Relevant supporting policies and documentation

- **Modern slavery and Human Trafficking Statement / Sustainable Supplier Charter**

Techlive is committed to ensuring that its suppliers adhere to the highest standards of ethics. Suppliers (of goods and services) are required to demonstrate that they source from their own ethical suppliers and also undertake their own business ethically, providing safe working conditions where necessary, treat workers with dignity and respect, and act ethically and within the law in their use of labour. The organisation works with suppliers to ensure that they meet the standards of the code. However, serious violations of the organisation's supplier code of conduct may lead to the termination of the business relationship where immediate corrective action is not taken.

Before doing business with a new supplier, Techlive requires a response to the following questions:

“In relation to the Modern Slavery Act 2015, can you please detail your Company's commitment to ensuring the integrity of your supply chain and adherence to ethical working practices in all your business relationships” and “Can you provide a Copy of your Modern Slavery statement?”

Without a satisfactory answer and a copy of their Modern Slavery Statement, suppliers will not be approved and we will not do business with them.

- **Techlive's Whistle blowing Policy**

Techlive encourages all its workers, customers and other business partners to report any concerns related to the direct activities, or the supply chains of, the organisation. This includes any circumstances that may give rise to an enhanced risk of slavery or human trafficking. The organisation's whistleblowing procedure is designed to make it easy for workers to make disclosures, without fear of retaliation.

- **Employee code of Conduct**

Techlive's code makes clear to employees the actions and behaviour expected of them when representing the organisation. The organisation strives to maintain the highest standards of employee conduct and ethical behaviour when undertaking the work of the Company, interacting with others and managing the supply chain.
