| 2 | Unifi Mobile | Not Applicable | Not Applicable |
| 3 | Simple Voice Plus | Not Applicable | Not Applicable |
| 4 | Voice IDD | 1 month | 1 month of subscription fee |
| 5 | Additional Voice | 24 month | RM 200/line |
| 6 | Fixed IP | Not Applicable | Not Applicable |
| 7 | UnifiTV Pack | 12 months subscription | The remaining months of monthly subscription fee |

## ELIGIBILITY

| 8 | Who is eligible to subscribe to Unifi Biz? | • Unifi Biz packages are open to all new and existing customers, subject to service availability. |
|---|---|---|
| 9 | Are Non-Malaysians eligible to subscribe to the packages? | • Yes, the packages are also open for non-Malaysians to subscribe. |

## VOICE OFFERING, DOWNLOAD & UPLOAD SPEED

| 10 | What are the voice call charges under the Unifi Biz packages? | • Under Unifi Biz packages, calls from Fixed to Fixed and Fixed to Mobile will becharged 20 sen/min (including local calls).<br><br>• Check out our latest campaign on the complimentary voice minutes. |
|---|---|---|

| 11 | Why is the upload speed different from the download speed? | • Unifi is committed to providing higher bandwidth to our customers. Based on our findings on consumer behavior, most of their activities spent on the Internet require higher download speed for seamless internet experience, for instance: video streaming, social networking, downloading materials, etc.<br><br>• The upload speed for Unifi Biz plans is sufficient to provide good experience toour subscribers. From the usage statistics of our current Unifi Biz customers, 90% of total users only use less than 5Mbps upload speed. Common genuine usage includes VoIP, FTP, CCTV and video streaming and other high latency applications. |
|---|---|---|
| 12 | I need higher upload speed. Do you have any packages that can suit that requirement? | • The upload speed for all Unifi Biz plans is sufficient to provide a trusted internet experience to our subscribers. For average usage, we encourage you to subscribe to our Unifi Biz 800Mbps plan™ to enjoy high upload speed.<br>• For customers that require even higher upload speed, we encourage you to subscribe to our Unifi 2Gbps plan™ to enjoy maximum upload speed that we can offer. |
| | **SERVICE AVAILABILITY** | |
| 13 | How do I check the service availability in my area? | • You can check service availability in your area online at www.Unifi.com.my, via Live Chat at the MyUnifi app or Unifi.com.my/chat, visit any TMpoint outlets nationwide, tweet us @helpmeunifi or message us at facebook.com/weareunifi. |
| | **REGISTRATION** | |
| 14 | How do I subscribe to Unifi Biz? | • You may register at any nearest TMpoint, TM Authorised Dealer (TAD),resellers, SME consultants & TM Sales Center.<br><br>• You can also register your interest to subscribe via Unifi portal Unifi.com.my and our team will manage it for you. |
| 15 | I'm not a Malaysian, can I subscribe to Unifi Biz via online, TM Authorised Dealer (TAD) or Resellers? | • You can register to our Unifi Biz plans at any TMpoint outlets, TM Authorised Dealers (TAD) or Resellers. |
| | **UPGRADE / DOWNGRADE** | |
| 16 | Can I change my existing plan to the new Unifi Biz plans? | • Yes, you are allowed to change to the higher/lower speed package at any time.However, you will be tied to a new contract period regardless if you are within or beyond the contract period.<br><br>• Depending on the promotion, contract renewal may be applicable. Do checkour latest promotion campaign. |

| 17 | Where can I change my Unifi Biz plan? | • Any request to change your Unifi Biz plans can be done at all TMpoint outlets nationwide and SME consultants.<br><br>• You can also register your interest to change plan via Unifi portal Unifi.com.my and our team will manage it for you. |
|----|------|------|
| 18 | If I am subscribing to Unifi Biz plan with Unifi TV pack, am I eligible to subscribe to the Unifi TV pack with Media box? | • Unifi Biz plan with Unifi TV media box will be offered during limited time promotion only. You may check out the promotion packages we have from time to time. |

