List of tables .....	xi
List of figures .....	xiii
Acknowledgments .....	xv
Introduction .....	1
<b>PART I</b>	
Environmental change in the Near East during the Second Millennium BCE .....	7
Chapter 1	
Present-day ecosystems of Upper Mesopotamia .....	9
1.1 Geographical setting and climate .....	9
1.1.1 Topography .....	9
1.1.1.1 The Ġazīra plateau .....	9
1.1.1.2 The Tigris .....	9
1.1.1.3 The Euphrates .....	10
1.1.1.4 The Ḥābūr .....	12
1.1.1.5 The Balīḥ .....	13
1.1.2 Climate .....	14
1.2 Agro-pastoral geography of Upper Mesopotamia .....	15
1.2.1 The zone of dry-farming .....	16
1.2.2 The zone of marginal cultivation .....	16
1.2.3 The arid zone .....	17
1.2.4 River oases .....	17
1.3 Actual and potential ecosystems of Upper Mesopotamia .....	17
1.3.1 Reduced waterflows .....	17
1.3.1.1 The Tigris .....	17
1.3.1.2 The Euphrates .....	18
1.3.1.3 The Ḥābūr .....	19
1.3.1.4 The Balīḥ .....	20
1.3.2 A degraded fauna and flora .....	20
1.3.3 Potential ecosystems of Upper Mesopotamia .....	23
1.3.3.1 The North-East: open park woodland .....	24
1.3.3.2 The South-West: from terebinth-almond woodland-steppe to arid steppe .....	24
1.3.3.3 Valley floors: riverine forest .....	24
Chapter 2	
Environmental change in the 2 <sup>nd</sup> Millennium BCE according to palaeo-climatic studies .....	27
2.1 2 <sup>nd</sup> Millennium BCE climate in long-term sequences .....	27
2.1.1 Global sequences .....	28
2.1.1.1 The 2 <sup>nd</sup> Millennium BCE in the Greenland ice cores .....	28
2.1.1.2 The 2 <sup>nd</sup> Millennium BCE in the North-Atlantic cores .....	29
2.1.1.3 Greenland and North Atlantic cores in Near-Eastern perspective .....	29

2.1.2	Regional sequences . . . . .	30
2.1.2.1	Upper Mesopotamian palaeo-climatic records of the 2 <sup>nd</sup> Millennium BCE . . . . .	30
2.1.2.2	Eastern Mediterranean palaeo-climatic records of the 2 <sup>nd</sup> Millennium BCE . . . . .	31
2.1.2.2.1	Levels of the Dead Sea and the Sea of Galilee . . . . .	31
2.1.2.2.2	Speleothems from the Soreq Cave . . . . .	33
2.1.2.3	2 <sup>nd</sup> Millennium BCE palaeo-climatic records from Northern and Eastern mountain ranges . . . . .	34
2.1.2.3.1	Lake isotope records from Turkey . . . . .	34
2.1.2.3.2	Lake isotope records from Western Iran . . . . .	35
2.2	Upper Mesopotamian ecosystems in the 2 <sup>nd</sup> Millennium BCE and their meaning in terms of climate . . . . .	38
2.2.1	Changes in vegetation cover according to long-term pollen records . . . . .	38
2.2.2.1	The pollen diagram from Buara (Southern Ġazīra) . . . . .	38
2.2.2.2	Near Eastern pollen diagrams outside Upper Mesopotamia . . . . .	40
2.2.2	Changes in vegetation cover according to botanical evidence from archaeological contexts . . . . .	41
2.2.2.1	Preserved riverine ecosystems . . . . .	42
2.2.2.2	The steppic plateau and mountain ranges: an elusive evidence . . . . .	44
2.3	2 <sup>nd</sup> Millennium BCE climatic conditions according to sediment archives of Upper Mesopotamia . . . . .	45
2.3.1	Phase 1 (11,000 BP-7000 BP [ca. 10,800-5600 BCE]; Pre-Ḥassūna, Ḥassūna, and Sāmarrā periods): aggradation processes in a warm and moist context . . . . .	45
