

Here's how your company can support free software

The best free software projects encompass more than just a license, they're a process for creating software that is fundamentally innovative in its approach and, in my opinion, eventually creates software far better than a proprietary process could.

Matt Mullenweg, WordPress

The FSF teaches school children in Boston about free software and coding.

Impact of your support

Your support will help sustain, energize, and inspire the free software community. Being an FSF patron demonstrates that your organization supports free software and brings exposure to our global audience, all while doing the right thing:

- Establish yourself as a leader in the free software community and introduce your organization to our audience online and in person, via our network of free software projects, conferences, campaigns, and events.
- Build your reputation and gain visibility with top industry talent in software development, licensing, and free software applications.
- Make connections with other companies that are making an impact.
- Demonstrate your company's commitment to free software to peer organizations, as well as current and potential employees.

The FSF's patrons know that their best future depends on the continued success of free software. Patron benefits include:

- **The FSF patron logo**

Display a custom FSF patron logo on your Web site and other materials.

- **You company name and logo on the FSF patron list**

We will list your company's name and logo on fsf.org (2.2 million unique visitors/year).

- **Free software licensing consultation**

Two hours of complimentary free software licensing or GPL consultation from the FSF Compliance Lab (and further consultation at reduced rate).

- **Subscriptions to the biannual *FSF Bulletin* and monthly *Free Software Supporter* email newsletter**

Keep your organization informed of what's happening in the free software world.

- **FSF swag**

For all free software loving hackers, t-shirts from our online shop.

- **Passes to the FSF's LibrePlanet conference**

Each patron receives complimentary passes to the FSF's annual LibrePlanet conference.

- **Use the FSF job board to find new talent**

Patrons receive two complimentary listings.

Sharon Woods, Director and Program Manager of the Cloud Computing Program Office, US Department of Defense Chief Information Officer, speaking at LibrePlanet.
