

**Additional File 4: Completed PRISMA statement re. A Qualitative Systematic Review of the Literature on Normalization Process Theory in use**

As this was a qualitative review of predominantly qualitative empirical studies, some aspects of the PRISMA statement [1] were not applicable.

Section/Topic	#	Description	Page No.
Title	1	A systematic qualitative review of the literature on Normalization Process Theory in use.	1
<b>ABSTRACT</b>			
Structured summary	2		3
<b>INTRODUCTION</b>			
Rationale	3		5-6
Objectives	4		Additional file 2: PICO Table
<b>METHODS</b>			
Protocol & registration	5	No Protocol registered	N/A
Eligibility criteria	6		8-9
Information sources	7		8
Search	8		8 Figure 2: PRISMA Flow Chart
Study selection	9		8
Data collection process	10		9
Data items	11		N/A
Risk of bias in individual studies	12		8
Summary measures	13		N/A
Synthesis of results	14		N/A
Risk of bias across studies	15		N/A
Additional analyses	16		N/A
<b>RESULTS</b>			
Study selection	17	Flow diagram developed (see Figure 2)	8 See Figure 2
Study	18		See Tables 1 & 2

characteristics			
Risk of bias within studies	19		8
Results of individual studies	20		Additional File 2 PICO Table
Synthesis of results	21		N/A
Risk of bias across studies	22		N/A
Additional analysis	23		N/A
<b>DISCUSSION</b>			
Summary of evidence	24		Tables 2 & 3
Limitations	25		17
Conclusions	26		17-18
