

unquestionable research now has the potential to stand with the highest quality of scholarship, and it is my hope that this study will continue to bring new and exciting insights to the field. I am grateful to all the other members of my department who have supported me in this endeavor, and I am especially grateful to my colleagues at the University of Texas at Austin, whose support and encouragement have been instrumental in helping me to realize this project.

| Conclusion   | 213  |
| Coda: From Gutenberg and Caxton to Jeff Bezos                | 231  |
| Appendix: The Manuscripts in My Corpus                       | 234  |
| <i>Bibliography</i>  | 240  |
| <i>Manuscript Index</i>                                      | 281  |
| <i>Index</i>   | 285  |

Many, many thanks to several deserve a special dose of gratitude for reading the entire book and offering insightful commentary, including themselves the current *Journal of Manuscript Studies* Board, who were one of the readers for Oxford University Press. Their comments were thoughtful and insightful, and the second edition reflects some of those as well as some new and thoughtful criticisms, as did Andis Latvende's review of this series. Finally, Steven Merober and Whitney S. are joined by others in the field in their support of this partially theoretical argument. They are not the only ones, but from them and I truly do not think this book will have much traction unless they believe and generally support it. I am also grateful to the anonymous reviewers for the *Journal of Early Modern History*, Lucy David, Gregory L. Jones, Kenneth Luskett, Marilyn Robinson, Sally Rogers, and John Witten—none of whom will ever see this, but all of whom however examine my collective manuscript corpus, sustaining me for the past two years while I worked on this book.
