Preface	xi
1. Introduction	1
<i>A. Kleber and B. Terhorst</i>	
1.1. Scope of the Book	1
1.2. Structure of the Book	2
1.3. Terminology	3
1.4. History of Ideas	6
1.5. Cover Beds in the Context of the "Earth's Critical-Zone" Concept	7
2. Subdued Mountains of Central Europe	9
<i>A. Kleber, B. Terhorst, H. Bullmann, D. Hülle, M. Leopold, S. Müller, T. Raab, D. Sauer, T. Scholten, M. Dietze, P. Felix-Henningsen, J. Heinrich, E.-D. Spies and H. Thiemeyer</i>	
2.1. Introduction	9
2.2. Sedimentary Properties of Layers	12
2.2.1 The Basal Layer	12
2.2.2 The Intermediate Layer	13
2.2.3 The Upper Layer	16
2.3. Distribution and Thickness of Layers	18
2.3.1 The Basal Layer	18
2.3.2 The Intermediate Layer	19
2.3.3 The Upper Layer	19
2.3.4 Overview of the Distribution of Periglacial Cover Beds	21
2.4. Classification Issues	24
2.4.1 Discrimination Among Pleistocene Cover Beds	24
2.4.2 Anthropogenic Layers	26
2.5. Statistical Approach to Layer Properties and Distribution	32
2.5.1 Approach	32
2.5.2 Basal-Layer Properties	32
2.5.3 Intermediate-Layer Properties	36
2.5.4 Upper-Layer Properties	36
2.5.5 Overall View on Statistical Results	37
2.6. Genesis of Cover Beds	38
2.6.1 The Basal Layer	38
2.6.2 The Intermediate Layer	40

2.6.3 The Upper Layer	45
2.6.4 Incorporation of Substrates	49
2.7. Chronology of Periglacial Cover Beds	58
2.7.1 Relative-Age Criteria	58
2.7.2 Numerical Dating of Periglacial Cover Beds	63
2.8. Regional Differences in Cover-Bed Properties and Distribution	71
2.8.1 Highest Altitudes of Subdued Mountains	71
2.8.2 Rhenish Massif	75
2.8.3 Carbonate Rocks of the Eastern Thuringian Basin	81
3. Influence of Cover Beds on Soils	95
<i>C. Lorz, M. Frühauf, R. Mailänder, J.D. Phillips and A. Kleber</i>	
3.1. Introduction	95
3.2. An Integrated Soil-Evolution Model for Lithologically Discontinuous Soil	97
3.3. Pedogenesis in Cover Beds	99
3.4. Consequences for Soil Properties	103
3.4.1 Theory of Soil Properties in Lithologically Discontinuous Soil	103
3.4.2 Physical Soil Properties	105
3.4.3 Chemical Soil Properties	109
3.5. Conclusions	125
4. Influence of Cover Beds on Slope Hydrology	127
<i>K.-M. Moldenhauer, K. Heller, P. Chiffard, R. Hübner and A. Kleber</i>	
4.1. Introduction	127
4.2. Basic Hypotheses	128
4.3. Case Studies	129
4.3.1 Overview	129
4.3.2 Frankenwald Mountains	134
4.3.3 Sauerland	141
4.3.4 Erzgebirge	146
4.4. Conclusions	152
5. Geotechnical Properties of Cover Beds	153
<i>B. Damm, B. Terhorst and F. Ottner</i>	
5.1. Introduction	153
5.2. Internal Stability of Cover Beds Derived from the "Infinite Mechanical Slope Model"	155
5.3. Case Studies	156
5.3.1 Stability of Cover Beds in the Flysch Zone of the Vienna Forest (Austria)	157
5.3.2 Stability of Cover Beds on Early Triassic Sandstones of Southern Lower Saxony (Germany)	165
5.4. Perspectives	170

6. Transferring the Concept of Cover Beds	171
<i>A. Kleber, M. Leopold, C. Vonlanthen and J. Völkel</i>	
6.1. Introduction	171
6.2. Basins and Lowlands of the Mid-Latitudes	172
6.2.1 Northern Russian Plain	172
6.2.2 Northern Great Basin, USA	188
6.2.3 Konya Basin of South-Central Turkey	204
6.3. High Mountains of the Mid-Latitudes	206
6.3.1 European Alps	206
6.3.2 Mountains of the Western USA	212
6.4. Conclusions	226
6.4.1 Significance of Cover Beds	226
6.4.2 Cover Beds in Humid Areas	227
6.4.3 Cover Beds in Semi-arid Areas	227
6.4.4 Cover Beds and Elevation	228
7. Relative Dating with Cover Beds	229
<i>B. Terhorst, A. Kleber and E. Bibus</i>	
7.1. Introduction	229
7.2. Case Study at the Swabian Jurassic Escarpment	230
7.2.1 Study Area	230
7.2.2 Geomorphological Setting in Landslide Areas	231
7.2.3 Pedological and Sedimentological Setting in Landslide Areas	232
7.2.4 Model of the Distribution of Periglacial Layers and Soils in Landslide Areas	237
7.3. Case Studies in the Western USA	238
7.3.1 Introduction	238
7.3.2 River Terraces of Castle Valley, Southeast Utah	239
7.3.3 A Case of Misleading Tephrochronology?	241
7.3.4 Ice-Wedge Casts in South-Central Wyoming	245
7.3.5 Moraines in the Ruby Mountains, Northeast Nevada	248
7.4. Conclusions	249
8. Conclusions	253
<i>A. Kleber and B. Terhorst</i>	
8.1. Takeouts of this Book	253
8.2. Future Research Demands on Cover Beds	254
References	257
Index	295
