Acknowledgements	11
Abbreviations	13
Introduction	15
The subject: annotation symbols	17
Annotation symbols in context	19
Phenomena not studied in this book	22
Sources for the study of annotation symbols	23
The scope of this book	25
The structure of this book	25
Chapter 1 The use of annotation symbols in Antiquity	27
The use of annotation symbols by scribes in the Graeco-Roman world	29
The scholarly use of signs in the Graeco-Roman world	33
Other communities of sign users in Antiquity	40
Rise of a Christian sign use: Origen, Jerome, and Epiphanius	42
The golden age of Christian sign use in Late Antiquity	47
Conclusion: ancient use as a source of <i>doxa</i> and <i>praxis</i> in the early medieval West	54
Chapter 2 The 21-sign treatise: inherited classical <i>doxa</i> in the early medieval Latin West	57
The 21-sign treatise before the Carolingian period	58
The early medieval witnesses of the 21-sign treatise	59
The origin of the 21-sign treatise	63
The transmission of the 21-sign treatise before the Carolingian period	68
The Carolingian and post-Carolingian descendants of the 21-sign treatise	72
Accumulative sign treatises	73
Abbreviated sign treatises	74
Derivative sign treatises as a group	79
Conclusion	81

Chapter 3 Transmission of other <i>doxa</i> with ancient roots in the Early Middle Ages	83
Anonymous transmission of patristic sign treatises in the Latin West	83
Anonymous sign treatises from the Beneventan area	86
The <i>notae troporum</i>	91
Greek sign treatises	91
Conclusion: anonymization, abbreviation, and list-like arrangement as trends	95
Chapter 4 The revival of scholarly sign use in the Carolingian period	99
Carolingian textual criticism of the Old Testament	99
Textual criticism applied to other texts	112
Critical assessment of doctrine in theological texts	117
Other evidence for the revival of sign use in the Carolingian period	122
Conclusion	124
Chapter 5 Annotation symbols in the Carolingian classroom	127
The place of annotation symbols in the teaching of grammar	128
Annotation symbols and grammar in Classical Antiquity	128
Annotation symbols and grammar in Late Antiquity	130
Annotation symbols in Isidore's <i>Etymologiae</i> (<i>De notis sententiarum</i>)	130
Annotation symbols in early medieval grammars	132
Annotation symbols in Alcuin's <i>De grammatica</i>	134
The manuscript evidence	137
<i>De notis sententiarum</i> in grammatical handbooks	137
The evidence of the glosses to <i>De notis sententiarum</i>	141
The palaeographic evidence for the implementation of Isidorian signs	150
Conclusion	152
Chapter 6 Signs used by Western scribes from Late Antiquity until the ninth century	155
Scribal sign use in the Latin West from Late Antiquity to 800	156
Omission signs	157
Quotation signs	158
Correction signs	161
Attention signs	164
Text-structuring signs	166
Excerption signs	167
Conclusion	168
Scribal sign use in pre-Carolingian and Carolingian Bavaria	171
Bavarian scribal culture in the eighth and ninth century	172
Conventions in use in early medieval Bavaria	174
Patterns of sign use and different modes of annotation	181
Conclusion: early medieval scribal <i>praxis</i> in perspective	190

Conclusion	195
Appendix I Overview of the most important annotation symbols	201
Appendix II Latin sign treatises from the eighth to fifteenth century	225
Appendix III Annotation symbols in Bavarian manuscripts	247
Bibliography	275
Primary sources	275
Secondary sources	278
Online sources	290
Index of manuscripts	291
Index of authors and texts annotated with signs	299
Index of notable sign users	301
