## PREFACE.

---

This volume has been prepared in accordance with the provisions of Section 6 (1) of the Census Act (Northern Ireland), 1925. The 1926 Census statistics which it contains were compiled from the returns made as at midnight of the 18-19th April, 1926: they supersede those in the Preliminary Report published in August, 1926, and may be regarded as final.

The Census publications will consist of :—

1. SEVEN COUNTY VOLUMES, each similar in design and scope to the present publication.
2. A GENERAL REPORT relating to Northern Ireland as a whole, covering in more detail the statistics shown in the County Volumes, and containing in addition tables showing
  - (i.) the occupational distribution of persons engaged in each of 51 groups of industries ;
  - (ii.) the distribution of the foreign born population by nationality, age, marital condition, and occupation ;
  - (iii.) the distribution of families of dependent children under 16 years of age, by age, sex, marital condition, and occupation of parent ;
  - (iv.) the occupational distribution of persons suffering from infirmities.
3. A TOPOGRAPHICAL INDEX, dealing in separate alphabetical sections with each type of area for which statistics are published in the County series. The particulars given for each territorial unit include references to the 6" Ordnance Survey maps and to Tables 3, 4, or 5 of the relative County Volume.

The net prices for the above publications will be 5s. 0d. for each County Volume and 10s. 0d. each for the General Report and the Topographical Index. A complete set of these volumes may be obtained directly from the Superintendent, H.M. Stationery Office, 15, Donegall Square West, Belfast, at the special inclusive price of £2 2s. 0d. strictly net.

The Registrar-General is empowered by Section 6 (2) of the Census Act (Northern Ireland), 1925, to prepare and supply from the Census returns statistics other than those published in the Census Reports, at the request and cost of any local authority or person. Any special demands for statistics more detailed than those published (either as regards subject matter or area) can thus, as far as office records permit, be satisfied. Requests for special compilation of Census statistics should be addressed to the Registrar-General, who will be pleased to advise and furnish an estimate of cost.

## PART I.

### DEFINITIONS AND EXPLANATIONS OF TERMS USED IN THIS VOLUME.

#### AREA.

The acreages given are as measured by the Ordnance Survey of 1899—1907. They exclude :—

In Tables 1, 3-5 (a) Foreshore and unnamed islands of less than one rood in extent.

In Tables 3-5 (b) The Maiden's Islands in the North Channel.

(c) The larger rivers, lakes and tideways.

N.B.—While (b) and (c) above are not enclosed within townland boundaries they form part of administrative areas. The extent of these excluded portions is shown for the county, for county districts, and for poor law unions in foot-notes to the appropriate tables.

#### POPULATION.

The population comprises all persons, including Forces of the Crown, enumerated as at midnight of Sunday the 18th-19th April, 1926, together with those who, not having been enumerated elsewhere, arrived in port or were received into any dwelling on the morning of the 19th April before the Census returns were collected.

The population assigned to each area is that actually present (as defined above) within it, whether as permanent residents or temporary visitors, persons in port but on ship board being classified to the adjacent area.

In general these definitions apply to the population as enumerated at previous censuses, and shown in Table 2.

#### ADMINISTRATIVE DIVISIONS.

The County is divided into fifteen county districts (eight urban and seven rural) comprising 141 district electoral divisions, seventeen of which are situate in urban districts (see Table 3). Of this latter group thirteen are coterminous with wards.

Eight poor law unions are contained within the County—five wholly and three partly ; the remaining portions of the divided unions being situate in Armagh County, Down County, and Belfast County Borough. The medical dispensary districts situate in the County number thirty-eight (see Table 4). Poor law unions and medical dispensary districts are, respectively, superintendent registrars' and registrars' districts for the registration of marriages, births, and deaths.

The County is also divided into twenty-three county electoral divisions (see Table 5) ; and into five regional education areas (see Table 12).

Apart from the reconstitution of county electoral divisions and district electoral divisions in 1923, the changes which have taken place in the boundaries of administrative divisions since 1911 are as follows :—

- (a) Portion of Londonderry County transferred to Antrim County consequent on the extension of Portrush Urban District (1st April, 1915).
- (b) Portion of Ballymoney Rural District transferred to Portrush Urban District (1st April, 1915).
- (c) Ballymoney Poor Law Union enlarged by the transfer to Portrush Medical Dispensary District of the portion of Londonderry County referred to at (a). (1st April, 1915).

