List of Authors xi

Preface to the Series xiii

Foreword to the Chinese Version xvii

Chapter 1 Overview of Ancient Chinese Glass Research 1

Fuqi Gan

1.1 Overview of domestic ancient glass research and historical records 1

1.2 Western research and commentary on ancient Chinese glass 3

1.3 Status and progress of research of ancient Chinese glass 8

References 21

Chapter 2 Nature and Characteristics of Glassy Materials 21

Fuxi Gan

2.1	Crystalline and non-crystalline material. jade gemstone and glass	21
2.2	Macroscopic property and microstructural characteristics of glass	22
2.3	Crystallization and phase separation in glass	34
2.4	Coloration of glass	38
	References	43

Chapter 3 Development of Non-Destructive Analytical Techniques and Their Applications in Ancient Chinese Glass Research 45

Fuxi Gan

3.1	LRS and AES analyses	46
3.2	X-ray Fluorescence Spectroscopy (XFS) analysis	52
3.3	Trace element and isotope analysis	59
3.4	Application of non-destructive analytical method (an example)	68
	References	71

Chapter 4 Scientific Research on Natural Glass 75

Hongxia Zhao, Fuxi Gan and Zhenqi Xu

4.1	Experimental sample and method	76
4.2	Difference in natural glass texture	77
4.3	pXRF experimental result of natural glass	81
4.4	Characteristics of volcanic glass (obsidian)	82
4.5	Characteristics of meteorite glass (glassy meteorite)	84
4.6	Libyan Desert Glass	87
	References	88

Chapter 5 Scientific Research of Ancient Chinese Faience 91

Junqing Dong, Dejun Hou and Fuxi Gan

- 5.1 Archaeological discovery of early faience 92
- 5.2 Archaeological discoveries of faience and frit of the Spring and Autumn Period and the Warring States Period 101
- 5.3 Scientific study of faience of the Western Zhou Dynasty and Spring and Autumn Period . . . 104
- 5.4 Possible fluxing agents, colorants and manufacturing processes of ancient Chinese faience 125
- References 130

Chapter 6 Ancient Glass Technology Development in the Western World 133

Fuxi Gan

- 6.1 Glass in the Ancient World 136
- 6.2 Glass of the Classical Age 147
- 6.3 Glass in the Medieval period 157
- 6.4 Glass of the renaissance and the 17th-19th centuries 167
- References 176

Chapter 7 Ancient Glass Technology Development in the Eastern World 179

Fuxi Gan

- 7.1 Ancient glass in the Indian region 180
- 7.2 Ancient glass in Japan 183
- 7.3 Ancient glass in Korean Peninsula 188
- 7.4 Ancient glass in Central Asia 190
- 7.5 Ancient glass in Southeast Asia 194
- References 198

Chapter 8 Historical Records of Ancient Chinese Glass	2
<i>Zhenfa Huang</i>	
8.1 Name of ancient Chinese glass	2
8.2 Historical records of ancient glass exchanges between China and the West	217
8.3 Generation of ancient Chinese glass manufacturing technology and composition formula	237
References	232
 Chapter 9 Glass Technology of the Pre-Qin and Han Dynasties in the Middle and Lower Reaches of the Yellow River and Yangtze River of China	 235
<i>Dejun Hou</i>	
9.1 Glass manufacturing technology in Spring and Autumn Period and Warring States Period	236
9.2 Glass manufacturing technology in the Han Dynasty	284
References	305
 Chapter 10 Glass Technology of the Wei, Jin, and Southern and Northern Dynasties in the Middle and Lower Reaches of the Yellow River and Yangtze River of China	 309
<i>Jiayao An</i>	
10.1 People's understanding of glass	310
10.2 Archaeological discovery of Roman glass	313
10.3 Archaeological discovery of Sasanian glass	322
10.4 Introduction of Indian glass beads with Buddhism	333
10.5 Western glass discovered in Xinjiang	333
10.6 China's domestic glass	333
References	337

