THE MANAGEMENT TEAM

The Scientific Scholar management team has a combined editorial experience of more than 40 years and understands the need of the authors and the audience. The team works with the editors and guides them in the process of publication from conceptualization to print.

Mr. Pritesh Sheth

Chief Executive Officer

Mr. Pritesh Sheth is a seasoned IT professional with a MBA to his laurels. He was the 1st ever employee to start his clinical publishing career with Wolters Kluwer Medknow and thus carries a rich experience in clinical publishing spanning 20 years. Pritesh is the person who built the internal IT infrastructure of Wolters Kluwer Medknow and subsequently brought the same legacy of developing an in-built, user friendly, modern, up-to-date submission portal in his own company of Scientific Scholar. He started Scientific Scholar with his passion towards clinical publishing and believes in collaborating with the best minds in clinical research, be it a veteran editor in chief of a journal or a budding author trying to put his mark in the arena, and help all his clients from over 400 + medical societies to bring out the best of clinical content for the readers. Pritesh believes in delivering the best of the services for the company's clients and over the years has made a mark of his own among several reputed medical societies and associations.

Ms. Krupa Sheth

Director Operations and Finance

Krupa hold a bachelors in commerce (accounting and auditing). She followed it with a masters in commerce in accounting and financial management from MS University, Baroda, Gujarat. She holds a MA in Education as well. She started her career in Education sector from an ICSE affiliated Senior Secondary School from 2003 to 2015. From 2015 to 2022, Indian Education Society and was involved in overall section management of the organization as well as was involved in teaching Commerce for Senior Secondary students. She has also been ICSE examiner (as Team Leader for Commercial Applications). Overall Krupa carries over two decades of experience in teaching and management besides administrative implementations.

She brings in a vast experience in financial and administrative management to Scientific Scholar and is now responsible to lead our finance, administration, and human resource departments.

She is responsible for optimizing and maximizing the return on the company's financial assets. Her duties include developing and implementing monetary policies, procedures, reporting systems and methods, and financial controls for the company's long-term growth. She establishes strategies for allocating company funds to maximize the business and improve or change current practices to increase efficiency.

Sunny Duttagupta

Director of Publishing

Dr. Sunny Duttagupta comes with a background of PhD in molecular studies from University of Salzburg, Austria and is a graduate from All India Institute of Medical Sciences, New Delhi, India. He started his career in clinical publishing in 2013. He has worked with 200+ medical societies and associations across India, the Middle-East, South Asia and Africa and is known for his expertise in getting journals recognized with the major bibliographic portals including DOAJ, PubMed Central, SCOPUS, ESCI/SCle and Medline. Dr. Sunny Duttagupta connects and engages with the Editors, Reviewers and Authors directly and takes keen interests in resolving the day to day publishing challenges to ensure the company provides a seamless service and efficiently contributes towards dissemination of quality clinical information to the target audience.

Scientific Scholar MANUSCRIPT MANAGEMENT SYSTEM

The Scientific Scholar's manuscript management system - Editorial Assist (<https://editorialassist.com>) has a number of features that arise as a result of years of publishing experience of the core team.

The manuscript management system, which helps the Editors to handle the complex nature of manuscript management such as technical editing, reviewer management, review of the articles and their publication. The system is intuitive and has a very short learning curve. This manuscript system can be adapted to medical, paramedical and allied subjects. Our manuscript management system allows the journals to function smoothly by facilitating authors to submit their manuscripts, reviewers to perform double-blind peer reviews and the editors to conduct their editorial functions in an efficient manner.

OUR PROMISE

- Complete transparency.
- Work with an extremely experienced team of professionals who understand your language and subject.
- Prompt evaluation of your proposal and stepwise guidance.

OUR SERVICES

- Provide manuscript management system for managing the journal publication.
- Production services such as page layout, formatting, copyediting and HTML conversion and PDF generation for publishing.
- Printing and mailing of the journal to the members of the society.
- We work with the society and the journal editors on various aspects of ethics compliance, good publishing practices and advise them on Indexing requirements.
- Indexing service to file the applications to various indexing and abstracting agencies.

ADVANTAGES OF THE SCIENTIFIC SCHOLAR'S MANUSCRIPT MANAGEMENT SYSTEM

Our manuscript management system has several advantages over the existing systems in the market.

- Easy manuscript submission allowing for the capture of manuscript metadata, forms, and files.
- Reviewers can accept or decline assignments, without even logging in, via secure deep links.
- .Plagiarism check is available to the editors and reviewers.
- Automatically link submitted references to CrossRef® and PubMed, and reformat to journal style.
- Save time in the reviewer discovery process with built-in database integrated into the manuscript management system.
- Editorial dashboard offers quick visualization of key data.
- Drag and Drop functionality.
- Article Processing Charge can be easily paid from any part of the world using our PayPal integration in the system.
- Integration with standards such as ORCID and JATS available.
- Personalized client service and online training in the use of the manuscript management system.
- Author home page provides status information as a manuscript moves through the review process, reducing the need for authors to contact editors for status updates.
- Editor home page tracks and provides information on all manuscripts in the system, enabling editors to easily manage their workflow.
- All correspondence and data are stored and backed up electronically.