| SPEED TEST FOR 800MBPS AND BELOW |
|---|

| 19 | How do I check the speed of my Unifi Biz? | • Once your Unifi Biz has been activated, you can run a speed test via http://speedtest.tm.com.my/. |
|----|------|------|
| 20 | I am an existing Unifi Biz customer and planning to upgrade to Unifi Biz. What do I need to do after TM has successfully upgraded my speed / package? | ▪ Step 1: You are required to turn off your wireless router for 10 minutes to allow new configuration to take place before you can enjoy your new speed.<br><br>▪ Step 2: Once done, you can start testing your Unifi speed at this link http://speedtest.tm.com.my/.<br><br>▪ Step 3: Click the 'GO' button on the front page and wait for the test to complete.<br><br><br><br>▪ Step 4: The test will show the result of your current upload and download speeds. |

**IMPORTANT NOTES:**

- Before you perform the speed test, please stop any ongoing downloading activities and shut down any programs that may be utilising your connection i.e P2P, streaming, etc.

- Speed test can be done over wireless, however, for accurate results, it is recommended that the test to be done over wired connection by using LAN cable provided during your Unifi Biz installation.

- Simply plug the LAN cable from your computer to your wireless router LAN port LAN1 to LAN3 (any of them).

Figure 1: LAN Cable        Figure 2: Wireless Router LAN ports

| 21 | Why didn't I get thespeed as advertised? | - Unifi Biz is a wired broadband service. Wireless connectivity is a complimentary feature offered to our customers via the wireless router and it is subject to interference and obstructions factor. Check out our website https://home.unifi.com.my/unifi-experience to learn more. <br><br> - Internet access speed may be affected due to several factors such as: <br> (a) Locations of websites; where users may experience lower speed from international websites; <br> (b) Capacity of visited web server, where some web servers cannot cope with huge traffic demand from users OR do not have enough capacity OR where download speed is restricted to ensure fair level of service; <br> (c) Network congestion as a result of network maintenance or outages |

| | | |
|---|---|---|
| | | (d) Running multiple applications simultaneously like using other applications such as Peer-to-Peer e.g.: BitTorrent |
| | | ▪ Multiple users sharing the Unifi Biz bandwidth at customer's premises at the same time. |
| | | ▪ For the 2Gbps plan, the download speed is aggregated (combined) by each LAN port, where each LAN port will not exceed more than 1Gbps. |
| 22 | **What can I do to improve the speedvia wireless connectivity?** | We recommend you to practise these tips in order to improve the speed via wireless connectivity:<br><br>a. HEAT - Place your wireless router away from areas with high temperatureas heat will affect the router performance and browsing experience.<br>• Wireless router should be placed in an open area to allow heatventilation.<br>• Place the broadband equipment next to each other instead of stackingit up to reduce the risk of overheating.<br><br>b. DISTANCE – Wireless router has distance limitations when it comes tosignal range. As distance increases, the signal becomes weaker.<br>• Consider placing your Wireless router in an area where you wouldfrequently do your browsing activities.<br><br>c. OBSTRUCTION – WiFi signal efficiency will decrease when it passesthrough physical obstruction e.g.: thick walls, metals and solid objects.<br>• Consider placing your Wireless router in an open area to maximize signalreception<br>• Avoid placing your router in a closed cabinet, secluded room or underthe stairs.<br><br>d. ELECTROMAGNETIC INTERFERENCE – Signal waves generated by electronic appliances such as microwave ovens, refrigerators, baby monitors can interfere with your WiFi connectivity.<br>• Place your Wireless router away from the electronic appliances<br>• Avoid sharing the power socket that is connected with the electronic appliances.<br><br>e. WIFI SECURITY PASSWORD – A user may hack into your WiFi security password to get free connectivity. The more users connected to your Internet, the more bandwidth will be consumed; thus affecting your browsingexperience.<br>• Consider setting a unique and strong WiFi security password.<br>• Consider changing your WiFi security password from time to time. |

| | | |
|---|---|---|
| | | Alternatively, you can visit this link for further information on tips to enhance your wireless connectivity speed. |

