The Bureau of Labor Statistics (BLS) is the principal Federal agency responsible for measuring labor market activity, working conditions, and prices changes in the economy. Its mission is to collect, analyze, and disseminate economic information to support public and private decision-making.

This conference will give BLS data users the opportunity to speak with BLS economists and learn more about the economic data series we produce. The sessions will provide an overview of BLS programs, how the data are collected, uses, trends, and how to access the data from the BLS web site.

Agenda

Introductions: Richard Holden, BLS Regional Commissioner
