book chapters.

In *A Discourse Analysis of Galatians and the New Perspective on Paul*, David I. Yoon outlines discourse analysis from the framework of Systemic Functional Linguistics for analyzing Paul's letter to the Galatians. From this analysis, he determines whether the context of situation better reflects the New Perspective on Paul, covenantal nomism, or a more traditional perspective, legalism.

The first half of the book introduces the New Perspective on Paul and discourse analysis, followed by a detailed model of SFL discourse analysis with respect to register and context of situation. The second half is a discourse analysis of Galatians. This is the first monograph-length study to address the New Perspective on Paul from a linguistic approach, and will as such be of great interest to scholars of Pauline Studies, linguistics, and theology.
