When in 2002 the Papyrus Archives Project of the KU Leuven started, we intended to gather papyrus and ostraca archives from Graeco-Roman and Late Antique Egypt, and provide descriptions downloadable as pdf on the *Transcripta* website. In more recent years, we decided to publish parts of the descriptions in book form and thus bundled the Ptolemaic archives in *Collectanea Hellenistica III* and now present the Fayum archives as *Collectanea Hellenistica VI*.

We are most grateful to the archaeologists associated to this project: Giuseppina Azzarello, Yasser Dawoud, M. de El-Etre Chaigry, W. Graham Clayor, Lucia Criscuolo, Inge Feucht, Karline Geera, Francesca Ad. Houtman, Sören Smørdal, Silke Vandaele, Bert Van Beek and Sjoke Wouters. Koenig Van Doornel assisted us for the bibliographical references and the indices. Bert Van Beek and Tom Ghesels were so kind to maintain the online version of the archives project.

We should like to thank Arthur Verbeke and Andrea Hofman, who provided information for some of the archives. We also express our gratitude to the Institut für Papyrologie in Heidelberg, the Papyrology Collection at the University of Michigan Library, and the Thomas Fisher Rare Book Library at the University of Toronto, for their permission to publish photographs of papyrus from their collections. Finally, our thanks go to the Research Council of the KU Leuven and the Fund for Scientific Research - Flanders (FWO) for sponsoring the archives project, also to the Royal Flemish Academy and the publishing house Peeters for accepting this work for publication in the series *Collectanea Hellenistica*.