- (d) Aghalee Rural District abolished and its area added to Lisburn Rural District (1st April, 1920).
- (e) Ballycastle Urban District formed out of portion of Ballycastle Rural District, and divided into two wards (1st April, 1921, and 6th November, 1922, respectively).
- (f) Lisburn Urban District divided into three wards (9th November, 1922).
- (g) Whitehead (Larne R.D.) constituted a Town under the Towns Improvement (I.) Act, 1854, and certain consequential changes made in the D.E.D.'s of Island Magee South, Templecorran, and Whitehead (1st April and 24th June, 1925, respectively.)

### PARLIAMENTARY CONSTITUENCY.

The present parliamentary constituency was created by the Government of Ireland Act, 1920, and comprises the administrative county of Antrim.

### HOUSES.

1. The term "House" denotes
  - (a) each structure (except institutions) which stands alone or is separated from another by a vertical party wall; and which is used or intended partly or wholly for habitation;
  - (b) each institution (viz., hospital, sanatorium, nursing home, infirmary, workhouse, asylum, religious or charitable community, residential school or college, barracks or other premises under Naval, Military, Air Force, or Police discipline, prison or other place of detention), regardless of the number of buildings within its precincts;
  - (c) each vessel, caravan, tent, or other movable dwelling.

The 1911 figures for "Houses" do not include vessels, and each separate building within the precincts of an institution was at that Census regarded as a separate "House."

2. The terms "Boarding-House" and "Lodging-House" denote, in addition to habitations so described, any private house containing three or more boarders or lodgers.

3. The term "Private House" denotes all habitations other than
  - (a) dwellings within the precincts of an institution;
  - (b) hotels, boarding houses, and other such communal dwellings;
  - (c) premises in which three or more boarders, lodgers, or trade assistants reside;
  - (d) residences occupied by virtue of the tenant's employment, (except rectories and manses, and dwellings belonging to but detached from domestic establishments);
  - (e) premises occupied by caretakers;
  - (f) ships, caravans, tents, and other movable dwellings;
  - (g) barns, stables, and out-houses occupied on Census night.

The term includes dwellings over shops except when these are occupied as described at (c) and (d) above.

4. The term "Inhabited" denotes actual residence of a person or persons on Census night. "Uninhabited" houses, therefore, include those temporarily vacant through the absence of the usual occupiers as well as those without tenants. Enumerators were instructed to omit from their enumeration empty houses in such an advanced state of decay that there was little likelihood that they would again be made fit for habitation. In this matter they were required to use their own judgment.

**ROOMS.**

1. The rooms enumerated are the usual living rooms, including bedrooms and kitchens, but excluding sculleries (i.e., rooms used *only* for washing, cleaning, or cooking), pantries, cloakrooms, landings, closets or bathrooms, or any warehouse, office or shop rooms.

2. For the purpose of classifying families by rooms occupied (Table 8), shared-room occupations—i.e., those in which two or more families have rooms in common,—have been rounded up to the next integral number of rooms. Thus, three families occupying  $1\frac{1}{3}$ ,  $2\frac{1}{3}$ , and  $2\frac{1}{3}$  rooms in a 6-roomed house would be shown as occupying 2, 3, and 3 rooms respectively. The extent of the rounding-up process may be ascertained in a general way by reference to Table 7, in which the actual number of rooms is given. Generally, in cases of 1 room occupations, all persons living therein, whether related or not, have been enumerated as one Census family.

**FAMILIES.**

1. The term "Family" denotes
  - (a) The inhabitants of each institution (see 1 (b) of "Houses" definition), hotel, boarding-house, lodging-house, or ship.
  - (b) Each person or group of persons occupying separately the whole, or part of, any dwelling other than as described at (a).

In 1911 the inhabitants of premises described at (a) above were in certain cases enumerated as two or more families.

2. "Private Families" mean all families enumerated in "Private Houses" (see 3 of "Houses" definition).

**RATEABLE VALUATION.**

The figures shown are those for service of the year ended 31st March, 1927, and have been supplied by the Commissioner of Valuation. Rateable hereditaments include lands, buildings, tolls, railways, tram-roads, canals, fisheries, turbaries, mines, quarries, waterworks, telegraphs, and telephones. The figures throughout exclude the valuation of electric, gas, and water mains, telegraphs, telephones, fisheries and (in certain cases) railways and waterworks, the amounts concerned being aggregated and shown for the county, county districts, and poor law unions in foot-notes to the appropriate tables.

