Major & Breaking News.

Create a sense of presence and urgency in your newscasts with live signals. With our multiple channels, you always have immediate access to a wide range of live events, live shots and breaking news.

- Constant live visuals on eleven live channels, with satellite and Video over IP (VoIP) options
- A team of experienced CNN correspondents and field crews offering coverage, analysis and explanations in the field
- Generic custom live shots at no charge, with custom tags available
- Custom live shots with talkback/Q&A options
- Donut packages included
- Jumpstarts and look-lives available

***Sending out a crew?** We can help onsite with satellite space, stand-up locations and logistics.*

Daily, Diverse Coverage.

National pressers, milestone moments, buzzy events: from regional protests and Presidential remarks to severe weather, count on CNN Newssource Live to bring your audience to the scene.

Our producers work hard to pursue a wide variety of relevant signals to help you tell multiple stories everyday. From our eleven live channels to strategic partnerships like those with EarthCam and Surflife, we bring a new level of variety and creativity to live.

Coast-to-Coast Reporting.

Programming based on the news clock.

From early morning to late evening newscasts on both coasts, CNN Newssource Live is here to help you build a fresh newscast with the most updated news, video and images. And we're in the news business too, so we get it: you want reliable signals when you need it. We strive to keep live signals up through the top and bottom of the news hours.

Let's stay in touch.

@CNNNewssource

Quickly see what CNN Newssource Live is offering, from live signals to fresh, teaseable content. We clearly mark the types of coverage, e.g. "LIVE" and "PKG", so you can spot the content you're looking for at a glance.
