

Conservation Corps or those made out of unique materials (e.g., a hollowed log).

5. Expansion through horizontal elongation of pre-cast concrete, cast iron, and corrugated metal culverts that lack stone or brick headwalls for the purpose of improved drainage.

6. Embankment stabilization or the re-establishment of ditch profiles.

7. Corrections to drainage slopes, ditches, and pipes to alleviate improper drainage or changing alluvial patterns.

8. In-kind maintenance, repair, or replacement of retaining walls. Replacements must be substantially the same size and appearance as existing.

9. In-kind maintenance or repair of stone or brick culvert headwalls and wingwalls.

10. Maintenance, repair, or replacement of culvert headwalls and wingwalls constructed of concrete.

11. Maintenance, repair, or alterations to the interiors of culverts and related drainage pathways.

12. The following activities must be performed or supervised by an SOI-qualified professional:

a. Replacement of stone or brick culvert headwalls and wingwalls.

b. Vertical extension of stone or brick culvert headwalls using in-kind materials and design compatible with existing.

H. Environmental Abatement

1. Removal or abatement of environmental hazards such as asbestos, treated wood, and lead or heavy-metal coatings and paintings. Activities that replace coatings, paint, flooring materials, etc. must be of the same color and appearance as the materials that have been removed or abated.

2. Removal of contaminated ballast, sub-ballast, subgrade, and soils.

I. Operations

1. Establishment of quiet zones, including the installation of required warning devices and additional safety measures installed at grade crossings that do not entail closing of existing roadways.¹

2. Increased frequency of train or rail transit operations that do not result in noise or vibration impacts. The lead federal agency may, at its discretion, require a noise and vibration study be prepared by a qualified subject matter expert before approving the undertaking.

3. Temporary storage of rail cars or rail transit cars on active rail lines.

4. Maintenance, repair, or replacement of noise barriers. If a replaced noise barrier is to be located and publicly visible within a National Register-listed or eligible historic district, it must be substantially the same size as or smaller than existing and be visually compatible with the surrounding built environment.

¹ A quiet zone is an FRA exemption to the rule requiring trains to sound their horns when approaching public highway-rail grade crossings. More information on the creation of quiet zones is available in FRA's regulations at 49 CFR part 222, Use of Locomotive Horns at Public Highway-Rail Grade Crossings, and in guidance promulgated by FRA's Office of Railroad Safety (for example, see <https://www.fra.dot.gov/Page/P0841> and <https://www.fra.dot.gov/eLib/Details/L04781>).

J. Landscaping, Access Roads, and Laydown Areas

1. In-kind replacement of landscaping.
2. Mowing, seeding/reseeding, planting, tree trimming, brush removal, or other similar groundcover maintenance activities.
3. Maintenance of access roads and lay-down areas.

K. Utilities

1. Maintenance, repair, or replacement of above-ground and underground utilities (e.g., electrical, sewer, compressed air lines, fuel lines, fiber optic cable).
2. Maintenance, repair, replacement, or installation of utility lines and conduit inside tunnels that does not involve affixing new equipment to the exterior face of tunnel portals.
3. Affixing conduit, repeaters, antennae, and similar small-scale equipment on the exterior masonry face of tunnel portals where the color of the equipment matches the existing masonry in order to limit its visibility and does not damage the masonry construction.

L. Bicycle and Pedestrian Facilities, Shared Use Paths, and Other Trails

1. Maintenance, repair, or replacement of existing bicycle lanes, pedestrian walkways, shared use paths (e.g., bicycle, pedestrian), and other trails intended for non-motorized transportation that are constructed with common materials (i.e., non-decorative concrete, asphalt, pavement, or gravel).
2. Adding lanes to existing shared use paths or other trails constructed with common materials.
3. Adding at-grade crossings for pedestrians and bicycle facilities, shared use paths, or other trails.
4. Maintenance, repair, replacement, or installation of bicycle aid stations, bicycle racks, and bicycle storage sheds, and similar amenities. Installation of new bicycle storage structures must be visually compatible with the surrounding building environment when located adjacent to historic passenger stations or within National Register-listed or eligible historic districts.
5. Maintenance, repair, replacement, or installation of information kiosks or displays, wayfinding signage, and similar amenities for pedestrian, bicyclists, or other path or trail users.
6. Maintenance, repair, or replacement of curbs, gutters, or sidewalks constructed with common materials.

M. Construction/Installation of New Railroad or Rail Transit Infrastructure

For any of the activities listed below, the federal agency shall require the work be performed by or under the supervision of an SOI-qualified professional, based on the scope of work and location of a specific proposal. As with all activities in this Exempted Activities List, but especially important for construction/installation of new railroad or Rail Transit infrastructure, consideration must be given to the potential for effects to non-rail properties within or adjacent to the rail ROW.

1. Minor new construction and installation of railroad or rail transit infrastructure that is

compatible with the scale, size, and type of existing rail infrastructure, such as buildings for housing telecommunications equipment, signal instruments, and similar equipment; storage buildings that house landscaping or maintenance of way equipment or specialty vehicles for track repairs or inspections; locomotive and train or rail transit car service and inspection facilities; trailers or temporary structures for housing rail personnel; fueling stations; underground utilities; overhead utilities, transmission lines, and communications poles, and signage. This does not include substantial new construction, such as construction of new passenger stations, railyards or rail transit yards, or tunnels, or demolition of existing structures.

2. Construction of new at-grade crossings.

3. Construction of new erosion control, drainage, or stormwater management infrastructure, such as culverts or retaining walls.