**EDUCATION.**

The classification under educational establishments (which was assisted by reference to lists supplied for Census purposes by the Ministry of Education) is as follows :—

1. **PUBLIC ELEMENTARY SCHOOLS.** Day and evening pupils are grouped together in this class, the question on the Census schedule not requiring a separation as between day and evening in respect of pupils attending public elementary schools.
2. **SECONDARY SCHOOLS,** including preparatory departments and preparatory schools. This heading relates to day pupils only, and the schools are limited to those recognised by the Ministry of Education.
3. **TECHNICAL SCHOOLS.** The day pupils shown in this group comprise those stated to be attending junior technical schools, day commercial classes, and day classes for domestic economy and manual instruction which were being held at certain centres in April, 1926. The evening pupils comprise those stated to be attending technical schools or classes in the evening.

4. OTHER EDUCATIONAL ESTABLISHMENTS (Day and Evening). These include secondary schools not recognised by the Ministry of Education, universities, training colleges for teachers, agricultural schools, commercial schools, home or private tuition, etc.

### OCCUPATIONS.

The occupational classification is based on that used in the Reports on the Census of England and Wales, 1921.\*

It will be seen that there are thirty-two orders. Each of these covers the same occupational ground as the England and Wales orders. Eleven of the orders are divided into thirty-two sub-orders, each of which is comparable with the corresponding England and Wales sub-order, with the following exceptions:—

Northern Ireland Sub-orders.		Corresponding England and Wales Sub-orders.	
III.	2.	III.	2-4.
IV.	1.	IV.	1 and 2.
VII.	2.	VII.	2 and 3.
VII.	3-7.	VII.	4-8 respectively.
XIX.	1.	XIX.	1-3.
XX.	1 and 2.	XX.	2 and 3 respectively.
XX.	3.	XX.	1 and 4.
XXIII.	1.	XXIII.	1 and 2.

Within the sub-orders are 341 occupational headings, evolved by processes both of grouping and expansion from the England and Wales headings, which number 611.

### INDUSTRIES.

The industrial classification is based on that used in the Reports on the Census of England and Wales, 1921.\*

It will be seen that there are twenty-two orders. Each of these covers the same industrial ground as the England and Wales orders. Nine of the orders are divided into thirty-eight sub-orders, each of which is comparable with the corresponding England and Wales sub-order, with the following exceptions:—

Northern Ireland Sub-orders.		Corresponding England and Wales Sub-orders.	
XVI.	5.	XVI.	5-7.
XVIII.	1.	XVIII.	1 and 2.
XVIII.	2.	XVIII.	3.

Within the sub-orders are 226 industrial headings, evolved by processes both of grouping and expansion from the England and Wales headings, which number 477. The industry table contained in this volume shows figures for orders and sub-orders only.

### BIRTHPLACES.

Persons stated to have been born in Ireland—the County name or “Irish Free State” not being inserted—are assumed to have been born in the Irish Free State. Where nationality is given but birthplace is not, it has been assumed that the person was born in the country of which he or she is a national. All persons of British nationality and unstated birthplace have been regarded as born in the County of enumeration.

### RELIGIOUS PROFESSIONS.

The religious professions, other than Roman Catholic, Presbyterian, Church of Ireland, and Methodist, have been classified under the headings set out at foot of Table 18, separate mention being made of all professions containing 10 or more

\* Full details of the English system of classification are published in the “Classification of Occupations, Census, 1921” and the “Classification of Industries, Census, 1921,” to be purchased directly from H.M.S.O., or through any Bookseller.

adherents. The heading "Presbyterian" includes those who call themselves by this name without qualification, together with those returned as members of the Established Church of Scotland. Other Presbyterian denominations are shown at the foot of the table. Members of the Church of England and the Episcopal Church of Scotland have not been included under Church of Ireland except where stated. The latter group includes all persons returned as "Church" or "Episcopalian."

#### ORPHANHOOD.

In compiling statistics under this head, step-parents, foster-parents, and adoptive parents, so stated, have been treated in the same manner as natural parents. Where the information as to one parent is stated as "not known," that parent has been assumed to be dead and the case dealt with accordingly. Where information as to neither parent is given, the case has been placed in the "No Statement" group.

#### INFIRMITIES.

1. DEAF AND DUMB, DUMB, BLIND. The figures given are in respect of persons so returned, except where the answers indicate only partial infirmity as "nearly blind."

2. CRIPPLED. In addition to those persons specifically described as "Crippled," the figures given include all cases in which it is clearly indicated that the person

(a) has suffered a total permanent loss of the use of arm, hand, leg, or foot;

(b) is permanently crippled in such a degree as to prevent the free pursuit of most ordinary occupations.

