

Author Correction: Epigallocatechin gallate, folic acid, vitamin B12, and hyaluronic acid significantly increase apoptosis and p53 expression in HeLa cells

A. FREGA, C. GENTILI, S. PROIETTI, E. LEPORE, V. UNFER, A. FUSO

Department of Surgical and Medical Sciences and Translational Medicine, Sapienza University of Rome, Sant'Andrea Hospital, Rome, Italy

Correction to: Eur Rev Med Pharmacol Sci 2023; 27 (11): 5240-5245–DOI: 10.26355/eurrev_202306_32642-PMID: 37318498-published online on June 13, 2023.

After publication, the authors discovered that Prof. C. Gentili's affiliation was wrong as he has never been a member of the Italian Society of Colposcopy and Cervicovaginal Pathology (SICPCV).

The authors never found the mistake during the review process nor requested a correction before publication.

Therefore, the second affiliation has been corrected as follows: Pathologist, Independent Practitioner, Carrara, Italy.

There are amendments to this paper. The Publisher apologizes for any inconvenience this may cause.