| | SPEED TEST FOR 1GBPS AND 2GBPS | |
|---|---|---|
| 23 | **How do I check the speed of my Unifi 1Gbps and 2Gbps?** | • Once your service is activated, you can run a speed test using a mobile app specifically provided for 1 Gbps and 2 Gbps plan. |
| 24 | **What do I need to do after TM has successfully upgraded my speed / package?** | • Step 1: You are required to turn off your wireless router for 10 minutes to allow new configuration to take place before you can enjoy your new speed.<br><br>• Step 2: Once done, you can start testing your Unifi speed using the mobile app specifically provided for 1 Gbps and 2 Gbps.<br><br>**IMPORTANT NOTES**:<br>▪ Before you perform the speed test, please stop any ongoing downloading activities and shut down any programs that may be utilizing your connection i.e. P2P, streaming, etc. |
| 25 | **Where can I get the mobile app to run the speed test?** | ▪ After installation, our Care Crew will guide and provide you with the speed test app.<br>▪ You can also download the app from Google Play Store by searching D-LINK Wi-Fi Air.<br><br><br><br>• The app is currently unavailable for iOS. Continue to watch this space as we will update you when it becomes available for download at the Apple App Store. |
| 26 | **Why do I need to test the speed using a mobile app?** | ▪ TM Ultra Speedtest server can only be accessed via D-Link mobile app and capable to reach up to 2Gbps.<br>▪ Built-In Speedtest Engine inside the Combo Box has been optimized for 2Gbps speedtest.<br>▪ Speedtest using a single device (Laptop, PC etc.) via LAN port as opposed to speedtest via app will not exceed more than 1Gbps due to limitation of Gigabit Ethernet LAN on Combo Box device. |

*D-Link Wi-Fi Air App Speedtest Diagram*

Speedtest via D-Link Wi-Fi Air app can achieved 90% from subscribed speed for download and upload.
1Gbps Subscribed Speed:
DL: 1Gbps
UL: 500Mbps

2Gbps Subscribed speed:
DL: 2Gbps
UL: 1Gbps

Built-In Speedtest Engine inside the Combo Box works hand in hand with D-Link Wi-Fi Air App.

Speedtest using a single device (Laptop, PC, etc.) via LAN port as opposed to speedtest via app will not exceed more than 1Gbps due to limitation of Gigabit Ethernet LAN.

| 27 | What are the features included in the mobile app? | ▪ Mobile app features:<br><br><br><br>**D-LINK WiFi Air**<br>**Android App Version: 1.0.8**<br><br>**Monitoring Features**<br>➢ Mesh status (Online/Offline)<br>➢ List of connected clients on each Mesh Satellite<br>➢ Apps Firmware Version<br>➢ WAN and LAN IP information<br><br>**Management Features**<br>➢ Wireless SSID configuration<br>➢ Parental control<br>➢ Mesh reboot<br>➢ VLAN configuration (for VOBB or IPTV)<br><br>**Built-in Speedtest Dashboard** |
|----|----|----|
| 28 | Do I have to register to use the mobile app? | ▪ Yes, you need to register as per steps below:<br><br><br><br>**STEP 1:** Open D-Link WiFi Air App on Android mobile phone.<br>**STEP 2:** Select Country: **Malaysia**<br>**STEP 3:** Tap on Register button to register for an account |

| | | |
|---|---|---|
| | | <br><br>**STEP 4:** Insert email address<br>**STEP 5:** Tap on "Send email verification code"<br>**STEP 6:** Receive Account activation email and copy verification code<br>**STEP 7:** Insert verification code<br>**STEP 8:** Create login password<br>**STEP 9:** Tap on Register button |
| **29** | **How do I connect the mobile app with my internet's Wi-Fi?** | ▪ You can connect your mobile app with your internet's Wi-Fi as per steps below:<br><br><br><br>**STEP 1:** Connect mobile phone to Combo Box Wi-Fi<br>**STEP 2:** Insert registered email address<br>**STEP 3:** Enter password<br>**STEP 4:** Tap on Login button<br>**STEP 5:** Tap on Add Device<br><br><br><br>**STEP 6:** Enter Combo Box Username: tmadmin<br>**STEP 7:** Enter Combo Box Password: Adm@XXXX (according to device label)<br>**STEP 8:** Tap on Login button<br>**STEP 9:** Tap on device list |

