

CONTENTS

Foreword by Frederick K. Goodwin

Preface

Contributors

PART I HOW NEUROIMAGING INFORMS MODELS OF BIPOLAR DISORDER

1. BRAIN IMAGING TECHNIQUES AND THEIR APPLICATION TO BIPOLAR DISORDER

Caleb M. Adler and Michael A. Cerullo

2. STRUCTURAL BRAIN ABNORMALITIES IN BIPOLAR DISORDER

Koji Matsuo, Marsal Sanches, Paolo Brambilla, and Jair C. Soares

3. FUNCTIONAL BRAIN IMAGING IN BIPOLAR DISORDER

Lori L. Altshuler and Jennifer D. Townsend

4. NEUROCHEMICAL AND METABOLIC IMAGING IN BIPOLAR DISORDER

Jieun E. Kim, In Kyoon Lyoo, and Perry F. Renshaw

5. NEUROIMAGING STUDIES OF BIPOLAR DISORDER IN YOUTH

Manpreet K. Singh, Melissa P. DelBello, and Kiki D. Chang

6. NEUROIMAGING STUDIES OF BIPOLAR AND UNIPOLAR DEPRESSION

Amelia Versace, Jorge R. C. Almeida, and Mary L. Phillips

7. NEUROIMAGING IN BIPOLAR DISORDER AND SCHIZOPHRENIA

Heather C. Whalley, Jessika E. Sussman, and Andrew M. McIntosh

vii PART II HOW GENETIC RESEARCH INFORMS ix MODELS OF BIPOLAR DISORDER

xi

8. GENETIC TECHNIQUES AND THEIR APPLICATION TO BIPOLAR DISORDER

171

Aaron C. Vederman and Melvin G. McInnis

9. GENERAL GENETICS OF BIPOLAR DISORDER

187

John I. Nurnberger, Jr.

3 10. GENETICS OF BIPOLAR DISORDER AND SCHIZOPHRENIA

203

17

Michael E. Talkowski, Kodavali V. Chowdari, Hader Mansour, Konasale M. Prasad, Joel Wood, and Vishwajit L. Nimgaonkar

11. MITOCHONDRIAL GENETICS AND BIPOLAR DISORDER

215

53

Hayley B. Clay, Satoshi Fuke, Tadafumi Kato, and Christine Konradi

79

PART III INTEGRATION AND FUTURE DIRECTIONS

103

12. INTEGRATING IMAGING AND GENETIC RESEARCH: TOWARD PERSONALIZED MEDICINE

239

Roy H. Perlis and Hilary P. Blumberg

125

13. INTEGRATION AND CONSOLIDATION: A NEUROPHYSIOLOGICAL MODEL OF BIPOLAR DISORDER

253

Stephen M. Strakowski

147
