

'It is astonishing that, after more than 65 years of intense research on the Gospel of Thomas, there are still scholars who too easily dismiss this important text as late, secondary to the gospels in the New Testament, and "Gnostic." This book forcefully argues that the Gospel of Thomas is every bit as important as the New Testament gospels and should be treated as such. The translation is produced by a real dream team – the renowned Berliner Arbeitskreis working together with two leading American specialists. Professor Patterson offers in this new edition the best general introduction to the Gospel of Thomas I have ever read: his is a well-balanced, academically solid, and yet accessible, synthesis, effectively placing the core of this gospel into an intellectual milieu of the late first century, colored by Middle Platonism and Jewish wisdom traditions.'

Ismo Dunderberg, University of Helsinki, Finland

'The perfect introduction to the Gospel of Thomas. *The Fifth Gospel* includes a definitive discussion of Thomas's literary features, theology, and historical significance; a thrilling account of the text's discovery and publication; and what is probably the best, clearest, and most accessible translation of this ancient non-canonical account of Jesus' words. A wonderful resource for those approaching Thomas for the first time, but a valuable tool for scholars as well.'

William Arnal, University of Regina, Canada

Stephen J. Patterson is Professor at Willamette University, Salem, OR, USA.

Hans-Gebhard Bethge is Professor of Theology at Humbolt University, Berlin, Germany.

James M. Robinson is editor of The Nag Hammadi Library.
