Welcome to Lleida

The Pyrenees and the Lands of Lleida, in the western part of Catalonia, enjoys a privileged geographical location between Barcelona and the Pyrenees, and shares northern borders with France and Andorra. We believe in a non-aggressive model for tourism and one that meets the needs of visitors without compromising the environment. With this in mind, the Patronat de Turisme (Tourist Board) of the Diputació de Lleida and the Institut de Turisme Responsable (Institute of Responsible Tourism) have awarded us Biosphere Sustainable Lifestyle certification. This guarantees a balance between the environmental, socio-cultural and economic aspects of our destination.

We have 21 years of experience working in the territory. We know the area well and we are in contact with many good professionals and can provide made-to-measure services which are tailored to meet your specific needs.

We make regular visits to the territory to detect new attractions and establishments, and are able to offer our clients new experiences (particularly related to food and wine).

Given our location, we mainly work in the city of Lleida, which is one of the least known travel destinations, but which offers a series of important tourist attractions and innovations. It is also well-connected to the most important cities on the Iberian Peninsula by both road and high-speed train.

Theatricalised visit to the Castle of Montsonís and stay in medieval Montsonís

ALL YEAR

€67.80 / person

CA

ES

In this theatricalised visit to the Castle of Montsonís, visitors are accompanied by various different characters dressed as they would have been in the 12th century. They will explain various facets of life at the castle, combining the use of torches and other lighting systems to give the visit more atmosphere. The visit will follow a common thread related to the turbulent times that these borderlands experienced at the time of the reconquest, during which there were constant struggles between Moor and Christian forces..

The proposal is complemented by a stay in medieval Montsonís.

Since 1986, Viatges Regina has been based in La Seu d'Urgell where we have worked as a travel agency whose main objective is to offer all kinds of tourist products to the residents of L'Alt Urgell and its area of influence. Over time, Viatges Regina has become consolidated as a tour operator with its own products, which are distributed via various different travel agencies.

We are specialists in holiday, business, school and ski tourism.

In 2015, we decided to focus on our own territory and were the promoters of the first regular flights from the Andorra-La Seu airport, which does an acceptable level of business, especially in the island market. This operation was then repeated in 2018.

Viatges Regina is the travel agency of Andbus Group: the travel agent of reference in La Seu d'Urgell.
