as predictors. The self-report score was assigned using a model built on prior CNN-SSRS polls that included the self-reported likelihood of voting and motivation to vote as predictors.

Surveys were conducted among a representative sample of the adult registered voters, age 18 or older, in Georgia and North Carolina. Members of demographic groups not shown in the published crosstabs are represented in the results for each question in the poll. Crosstabs on the pages that follow only include results for subgroups with a minimum n=125 unweighted cases. Results for subgroups with fewer than n=125 unweighted cases are not displayed and instead are denoted with "SN" because samples of that size carry larger margins of sampling error and can be too small to be projectable with confidence to their true values in the population.

MORE ON METHODOLOGY (CONTINUED)

Georgia

Results for the Georgia sample have a margin of sampling error of +/- **4.7** percentage points. Results for likely Georgia voters have a margin of sampling error of +/- **4.7** percentage points. Among the Georgia sample, **35%** described themselves as Democrats, **37%** described themselves as Republicans, and **28%** described themselves as independents or members of another party.

North Carolina

Results for the North Carolina sample have a margin of sampling error of +/- **4.7** percentage points. Results for likely North Carolina voters have a margin of sampling error of +/- **4.5** percentage points. Among the North Carolina sample, **32%** described themselves as Democrats, **32%** described themselves as Republicans, and **36%** described themselves as independents or members of another party.