2.3.2	Phase 2 (7000 BP-5000 BP [ca. 5600-3700 BCE]; the Ḥalāf and ‘Obēd periods): colder and moister conditions during the “second Holocene Optimum”, a transitional phase? . . . . .	47
2.3.3	Phase 3 (5000-4000 <sup>?</sup> BP [3700-ca. 2500 <sup>?</sup> BCE], the Uruk period and the beginning of the Early Bronze Age): drier climatic conditions and incision of rivers in the previously built terraces . . . . .	49
2.3.4	Phase 4 (4000 <sup>?</sup> -2900 <sup>?</sup> BP [2500 <sup>?</sup> -900 <sup>?</sup> BCE], the [late Early <sup>?</sup> ], Middle and Late Bronze Ages): aridity, dramatic floods and the constitution of the Q <sub>0b</sub> terrace . . . . .	50
2.3.4.1	Increased aridity and high flood episodes in the 3 <sup>rd</sup> and early 2 <sup>nd</sup> Millennia BCE . . . . .	51
2.3.4.2	Dating the Q <sub>0b</sub> aggradation phase . . . . .	52
2.3.4.2.1	The ceramic sequence of the Q <sub>0b</sub> formation: Early to Late Bronze Age . . . . .	52
2.3.4.2.2	The Q <sub>0b</sub> formation at Emār and Ḥarrādum . . . . .	53
2.3.4.2.3	Instability of the Euphrates channel according to the Mari letters . . . . .	56
2.3.4.3	The Q <sub>0b</sub> aggradation phase: climatic and/or anthropogenic? . . . . .	57
2.3.4.4	End of the Q <sub>0b</sub> aggradation phase and the renewal of river incision . . . . .	58
Chapter 3		
Climatic trends of Late Bronze Age Anatolia / Northern Syria according to the Macrophysical Climate Model . . . . .		
3.1	Modelized rainfall at Qamišlī . . . . .	62
3.2	Modelized climates of Anatolia . . . . .	62
3.3	Modelized discharge of the Euphrates and Ḥābūr . . . . .	63
Conclusion of part 1: Late Bronze Age Upper Mesopotamia in palaeo-climatic perspective . . . . .		
		67

## PART 2

Middle Assyrian yields and the limit of dry-farming in the 13 <sup>th</sup> century BCE: a view from the texts . . . . .	71
Chapter 4	
Irrigation agriculture and dry-farming in Upper Mesopotamia according to Middle Assyrian documents. . . . .	73
4.1 The domain of predominant dry-farming with supplementary irrigation . . . . .	73
4.1.1 The Upper Ġazīra . . . . .	73
4.1.2 The region of Aššur and the western bank of the Tigris . . . . .	74
4.1.3 The Lower Zāb region. . . . .	76
4.2 The domain of predominant irrigation agriculture . . . . .	76
4.2.1 South of the Sinġār: the Wādī Tartaṛ . . . . .	76
4.2.2 Kār-Tukultī-Ninurta and the eastern bank of the Tigris . . . . .	78
4.2.3 The Northern Balīḥ Valley / Tall Šābī 'Abyad . . . . .	79
4.3 Dry-farming and/or irrigation on the Lower Ḥābūr? The case of Middle Assyrian Dūr-Katlimmu . . . . .	79
4.3.1 A debated and crucial case . . . . .	80
4.3.2 Exclusive irrigation agriculture or mixed practices? . . . . .	81
4.3.2.1 The existence of irrigation at Dūr-Katlimmu is certain . . . . .	81
4.3.2.2 The “šer'u”-fields of Dūr-Katlimmu: a problematic identification. . . . .	82
4.3.2.2.1 Can šer'u be equated with irrigated fields? . . . . .	82
4.3.2.2.2 šer'u or šar(ra)'u? . . . . .	84
4.3.2.3 Use of wādī waters in irrigated and non irrigated context . . . . .	88
Chapter 5	
Middle Assyrian yields in the 13 <sup>th</sup> century BCE: methodological issues. . . . .	93