| 30 | Can I use the current Unifi speed test website for 1Gbps and 2Gbps plan? | <ul><li>Yes. 1Gbps will require minimum of a single laptop while 2Gbps will require minimum of two (2) laptops for an aggregated (1+1) speed test.</li><li>For reference, the following laptop specification has been used during 1Gbps & 2Gbps LAN speed test:</li></ul> <table><tr><td>**Device Model**</td><td>HP ProBook 440 G7</td></tr><tr><td>**CPU**</td><td>Intel® Core™ i5-10210U CPU @ 1.6GHz 2.11GHz</td></tr><tr><td>**Memory**</td><td>8GB</td></tr><tr><td>**OS**</td><td>Windows 10 Pro</td></tr><tr><td>**Ethernet**</td><td>Realtek 10/100/1000 GbE NIC</td></tr></table> <ul><li>Speed test via LAN diagram for illustration:</li></ul> Figure 3: Speed test via LAN |
| --- | --- | --- |
| 31 | How does the speed test in mobile app work? | <ul><li>Speed test measures the internet speed between Combo Box via GPON WAN connection to the dedicated TM Ultra Speedtest server and the result of the speed test will be shown in the mobile app.</li></ul> |
| 32 | Do I need internet connection to use the speed test app? | <ul><li>Yes. D-Link Wi-Fi Air app will require internet connection to access the dedicated TM Ultra Speedtest server.</li></ul> |
| 33 | Do I need to connect to my internet Wi-Fi account to use the speed test app? | <ul><li>Yes. D-Link Wi-Fi Air app needs to be installed and connected to your Wi-Fi.</li></ul> |
| 34 | Can I connect with a different internet Wi-Fi account to test my internet account speed via the speed test app? | <ul><li>No. This feature is not currently available and will be supported later.</li></ul> |
| 35 | What download | <ul><li>Please refer to the table below for speed test result example:</li></ul> |

| | No. of client device | 1 Gbps | 2 Gbps | |
| --- | --- | --- | --- | --- |
| | | A single laptop connected to a single LAN port | Dual laptops connected to dual LAN ports | |
| | | Laptop 1 | Laptop 1 | Laptop 2 |
| and upload speeds can I expect if I test the speed from my computer by LAN cable to the combo box LAN port? | Speedtest Example 1 | TM<br>PING 3 ms<br>DOWNLOAD 948.2 Mbps<br>JITTER 1 ms<br>UPLOAD 531.9 Mbps<br>TM 210.195.6.231 | TM<br>PING 2 ms<br>DOWNLOAD 948.8 Mbps<br>JITTER 0 ms<br>UPLOAD 328.1 Mbps<br>TM 210.195.6.231 | TM<br>PING 3 ms<br>DOWNLOAD 938.5 Mbps<br>JITTER 1 ms<br>UPLOAD 707.6 Mbps<br>TM 210.195.6.231 |

| **RELOCATION** |
|---|

| 37 | **What if I need to relocate my Unifi Biz service? Are there any charges that I need to pay?** | ▪ Relocation request can be made at any TMpoint outlets and is subject to service availability at the new area where you wish to relocate the service. The relocation fee of RM300 shall be waived. |
|---|---|---|
| 38 | **I'm subscribing to Unifi Biz and I wish to relocate to an area that cannot be served with Unifi Biz service. Can I terminate my Unifi Biz service if my Unifi Biz still within the contract period?** | ▪ If you relocate to a Unifi non-serviceable area:<br><br>➤ You have the option to subscribe to any Broadband plan available depending on the area served.<br>➤ If you do not wish to subscribe to any of the Broadband packages available, TM has the right to charge early termination fee of your Unifi Biz account (if applicable). |

