

Introduction of Digital Badging for Conferences & Meetings at the Palais des Nations

UNDSS |

UN Department of
Safety and Security

Bottom Line Up Front

Following completion of three phases of renovation at Pregny Pavilion (Pass & ID) spanning 5 years, we must resolve the problem of long queuing times.

Unique Key Considerations

- Not innovation for innovation's sake...
 - Necessity being the Mother of (innovation) invention;
- Location & Alignment of Pregny Pavilion;
- Conference/ event participants and guided tours only;
 - Existing Indico accreditation & badging system.

Location & Alignment of Pregny Pavilion

Key Outputs

By moving to digital badges UNOG will:

- Remove requirement for conference participants to queue for paper badges;
 - Time saving: 3-4 minutes versus 35-40 seconds;
 - Eliminate wastage associated with printing quarter of a million badges annually;
 - ✓ Ensure coherence with 2030 UN SDGs 9 & 12.

9

Goal 9

Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation.

12

Goal 12

Ensure sustainable consumption and production patterns.

First Day of Conference/ Event

- Participant enters Pregny pavilion and scans digital badge at counter scanner.
- Badging Assistant views accreditation details on screen and asks for form of ID.
- Participant presents ID at booth window.
- Badging Assistant checks ID matches accreditation and activates digital badge.
- Participant moves to speed gates and scans to activate passage through to screening area.

Second and Subsequent Days of Conference/ Event

- Participant enters Pregny pavilion and proceed to speedgates (c/w dual QR & RFID readers).
- Scanning digital badges to QR code reader activates speed gate.
- Security booth with live view of participant image presented on Security Officer's monitor.

- Once screening complete, participants will exit the pavilion.
- Individuals may be requested to present their digital badge to a Security Officer using a portable device to confirm their access rights.

Final Phase of Pregny Renovation

- Commences end of September;
 - Will not necessitate closure of pavilion.
- Installation of:
 - Overhead cover to outer wall;
 - Two pedestrian turnstiles and PRM SAS;
 - Notification screens to appropriate badging lanes.