5.1 Middle Assyrian texts and cereal yields: possibilities and limits. . . . .	93
5.1.1 Middle Assyrian yields: the state of research . . . . .	94
5.1.2 Nature of the evidence . . . . .	95
5.1.2.1 Documents issued during the “clearance of the grain heap” (Dūr-Katlimmu & Aššur) . . . . .	95
5.1.2.2 Domaniā administration of a <i>dunnu</i> (Tall Šābī 'Abyad) . . . . .	97
5.1.2.3 Rural management at Kār-Tukultī-Ninurta . . . . .	99
5.1.3 Scribal errors and how they affect yield estimates . . . . .	101
5.1.3.1 Mistakes in additions and subtractions . . . . .	101
5.1.3.2 Mistakes in multiplications and divisions. . . . .	103
5.2 Metrological issues: Middle Assyrian capacity measures and their relations . . . . .	104
5.2.1 The relation between the small <i>sūtu</i> and the <i>sātu</i> of the <i>Ḥiburnu</i> . . . . .	105
5.2.2 The relation between the old <i>sātu</i> and the <i>sātu</i> of the <i>Ḥiburnu</i> . . . . .	106
5.2.2.1 The state of research: 1 old <i>sātu</i> = 1 <i>sātu</i> of the <i>Ḥiburnu</i> . . . . .	107
5.2.2.2 A new hypothesis: 1 <i>sātu</i> of the <i>Ḥiburnu</i> = 1,25 old <i>sātu</i> . . . . .	107
5.2.2.2.1 BATSH 9 72, 6-10. . . . .	107
5.2.2.2.2 BATSH 9 74: a strong contradiction or a scribal error? . . . . .	109

5.2.2.2.3	Seed estimates in the documents from Tall Šēḫ Ḥamad . . . . .	110
5.2.2.2.4	MARV [1] 1+, i 49'-60' . . . . .	114
5.2.3	The value of the 'unspecified <i>sūtu</i> ' . . . . .	116
5.3	Yields ancient and modern: the limits of comparison . . . . .	121
5.3.1	The absolute value of Middle Assyrian measures . . . . .	121
5.3.1.1	The absolute value of Middle Assyrian surface units . . . . .	122
5.3.1.2	The absolute value of Middle Assyrian capacity units . . . . .	122
5.3.1.2.1	Old Babylonian <i>sūtu</i> of Šamaš and Middle Assyrian old <i>sūtu</i> . . . . .	123
5.3.1.2.2	Middle Assyrian inscribed jars from Tall Ḥuwēra and Tall Šēḫ Ḥamad . . . . .	125
5.3.2	Ancient and modern seed/yields rates: some comparative evidence . . . . .	127
Chapter 6		
	Middle Assyrian yields and the limits of dry-farming . . . . .	129
6.1	Productivity of fields in the Middle Assyrian kingdom . . . . .	129
6.1.1	Productivity of fields from the Eastern part of the kingdom . . . . .	129
6.1.1.1	Fields from Ḥiṣṣutu . . . . .	129
6.1.1.2	Fields from Nēmad-Eštar . . . . .	130
6.1.1.3	Fields from Tarbašḫe . . . . .	131
6.1.1.4	Fields from Kār-Tukultī-Ninurta . . . . .	131
6.1.2	Productivity of fields along the Lower Ḥābūr . . . . .	133
6.1.2.1	The fields of Dūr-Katlimmu . . . . .	133
6.1.2.1.1	Dūr-Katlimmu Field No. 1 (the <i>šar[ra]ʿu</i> -field) . . . . .	133
6.1.2.1.2	Dūr-Katlimmu Field No. 2 . . . . .	136
6.1.2.1.3	Dūr-Katlimmu Field No. 3 . . . . .	138
6.1.2.1.4	Dūr-Katlimmu Field No. 4 . . . . .	141
6.1.2.1.5	Dūr-Katlimmu Field No. 5 . . . . .	143
6.1.2.2	The fields of Duara . . . . .	143
6.2	In search of the dry-farming belt: Middle Assyrian yields in comparison . . . . .	146
6.2.1	A comparison of Middle Assyrian yields per <i>ikū</i> . . . . .	146
6.2.2	Irrelevancy of yields as an indicator of dry-farming . . . . .	150
