

This book brings together in one volume two previous books that laid the groundwork for the construction of the entries in *Diccionario Griego-Español del Nuevo Testamento* (Greek-Spanish Dictionary of the New Testament), namely *Método de Análisis semántico aplicado al griego del Nuevo Testamento* (Method of Semantic Analysis applied to the Greek of the New Testament) and *Metodología del Diccionario Griego Español del Nuevo Testamento* (Methodology of the Greek Spanish Dictionary of the New Testament), by Juan Mateos and Jesús Peláez.

For the first time, a carefully developed method of semantic analysis and the corresponding methodology are presented before the construction of the dictionary's entries.