The following cases, treated as "Crippled," indicate the variety of the terms used in answering the question on the Census schedule:—

Arm—deformed, disabled; hand—deformed; hip joint disease; knee—decayed, tubercular arthritis in; leg—disabled, diseased bone in, infirm, short; on crutch; paralysis—infantile, nervous, of arms and side, of legs and back, of spine; rheumatoid arthritis; spinal caries; unable to walk.

3. MENTALLY AFFLICTED. All cases returned, whatever the degree of affliction, are included in the tables. The following terms were used in the returns:—

Afflicted; feeble minded; imbecile; melancholia; mental debility; simple; weak intellect.

4. Persons suffering from more than one infirmity have been classified to that which appears most likely to constitute the greater, or greatest, disability, infirmities being graded for this purpose from greatest to least, thus:—

Mentally afflicted; blind; crippled; deaf and dumb; dumb.

#### SPELLING OF PLACE NAMES.

The spelling of place names follows that in the 1911 Census volumes, except that corrections have been made to secure agreement with the spelling on the Ordnance Survey maps where differences were revealed in the course of the work. The spelling now may be regarded as generally following that adopted by the Ordnance Survey Department.

**CONVENTION AS TO DOTS (.) AND DASHES (—).**

Throughout this volume dots (.) are used in tabular matter to indicate nil (0), and dashes (—) are used to indicate that information cannot or is not intended to be given.

**CORRECTION OF CENSUS DATA.**

Every effort has been made to eliminate, as far as practicable, errors and inaccuracies from the Census data. The process of correction began with the Enumerators, who received full instructions as to the action to be taken in cases of error or omission; it was continued by a system of check applied at each stage of the office work; and was completed by an intensive scrutiny and inter-comparison of the tabulation sheets. This scrutiny and comparison revealed a certain number of incongruities, which, when material, were investigated and corrected in the light of the facts disclosed. Errors of a minor nature (*i.e.*, such as could not affect the statistical value of the Census tables) were adjusted more or less arbitrarily.

## PART II.

### STATISTICAL NOTES.

The definitions, etc., contained in Part I. of this volume apply with equal force to the contents of these notes and to the tables contained in Part III. Roman numerals are used in this volume for the tables in Part II, and Arabic numerals for the tables in Part III.

#### AREA.

The area of Antrim County, exclusive of the larger rivers, lakes, and tide-ways, is 1,098 square miles or 21 per cent. of the area of Northern Ireland. In 1896 the County lost almost nine square miles to Belfast County Borough, but gained at later dates an aggregate of about half a square mile, partly from Down County and partly from Londonderry County (see note to Table 2).

#### POPULATION.

The population numbers 191,643 persons, having declined slightly since 1911 ; a continuation of the downward movement recorded at each Census enumeration from 1851 onwards. The actual decrease, after adjustment on account of the transfer of portion of Londonderry County, amounts to 2,490 persons, representing an average annual decrease of less than 0.1 per cent.

TABLE I.

Intercensal Period (a)	Population at beginning of Period.	Births Registered.	Deaths Registered.	Excess of Births over Deaths.	Intercensal Variation in Population.	Net movement outwards from the County Col.(5)—Col.(6)
(1)	(2)	(3)	(4)	(5)	(6)	(7)
1901—1911	196,090	46,022	33,286	12,736	—2,226	14,962
1911—1926	193,864	62,824	46,543	16,281	—2,221	(b) 18,502

(a) The populations given relate to the County as constituted at the beginning of the intercensal period, and the births and deaths to the County as constituted at the time of their registration. A portion of the County of Londonderry was transferred to the County of Antrim in 1915, consequent on the extension of Portrush Urban District. Owing to the fact that prior to 1899, certain registration units in Belfast Union extended over both the urban and rural portions thereof, it is not practicable to show figures in this table for periods prior to 1901.

(b) Including the deaths of non-civilians of the County of Antrim which occurred outside Northern Ireland. It has not been found possible to estimate the number of these deaths at all closely, but from the War mortality lists of soldiers from Ireland, which were compiled by the War Office from regimental records, it appears that for the *whole* of Northern Ireland the non-civilian deaths which occurred outside the country numbered about 10,000 during the last intercensal period, exclusive of the deaths of regular soldiers stationed outside the country at the date of the 1911 Census.

While comparable figures of excess of births over deaths are not available for periods prior to 1901 (see foot-note (a) to Table I), it is evident that the actual net outward movement during the period 1841-1901 was much greater than the recorded decrease in population. Statistics as to the size and direction of the emigration stream are lacking, but there can be no doubt that the rapid growth of Belfast has been materially assisted by population gains from the County.