6.2.3	High and low seed/yield rates in irrigation agriculture: the Nuzi case . . . . .	151
Chapter 7		
	Good times, bad times: yield variability during the 13 <sup>th</sup> century BCE . . . . .	155
7.1	Chronological prolegomena . . . . .	155
7.1.1	Eponyms of the reign of Salmanassar I (1263-1234 BCE) according to the 'yield-texts' . . . . .	156
7.1.1.1	The chronology of the Aššur 'yield-texts' . . . . .	156
7.1.1.2	"Old grain" in Aššur and Dūr-Katlimmu, and its meaning in terms of chronology . . . . .	159
7.1.2	Eponyms of the reign of Tukultī-Ninurta I (1233-1197) according to the 'yield-texts' . . . . .	163
7.1.2.1	The Overseers of Ploughmen and the chronology of the Dūr-Katlimmu 'yield-texts' . . .	163
7.1.2.1.1	The sequence of the Overseers of Ploughmen: methodological aspects . . . . .	163

7.1.2.1.2	The eponyms Libūr-zānin-Aššur and Aššur-nādin-apli . . . . .	165
7.1.2.1.3	The last years documented by the <i>pišerti karu'e</i> documents . . . . .	166
7.1.2.1.4	Summary of the evidence: the Overseers of Ploughmen of Dūr-Katlimmu in chronological order. . . . .	167
7.1.2.2	The Kār-Tukultī-Ninurta texts . . . . .	169
7.1.3	The periodicity and date of the ‘clearance of the grain-heap’. . . . .	169
7.2	Inter- and intra-annual variability of yields in irrigated context: the Lower Ḥābūr. . . . .	173
7.2.1	Inter-annual variability as a climatic indicator . . . . .	173
7.2.1.1	Strong interannual variability of barley yields at Dūr-Katlimmu and Duara during the 13 <sup>th</sup> century BCE . . . . .	173
7.2.1.2	Seed/yield rates from the heartland of Assyria in view of the Dūr-Katlimmu evidence . . . . .	176
7.2.1.3	Interannual variability of wheat yields at Dūr-Katlimmu during the 13 <sup>th</sup> century BCE . . . . .	180
7.2.2	Inter annual variability and irrigation . . . . .	182
7.2.2.1	The importance of rainfall for irrigation agriculture. . . . .	182
7.2.2.2	Irrigation techniques: furrow or basin irrigation?. . . . .	183
7.2.2.3	Sources of water and their accessibility . . . . .	184
7.2.3	Intra-annual variability and crop failure at Dūr-Katlimmu and Duara . . . . .	187
7.2.3.1	Variations of productivity gains on the <i>šar(ra)u</i> -fields . . . . .	187
7.2.3.2	The fields of Dūr-Katlimmu and Duara: a tentative location . . . . .	188
7.2.3.2.1	The agricultural catchment of Dūr-Katlimmu. . . . .	188
7.2.3.2.2	Types of land and access to water around Dūr-Katlimmu . . . . .	191
7.3	Poor harvests in Kār-Tukultī-Ninurta at the end of the 13 <sup>th</sup> century BCE . . . . .	198
7.3.1	Low yields and strong intra-annual variability in irrigated context . . . . .	199
7.3.2	Kār-Tukultī-Ninurta and bad climatic conditions: which came first?. . . . .	200
	Conclusion . . . . .	207
	Appendix	
	Middle Assyrian Texts pertaining to yield reconstructions, in transcription and translation. . . . .	211
App. 1	Texts from Aššur. . . . .	213
App. 2	Texts from Kār-Tukultī-Ninurta . . . . .	218
App. 3	Texts from Dūr-Katlimmu. . . . .	222
App. 3.1	Texts from the “clearance of the grain-heap” . . . . .	222
App. 3.2	Deliveries of grain as seeds. . . . .	260
	Bibliography . . . . .	263
	Index . . . . .	285
