

GLOBAL PRIVACY RECOGNITION FOR PROCESSORS (PRP) SYSTEM PROGRAM REQUIREMENTS MAP

*The purpose of this document is to provide the baseline program requirements of the Global Privacy Recognition for Processors (PRP) System which operationalize the Global CBPR Privacy Principles (“**Privacy Principles**”)¹, and assist Global CBPR Forum-recognized Accountability Agents in an Applicant Organization’s compliance with the Global PRP System.*

These program requirements are replicated in the Global PRP System Intake Questionnaire to help Applicant Organizations assess their compliance.

Accountability Agents are responsible for receiving an Applicant Organization’s completed Intake Questionnaire and supporting documentation, verifying an Applicant Organization’s compliance with the requirements of the Global PRP System and, where appropriate, assisting the Applicant Organization in modifying its policies and practices to meet the requirements of the Global PRP System. The Accountability Agent will certify those Applicant Organizations deemed to have met the minimum criteria for participation provided herein, and will be responsible for monitoring the Certified Organizations’ compliance with the Global PRP System based on these criteria.