From Table II it will be seen that urban districts as a whole have increased in population during the past 15 years, while rural districts as a whole have decreased—the trend in each aggregate following that exhibited in the preceding inter-censal period, though the rate of variation is less. The 1926 urban population constitutes 26.2 per cent. of the whole, as against 23.2 per cent. in 1911, and 19.4 per cent. in 1901—the percentages quoted relating to urban areas as constituted

at the date of each census. It is interesting to note that among the urban districts the greatest relative increases occur in the seaside resorts of Portrush, Larne, and Ballycastle; and that the three rural districts which show increases are all adjacent to, or within easy reach of, Belfast.

(a) The figures given relate to each County District as constituted at the date of the 1926 Census.

\* Exclusive of 49,030 acres under the larger rivers, lakes, and tideways; and of 5 acres, the area of the Maiden's Islands in the North Channel.

The persons per acre rates vary in the urban districts between 32.1 in Carrickfergus and 1.9 in Ballyclare. In rural districts the rates vary between 0.6 and 0.1 persons per acre. Such rates, however, should be used with reserve in measuring the degree of population density in urban areas, since the acreages of these may include widely differing proportions of waste land, land under pasture, etc.

Tables 3, 4, and 5 provide more detailed information regarding the population in the various sub-divisions of the County, and incorporate figures of rateable valuation. The rateable valuation has increased from £741,555 to £774,881 over the past fifteen years, an increase of 4.7 per cent. as compared with a decrease of 1.3 per cent. in population (These figures refer to the County as constituted at the date of the 1926 Census).

**Parliamentary Constituency.**—In considering the percentages shown in Table III, regard should be given to the qualifications entitling a person to be registered as an elector. In general, a man is qualified if 21 years of age or upwards, with the requisite residence or business premises qualification: a woman, if 30 years of age or upwards, and if (1) entitled to be registered as a local government elector in respect of the occupation of land or premises (not being a dwelling-house) of a yearly value of not less than £5, or of a dwelling-house; or (2) the wife of a husband entitled to be so registered.

It may be noted that a person may be registered as a parliamentary elector in a constituency although not resident therein.

The question of the comparison of the number of parliamentary electors with population will be dealt with more fully in the General Report.

### BUILDINGS, ROOMS, AND FAMILIES.

**Houses.**—While there are differences in the definitions of the term "House" as used in 1911 and 1926, they do not affect to any appreciable extent the comparisons shown in the following table. The houses dealt with in this table embrace all types of buildings, etc. Tables 6 and 9 deal respectively with private houses and each of the other types of inhabited buildings, etc.

\* The figures given relate to the County as constituted at the date of each Census. For particulars of territorial changes see note at head of Table 2 (page 1).

While the total number of houses in the County decreased by 1.6 per cent., the number of inhabited houses increased by 1.1 per cent.—this being due to a considerable reduction in the number of uninhabited houses, the 1926 figure for which is the smallest recorded since 1871. The increase in inhabited houses, set against the population decrease of 1.1 per cent., evidences a change in housing conditions to which further reference is made in the comment on Table V below.

The number of houses under construction is the highest on record, being almost treble that in 1911.

**Persons per Inhabited House and Persons per Family.**—The average number of persons per inhabited house, which showed a steady decrease from 1851 to 1911, has again shown a decrease from 1911 to 1926. The average number of persons per family has shown a corresponding decline. In this connection it should be noted that by "family" is meant Census family, which, it will be seen from the definition on page viii, differs from the natural family of parents and children.

With regard to the habitation of houses by more than one family, there has been little change during the past half-century, the number of families per 100 inhabited houses at each Census enumeration from 1871 to 1926 being as follows: 105, 104, 102, 101, 101, 101.

(a) The figures given relate to each county district as constituted at the date of the 1926 Census.

**Housing in County Districts.**—Table V. shows that in ten of the county districts there has been an increase in the total number of houses and in five a decrease. Comparison of this Table with Table II. also shows that since 1911 the proportion of inhabited houses to population has increased in all county districts but Ballycastle Urban and Portrush Urban, where the process has been reversed.

The large increase in the number of houses under construction in the Rural Districts of Belfast, Larne and Lisburn—all contiguous to Belfast County Borough—will be noted.

The extent of sub-letting in the various county districts is best indicated by the factor “number of private families per inhabited private house,” which is readily obtainable from the figures of house accommodation contained in Table 7. It will be seen that the number of families per 100 private houses is 101 for the County, and that the rate varies between 106 for Belfast Rural District and 100 for several other districts. 97 per cent. of the private families in the County occupy a whole house each.

