Perimeter Worksheet-3

1) What is the perimeter of the given shape?

2) Find the perimeter of the shape shown below.

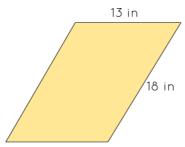

3) An athlete takes 10 rounds of a square park 50 feet long. Find the total distance covered by him.

4) Find the cost of fencing a rectangular park of length 70 units and breadth 46.5 units at the rate of \$5 per unit.

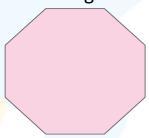

5) Find the perimeter of the parallelogram shown below.

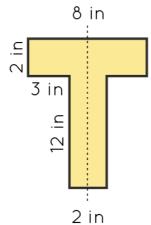

6) A rectangular garden has a perimeter of 280 feet. The north side of the garden is 90 feet. What is the length of the east side of the garden?

7) The perimeter of an octagon is 192 units. Each side of the octagon is the same length. What is the length of one side of the octagon?

8) The perimeter of the given figure below is ______ Note: The dotted line shows that the figure is symmetric

- 9) Rocky digs a trench along the boundary of a square field of perimeter 300 units. If he charges \$5 for digging every meter of the trench's length, how much does he earn by digging the trench?
- 10) The width of a rectangle is 4.2 inches and the length of a rectangle is 8.4 inches. Determine the perimeter of the rectangle.

When you learn math in an interesting way, you never forget.

Why choose Cuemath?

"Cuemath is a valuable addition to our family. We love solving puzzle cards. My daughter is now visualizing maths and solving problems effectively!"

"Cuemath is great because my son has a one-on-one interaction with the teacher. The instructor has developed his confidence and I can see progress in his work. One-on-one interaction is perfect and a great bonus."

"I appreciate the effort that miss Nitya puts in to help my daughter understand the best methods and to explain why she got a problem incorrect. She is extremely patient and generous with Miranda."

- Gary Schwartz

- Kirk Riley

- Barbara Cabrera

| 6) | 50 ft |
| 7) | 24 units |
| 8) | 44 inches |
| 9) | \$1500 |
| 10) | 25.2 inches |

FUN FACT

- 1. Every geometrical shape has a perimeter.
- 2. The perimeter of a <u>circle</u> is called <u>circumference</u>.
- 3. We can find the perimeter of a regular <u>polygon</u> by finding the product of side length and number of sides.