Chapter 11 Glass Technology of the Sui, Tang and Song Dynasties in the Middle and Lower Reaches of the Yellow River and Yangtze River of China 353

Zhenfa Huang

- 11.1 Ancient glass in the Sui and Tang Dynasties 353
- 11.2 Ancient glasses in the Song, Liao and Jin Dynasties 382
- References 393

Chapter 12 Ancient Glass Technology of the Yuan, Ming and Qing Dynasties in the Middle and Lower Reaches of the Yellow River and Yangtze River of China 395

Weiyong Zhang

- 12.1 Glass manufacturing in the Yuan and Ming Dynasties 395
- 12.2 Glass factory of the Manufacturing Office of Internal Affairs Department in the Court of the Qing Dynasty 417
- 12.3 Glass manufacturing industry in Boshan 435
- 12.4 Other places of origin of China's glass in the Qing Dynasty 453
- References 462

Chapter 13 Ancient Glass Technology in North and Northwest China 465

Ping Zhang

- 13.1 Ancient glass in Xinjiang Uygur Autonomous Region 465
- 13.2 Ancient glass in Gansu Province 484
- 13.3 Ancient glass in Qinghai Province 487
- 13.4 Ancient glass in Ningxia Hui Autonomous Region 492

13.5 Ancient glass in Inner Mongolia Autonomous Region	541
References	542

Chapter 14 Ancient Glass Technology in South and Southwest China

Qishan Huang

14.1 Ancient glass of the Spring and Autumn Period and Warring States Period	541
14.2 Ancient glass in the Han Dynasty	546
14.3 Ancient glass from the Eastern Jin Dynasty to the Song Dynasty	543
14.4 Manufacturing technology of ancient glass	547
References	555

Chapter 15 Formation and Development of Ancient Chinese High Temperature Porcelain Glaze Technology

559

Jiazhi Li and Juan Wu

15.1 Before the late Xia and early Shang Dynasties: The gestation stage of glaze	560
15.2 In the Shang and Zhou Dynasties: The formation stage of glaze	564
15.3 From the Han Dynasty to the Five Dynasties: The mature stage of glaze	570
15.4 From the Song Dynasty to the Qing Dynasty: The development stage of glaze	577
References	584

Chapter 16 Scientific Research on the Earliest Chinese Low-Temperature Lead-Barium Glazed Ceramics

585

Junqing Dong, Song Liu, Xiaowei Xia and Qinghui Li

16.1 Brief survey of low-temperature glazed ceramics	587
--	-----

16.2	Samples and experimental methods	588
16.3	Analysis results and discussion	593
	References	605

Chapter 17 Evolution of Ancient Glass

Composition and Origin of Glass

Manufacturing Technology in the Middle and Lower Reaches of the Yellow River and Yangtze River of China

607

Fuli Gan

17.1	Alkali lime silicate glass in the middle and lower reaches of the Yellow River and Yangtze River of China in the Pre-Qin Period	608
17.2	Lead barium silicate glass and potash-silicate glass in the middle and lower reaches of the Yellow River and Yangtze River of China in the Warring States Period and the Han Dynasty	617
17.3	High-lead silicate glass and potassium lead silicate glass in the middle and lower reaches of the Yellow River and Yangtze River of China in the Sui, Tang and Song Dynasties	623
17.4	Potassium calcium silicate glass in the middle and lower reaches of the Yellow River and Yangtze River of China in the Yuan, Ming and Qing Dynasties	624
	References	630

Chapter 18 Cultural and Technical Exchanges of Ancient Chinese Glass between China and Foreign Countries

633

Fuli Gan

18.1	Development process and chemical composition characteristics of the ancient glass in northwest and north China	634
------	--	-----

18.2	Development process and chemical composition characteristics of the ancient glass in southwest and south China	
18.3	Ancient Silk Road and the exchange in ancient glass	
18.4	Promotion of the ancient Silk Road to the development and exchange of glass technology in ancient China	
	References	

**Appendix Experimental Results of the
Chemical Composition of Ancient Chinese
Glass by Means of Non-Destructive Analysis**

689
