Math classes &  
counting

**100K+**

Students learning  
Math the right way

**20+ Countries**

Present across USA, UK,  
Singapore, India, UAE & more.

## Why choose Cuemath?

"Cuemath is a valuable addition to our family. We love solving puzzle cards. My daughter is now visualizing maths and solving problems effectively!"

- Gary Schwartz

"Cuemath is great because my son has a one-on-one interaction with the teacher. The instructor has developed his confidence and I can see progress in his work. One-on-one interaction is perfect and a great bonus."

- Kirk Riley

"I appreciate the effort that miss Nitya puts in to help my daughter understand the best methods and to explain why she got a problem incorrect. She is extremely patient and generous with Miranda."

- Barbara Cabrera

**ANSWERS**

1. 210	6. 490
2. 9	7. 210
3. 60	8. 6399
4. 2499	9. 90
5. 7.5 yards	10. b)

## FUN FACT

1. Product of two numbers always remains the same irrespective of order. For example  $2 \times 3 = 6$  and  $3 \times 2 = 6$ .
2. Multiplication is easy if you know the times table thoroughly.
3. Adding any number  $n$  times is the same as multiplying it  $n$  times. For example,  $4 + 4 = 8$  and  $4 \times 2 = 8$ .
