

DREB1s

Table of DREB1 protein sequences from various species (Ss, Os) and domains (NLS, AP2/ERF, DSWA). Includes consensus sequence and residue positions.

Table of DREB1 protein sequences (continued) from various species and domains. Includes consensus sequence and residue positions.

Table of DREB1 protein sequences (continued) from various species and domains. Includes consensus sequence and residue positions.

DREB2s

Table of DREB2 protein sequences from various species (Ss, Os) and domains (NLS, CMV-1, AP2/ERF). Includes consensus sequence and residue positions.

Table of DREB2 protein sequences (continued) from various species and domains. Includes consensus sequence and residue positions.

Table of DREB2 protein sequences (continued) from various species and domains. Includes consensus sequence and residue positions.

Table of DREB2 protein sequences (continued) from various species and domains. Includes consensus sequence and residue positions.