| | UNIFI INSTALLATION & ACTIVATION | |
|---|---|---|
| 39 | **When will my UnifiBiz service be activated?** | ▪ The lead time for your Unifi service to be activated is up to seven (7) days fromthe date of registration. |
| 40 | **How long does a typical Unifi Biz installation and testing take?** | ▪ Installation and testing are expected to take approximately 4 to 8 hoursdepending on the type of your premises due to the sensitive nature and the complexity involved in fiber installations.<br><br>▪ The installation processes include site survey, ducting, piping, electrical work and equipment configurations. |
| 41 | **Does TM allow customers to appoint their own contractor to perform internal wiring?** | ▪ Yes, we do. You may call your own contractors to fix the internal wiring but Unifiwill not be liable for any damages resulting from any works done by third parties. |
| 42 | **What are the charges for installation fee and equipment?** | ▪ Installation charge for Unifi Biz is RM200 (currently waived for standard installation **for the first 50 meters only**). If your premises require non- standard installation or additional cabling, extra charges will be imposed byTM Contractor.<br><br>▪ The standard package is also inclusive of equipment worth approximatelyRM1,000 that will be given free-of-charge to you. |
| | TRANSFER OF OWNERSHIP | |
| 43 | **Are there any charges if I request for change of ownership?** | ▪ Yes, change of ownership is subject to a one-off fee of RM10 per change request. |
| 44 | **Where can I request for change of ownership?** | ▪ Change of ownership request can be made at any TMpoint outlets. Both existing and new owners must be present with their respective NRICs and related documents. |
| | UPFRONT PAYMENT | |
| 45 | **Do I need to pay any upfront payment during application?** | ▪ Yes. For Unifi Biz service application made without the verification of a MyKad Reader, you are subject to an upfront payment of RM100.<br><br>▪ The upfront payment will be collected within 10 days from the date of the service activation. You will be notified by TM on the successful payment through SMS and the payment will be reflected in your next bill. |

| | **PAYMENT & BILLING** | |
|---|---|---|
| 46 | **When will I get myfirst bill after I subscribe to Unifi Biz package?** | ▪ The first bill can be expected around one (1) month after your service has beenactivated. The first bill will include pro-rated package fee (current usage) and one (1) month advance payment. |
| 47 | **Do I pay a separatebill for the services bundled in the UnifiBiz?** | ▪ All services offered under Unifi Biz including Unifi TV for Business will be in a single bill.<br><br>▪ For Unifi Mobile, you will receive a separate bill. |
| 48 | **Where can I pay myUnifi Biz bill?** | ▪ You can pay your bill through several payment channels such as:<br><br>➢ MyUnifi app<br>➢ Unifi portal at <u>Unifi.com.my</u><br>➢ any nearest TMpoint or TMpoint Authorised Dealer (TAD) outlets<br>➢ POS Malaysia and branches of selected preferred online banking channels<br><br>▪ For hassle-free payment transactions, it is highly recommended that yousubscribe to **TM Autopay service**.<br><br>▪ For the list of our authorized bill payment channels, click <u>here</u> |

| 76 | **What are the other things that I shouldknow about Unifi Biz?** | These are additional information that may help you understand more about UnifiBiz services:<br>1. If your premises located in a high rise building served via copper, you arerequired to terminate your existing business broadband service (if any)before subscribing to Unifi Biz.<br><br>2. Minimal drilling is required for fibre installation to the premises. You will be responsible for providing a TV set and 4-socket extension cord to complete the installation. No installation appointment will be made for premises under renovation.<br><br>3. Unifi Biz is a wired broadband service. Wireless connectivity is anadditional feature that TM provides for free and is subject to interference and obstructions factor which may affect its quality.<br><br>4. Unifi Biz account owner or authorized contact person must be availableduring the service installation. For high rise premises, owners are required to make arrangement with Building Management Office for installation permission, internal cabling and access to telecommunication room.<br><br>5. For internal cabling, additional charges will be applied for standard cables more than 50 meters and payment will be made directly to the contractor.<br>6. For other optional installation e.g. wiring inside ceiling or external cabling (pole to ground with surface cabling to premises), you may appoint your own contractor or deal directly with TM appointed contractor. Payment will be made directly to the contractor.<br><br>7. Please provide a correct and valid billing email address & mobile phone number. TM will send your monthly bill via e-Bill to your registered email address. Apart from e-Bill, you will also receive SMS text notification within 7 days after the bill is ready. The content of the SMS is the bill amount, bill due date and Unifi portal link to view & pay the bill. Your bill is also accessible at Unifi |

portal (Unifi.com.my) and MyUnifi app.

All Unifi Biz equipment provided by Unifi is covered by 12 months manufacturer's warranty.