Of all the inhabited private houses in the County 99 per cent. are occupied by single families and 39 per cent. contain 4 to 5 rooms.

**Accommodation of Families and Persons.**—The occupied room accommodation in the County approximates to one room per person, the variation from this average ranging between 1.64 in Portrush Urban District, and 0.92 in Ballycastle Rural District. Generally speaking, in the urban districts room accommodation is above the mean; in rural districts below it. A detailed analysis of the room accommodation, coupled with the size of family, etc., appears in Table 8. Over 25 per cent. of the families in the County are seen to occupy 4 rooms each, the family of three occurs most frequently, and the most common combination consists of families of 3, each family occupying 4 rooms.

Table VII. in conjunction with Table 8, will enable comparisons to be made between the density of occupation in each county district. In these tables the density of 2 persons and less per room has not been sub-divided, but this is not intended to imply any judgment as to what in fact constitutes adequate accommodation, since this matter obviously could not be determined without a knowledge

of other factors, such as size of rooms, sanitary and water provision, etc. Subdivisions other than those set out in summary form can readily be calculated from the details given in the first nine columns of Table 8.

In the County it will be seen that 18 per cent. of the private family population occupy premises at a density of more than 2 persons per room. The average density of occupation in urban districts as a whole is little less than that in rural districts as a whole; but the distribution of the population over the various densities differs considerably for the respective aggregates, the proportion of the private family population occupying premises at a density of more than 2 persons per room being 14 per cent. in urban districts as against 20 per cent. in rural districts. The greatest density of occupation is found in Ballycastle Rural District, where 26 per cent. of the private family population are housed at a density of more than 2 persons per room.

#### INSTITUTIONS, ETC.

The population in each of the types of inhabited buildings, etc., other than private houses, is shown in Tables 9 and 10, together with the number of inmates in respect of institutions. The institutions are not individually identified as in 1911, but the number of institutions in each category is given. The inmates of the Poor Law Institutions number 122, as against 932 at the date of the 1911 Census. With respect to this comparison it should be noted that pauper patients are now accommodated in the district hospitals which have replaced workhouse infirmaries in the County. Persons on shipboard number 38 as against 131 in 1911. "Other premises" include police and military barracks, residential schools, premises occupied by caretakers, etc.

#### SEXES, AGES, AND MARITAL CONDITIONS.

Table 11 shows the distribution of the population of the County by sex, age and marital condition. The following tables summarise the position in 1926 and the changes in the last intercensal period.

**Excess of Females over Males.**—Table 2 shows that the number of females per 1,000 males increased from 1,067 in 1831 to 1,100 in 1871, and has since declined to 1,070. More boys are born than girls, but as Table 11 shows, the excess of males over females gradually decreases with increase in age, until from about 20 onwards the females are the more numerous.

**Distribution according to age.**—The decrease of 1.1 per cent. in the total population is the net result of decreases in age groups 0-19, 30-44, 70-84, and 100 and over, and increases in age groups 20-29, 45-69, and 85-99. Materials for an analysis of the manner in which variations in the numbers of births and deaths from year to year, the number of war deaths, and the movement of population have combined to produce these changes in age distribution are not available: the effect has been to raise the average age of the population from approximately 30 years in 1911 to 30.6 years at the present time.

\* Table VIII is given for Belfast and Londonderry County Boroughs only, and Table IX for Belfast County Borough only.

**Distribution by Marital Condition.**—Table XII shows the percentage variations in the male and female populations of each marital condition since 1911. The decrease in the number of single and widowed persons is proportionately greater than that in the population as a whole, while the number of married persons has actually increased.

### EDUCATION.

From Table 12 it will be seen that of the total population in Antrim County 19.9 per cent. of the males and 18.1 per cent. of the females are attending educational establishments.

Of the children aged 6 to 13 inclusive, 2.8 per cent. of boys and 2.9 per cent. of girls are not stated to be attending school.

At ages 15 to 19 inclusive, the persons still attending various kinds of educational establishments represent 13.2 per cent. of the males and 14.5 per cent. of the females.

The percentages given above are reflected generally in each of the five regional education areas into which the County is divided.

In endeavouring to draw conclusions from this table it will be necessary to treat the Census figures relating to persons attending technical schools with considerable reserve, pending further investigation, since a marked difference has been found to exist between them and figures of pupils enrolled in technical schools as published by the Ministry of Education. Further reference to this matter will be made in the General Report on the Census relating to Northern Ireland as a whole.

