

The Coinage of Herod Antipas provides a comprehensive, multifaceted and up-to-date re-examination of the coins of Herod Antipas, the tetrarch of Galilee and Peraea between 4/3 BCE and 39/40 CE. Kogon and Fontanille classify around 800 coins by obverse and reverse dies. From this die classification they generate, for the first time ever for this tetrarch, about 300 composite die images. In addition, the authors examine both technical aspects of the coins (e.g. metrology, mint output) and non-technical aspects (e.g. inscriptions, iconography). They also review the geographic distribution of provenanced coins. Through this analysis of the coins of Herod Antipas, Kogon and Fontanille provide a greater understanding of the *Sitz im Leben* of first century Galilee.

ANCIENT JUDAISM AND EARLY CHRISTIANITY 102

AARON J. KOGON is an independent researcher specializing in Levantine coins from the Hasmonean and Roman periods. Kogon is the author of several papers on, *inter alia*, numismatic iconography and paleography, and countermarks.

JEAN-PHILIPPE FONTANILLE is an independent researcher specializing in Judaeen coins. He has written numerous papers and monographs, including *The Coins of Herod* (Brill, 2012, with D.T. Ariel). Fontanille founded the Menorah Coin Project, which has classified 13,000 coins by die.