### OCCUPATIONS.

**Proportion Occupied.**—From Table XIII it will be seen that both for males and females the percentage of the total population occupied is higher than in 1911. In 1926, 43.2 per cent. of the population of both sexes and all ages were occupied, and thus normally were wage earners. It should be noted that both employed and out-of-work persons are included in the term "occupied." The proportion of males aged 12 years and over who are occupied is only a little higher than in 1911, but the proportion of females of those ages occupied has appreciably increased.

**Numerically important Occupations.**—When considering the grouping of occupations into orders and sub-orders it should be remembered that this grouping disregards the industries in which the persons may be engaged. For example, the occupational order XXII (Transport Workers) includes porters, messengers, carmen, etc., irrespective of industry, but excludes clerks, carpenters, navvies, etc., employed in the transport service. The latter occupations are included under occupational orders XXVIII, XV, XVII, etc., respectively.

† In the volume for Belfast County Borough this table is replaced by Tables XIII and XIV, which show the occupied population, etc., by age groups.

\* Only orders or sub-orders showing proportions of 5 or more per 1,000 occupied males or females are included, and the Single or Grouped Occupations have been limited to those showing proportions of 10 or more per 1,000.

From Table XV it will be seen that about 43 per cent. of the occupied males appear under the main group or order II, Agricultural Occupations. This order contains more than four times as many persons as the next in point of size—XII, Textile Workers. The occupations of most numerical importance among the males are: Farmers; Agricultural Labourers; and Farmers' Relatives assisting in the work of the farm.

Of the occupied females 80 per cent. are included under the orders XII, Textile Workers; XXVII, Personal Service; II, Agricultural Occupations; and XIII, Makers of Textile Goods and Articles of Dress, the most important occupations numerically being Domestic Service; Weavers; and Farmers' Relatives assisting in the work of the farm.

Table 13 shows by sex the number of persons included under each heading of the full occupational classification.

**Occupational Status and National Health Insurance.**—A consideration of the percentages in the following table, which has been compiled from Table 14, shows that of the occupied males nearly 1 in 4 are either employers or workers on own account, the proportion for occupied females being 1 in 8. Of the employees, apprentices and out of work taken together, those returned as out of work at the date of the Census represent 11 per cent. in the case of males and 8 per cent. in the case of females.

Of all the occupied population 46.3 per cent. of the males and 62.5 per cent. of the females are returned as being entitled to benefits under the National Health Insurance Acts. For employers and workers on own account of all ages, taken together, the percentages are 1.8 per cent. of the males and 1.4 per cent. of the females, and for employees, apprentices and out of work, taken together, they are 62.8 per cent. of the males and 71.0 per cent. of the females.

Of the unoccupied, including retired, 3.0 per cent. of the males and 1.4 per cent. of the females are returned as entitled to benefits.

The Manufacturing Industries (using that term in a wide sense) directly provide a livelihood for 35 per cent. of the occupied population; Fishing and Agriculture for 33 per cent.; and Commerce and Finance (which includes the wholesale and retail distributive trades, banking, and insurance) for 10 per cent. The main manufacturing industry is that of Textiles, which provides for 21 per cent. of the occupied population.

The males outnumber the females in all the groups, except the Professions, where the females are slightly in excess, and Personal Service, where the females are almost three times as numerous as the males.

Table 16 shows the industrial distribution of the occupied population in greater detail, figures being given for each industrial order and sub-order.

### BIRTHPLACES.

Table 17 shows, by sex, the numbers of persons born in each of the counties of Northern Ireland, other countries in the British Isles, overseas Dominions, foreign countries, and at sea. Of the total population of Antrim County, 82 per cent. were born in the County, 5 per cent. in the Belfast County Borough, and 7 per cent. in the other five counties of Northern Ireland. Only 0.49 per cent. were born outside the British Isles, and nearly one half of these were born in the British Dominions and Colonies. Persons born in foreign countries numbered only 519, and 10 persons were born at sea.

(a) Including Birthplace not stated. In 1926 these cases numbered 136.

(b) Persons born in the Isle of Man and the Channel Islands have been included under this heading. In 1926 they numbered 5 persons born in the Isle of Man and 5 in the Channel Islands.

(c) All figures relate to the County as constituted at the date of each Census. For particulars of territorial changes see note at head of Table 2 (page 1).

From Table XVIII it will be seen that the proportion of the population born in Ireland, which now stands at 96.4 per cent. has decreased slightly from census to census since 1861, while the proportions for the other parts of the British Isles and abroad each show a gradual increase.

## RELIGIOUS PROFESSIONS.

It will be seen from Table XIX that the increase recorded at the 1911 Census enumeration in the numbers of Protestant Episcopalians and Methodists has continued during the past 15 years, while the numbers of Roman Catholics, Presbyterians and Other and Not Stated Denominations, have continued to decrease. The increase amongst Methodists is both absolutely and relatively the greater. The greatest absolute decrease occurred amongst Presbyterians (by far the largest Denomination in the County), and the greatest relative decrease amongst the Other and Not Stated Denominations.

\* The figures given relate to the County as constituted at the date of each Census. For particulars of territorial changes see note at head of Table 2 (page 1).

† This figure comprises 40,727 Church of Ireland, 2,292 Church of England, and 9 Episcopal Church of Scotland.

## ORPHANHOOD.

Table 19 shows that of the 59,686 children enumerated in the County at ages under 16, 6,408 have lost one or both parents. This figure excludes cases of orphaned children whose loss has been supplied by step-parents or adoptive parents, and 313 cases in which no statement as to parents was secured. Of the 6,408 orphans, 57 per cent. are fatherless and 36 per cent. motherless, the remaining 7 per cent. being orphaned by the death of both parents. The high proportion of fatherless to motherless orphans is in part a corollary of the high proportion of widows to widowers, though to some extent it may be due to a possible tendency to regard the fathers of illegitimate children as dead if their whereabouts are unknown.

## INFIRMITIES.

The number of persons returned as both Deaf and Dumb is 69, or 47 less than the number returned in 1911. The Dumb Only numbered 20, which compares with 37 in 1911.

The number returned as Blind has increased from 161 in 1911 to 202 in 1926.

The total number of persons who have been classified as Crippled is 841, comprising 514 males and 327 females. It has not been found possible to test the reliability of this figure, and it should be accepted with due reserve, both on account of the broad interpretation which necessarily had to be placed on the term "crippled" for classification purposes, and because of a possible reluctance on the part of some crippled persons to disclose their infirmity by stating it on the census schedule.

Of the 705 persons returned as mentally afflicted, 515 were enumerated in the District Lunatic Asylum, and 10 in other institutions. In 1911 the persons returned as Lunatic or Idiot numbered 871. Of these 582 were enumerated in the District Lunatic Asylum and 82 in Ballymena Workhouse—the latter group including 53 persons stated to have been "on the books of the Belfast District Lunatic Asylum."

Particulars of the sex, age, and marital condition of persons suffering from infirmities will be found in Table 20.

TABLE 2.—Population, 1821—1926.

County.

DEFINITIONS.—1. The term "Population" is defined on page vi. The figures for 1821 to 1851 exclude members of H.M. Forces.

2. The figures given are for the County as constituted at the date of each Census, exclusive of that part of Belfast within it. Belfast, which was enlarged in 1853 and 1896, became a County Borough in 1898. The County boundaries were extended by the transfer of

(a) the portion of Lisburn Urban District formerly situated in County Down—pursuant to the Local Government (Ireland) Act, 1898.

(b) the portion of County Londonderry taken into Portrush Urban District—under the Local Government Board (Ireland) Provisional Order Confirmation (No. 3) Act, 1914.

3. It will be noted that the last intercensal period covers fifteen years.

**TABLE 3.—Area, Population, Houses, Accommodation, and Valuation.**

**County, Urban Districts, Rural Districts, District Electoral Divisions, Townlands, etc.**

- DEFINITIONS.— 1. Definitions of the terms "Area," "Population," "Houses," "Inhabited," "Private Families," "Rooms," and "Rateable Valuation" will be found on pages vi to viii.  
 2. The 1911 figures throughout are for the County and its administrative divisions as constituted at the date of the 1926 Census. (See note on Administrative Divisions on page vi).  
 3. The Towns shown in this table in *italics* have no defined boundaries, but comprise groups of 50 houses and upwards, as determined by the enumerator.  
 4. Dots (.) indicate nil (0), and dashes (—) indicate that information cannot or is not intended to be given.

- ARRANGEMENT.—1. Urban Districts are in alphabetical order followed by Rural Districts in a similar order.  
 2. District Electoral Divisions are arranged in alphabetical order under each Urban and Rural District.  
 3. Within each District Electoral Division, Townlands are shown in alphabetical order under the Dispensary District in which they are situated. For entire Dispensary Districts see Table 4.  
 4. Where references to other D.E.D.'s are given in footnotes the D.E.D. reference numbers are added in brackets.
