TRUSTEES' REPORT FOR THE YEAR ENDED 31 DECEMBER 2014

The Trustees (who are also directors of the charity for the purposes of the Companies Act) present their annual report together with the financial statements of Raspberry Pi Foundation (the company and the group) for the year ended 31 December 2014. The Trustees confirm that the annual report and financial statements of the company comply with the current statutory requirements, the requirements of the company's governing document and the provisions of the Statement of Recommended Practice (SORP) "Accounting and Reporting by Charities" issued in March 2005.

STRUCTURE, GOVERNANCE AND MANAGEMENT

a. CONSTITUTION

The company and the group is registered as a charitable company limited by guarantee and was set up, and is governed by, its Memorandum and Articles of Association, which were updated 2 December 2014. It is recognised as a charity with the Charity Commission, under charity number 1129409.

b. METHOD OF APPOINTMENT OR ELECTION OF TRUSTEES

The management of the charity is the responsibility of the Trustees who are elected and co-opted under the terms of the Memorandum and Articles of Association. The Board of Trustees meets regularly in order to discuss the operations of the charity.

c. POLICIES ADOPTED FOR THE INDUCTION AND TRAINING OF TRUSTEES

New Trustees are briefed on their legal obligations under Charity and Company Law, the content of the Memorandum and Articles of Association, the Trustee decision-making processes, and recent financial performance of the charity. Trustees are encouraged to attend appropriate external training events where these will facilitate the undertaking of their role, and Trustees' meetings whenever possible in order to maintain their awareness of the charity's activities.

d. ORGANISATIONAL STRUCTURE AND DECISION MAKING

The Trustees are responsible for establishing the overall policy and direction to enable the charity to meet its objectives. The key management decisions are taken by the Trustees as a whole although the Trustees have delegated certain types of management decisions to the company's executive staff.

e. RISK MANAGEMENT

The Trustees have established a framework for the identification and control of the major risks to which the charity is exposed and are satisfied that adequate controls are in place to mitigate such risks. The Trustees have a risk management strategy which comprises:

- a periodic review of the risks the charity might face;
- the establishment of systems and procedures to mitigate those risks identified in the plan; and
- the implementation of procedures designed to minimise any potential impact on the charity should those risks materialise.

TRUSTEES' REPORT (continued) FOR THE YEAR ENDED 31 DECEMBER 2014

OBJECTIVES AND ACTIVITIES

a. POLICIES AND OBJECTIVES

The principal object of the charity is to further the advancement of education of adults and children, particularly in the field of computers, computer science and related subjects.

b. STRATEGIES FOR ACHIEVING OBJECTIVES

At the end of 2013 the board of trustees set out its vision and operational goals of the charity for 2014. The 2014 charitable goals in order of emphasis were:

- Support and enhance both informal and formal education of computing particularly (but not exclusively) in the UK;
- Promote and evangelise the creative use of computing in science, mathematics, engineering and creative arts education; and
- Encourage the use of the Raspberry Pi as a low cost productivity and general education computer platform for the developing world.

In pursuit of these goals the charity intended to:

- Hire additional staff to establish a Raspberry Pi education team to develop freely available education resources and increase the number of workshops delivered to young people;
- Launch a new website as a delivery mechanism for the resources created by the educational team;
- Introduce a training scheme for teachers to advance their professional development in computing and support the introduction of the new National Computing curriculum in England;
- Run a number of competitions to encourage young people to develop an interest in computing and technology;
- Work with partner organisations with similar goals to expand the reach of the Foundation's charitable activities; and
- Work with third parties with experience in delivering ICT education platforms in developing countries.

In the longer term the Foundation intends to build up an Endowment fund to enable it to continue its work indefinitely.

ACHIEVEMENTS AND PERFORMANCE

a. GOING CONCERN

The Trustees have a reasonable expectation that the charity has adequate resources to continue in operational existence for the foreseeable future. For this reason they continue to adopt the going concern basis in preparing the financial statements.

a. REVIEW OF ACTIVITIES

The Trustees consider that the charity has made significant progress during the year and has achieved all of its major objectives.

(A Company Limited by Guarantee)

TRUSTEES' REPORT (continued) FOR THE YEAR ENDED 31 DECEMBER 2014

Specifically during the year the Foundation has hired three new members of staff to the education team to assist in the development of educational resources and undertake educational outreach activities. At the end of the first quarter of 2014 the Foundation launched a new web site which now hosts just over fifty educational resources covering computing and related subjects under the heading of "teach", "learn" and "make". The educational resource are distributed to the public free of charge under a creative commons licence. The new website also includes pages which help to promote informal education events known has Raspberry Jams run by community members. In April of 2014 the Foundation introduced a free of charge teacher training program known as Picademy. During the year the Foundation delivered six Picademy events, training in excess of 150 teachers from UK schools. The Foundation launched a number of competitions including Sonic Pi (composition of music through coding) and Astro Pi (where children in the UK get the opportunity to write code which will be taken to the International Space Station).

In July of 2014 the Foundation launched a £1m Education Fund with the aim of supporting projects aligned to the charity goals of the Foundation. During 2014 the Foundation committed awards from this fund in excess of £800,000. A number of these awards were made to support projects in the developing world including India and Africa.

During the year the company transferred surplus cash into an investment portfolio. The overall return expectation is a target minimum annual gain of 7.5% compound as an absolute return net of all charges and expense (and 5% net of inflation as measured by the UK Consumer Price Index). No income is required but the majority of capital should be invested so that it is reasonably liquid, that 90% can be made available within 30 days in case of opportunity or emergency. The Trustees desire a medium-high risk profile. They are comfortable with moderate capital volatility associated with typical market cycles, but expect active management and a diversified portfolio to minimise risk, with not more than 10% of the portfolio placed with any one counterparty. It is too early to report on performance of the portfolio versus objectives.

Interest in the Raspberry Pi units has continued to grow from which the Foundation receives widespread media coverage. During the year the Foundation's trading subsidiary launched a number of new products including Camera module, Pi NoIR camera, Compute module, Model B+, and the Model A+.

FINANCIAL REVIEW

a. FINANCIAL PERFORMANCE

Overall the group had net incoming resources for the year of £1,663,521 (2013 - £2,183,299), including a £1,915,009 surplus on unrestricted funds (2013 - £2,437,109).

b. RESERVES POLICY

The Trustees have examined the requirements for free reserves i.e. those unrestricted funds not invested in tangible fixed assets, designated for specific purposes or otherwise committed. The Trustees consider that given the nature of the organisation's work, the charity should aim to maintain unrestricted cash reserves sufficient to cover 12 months of operation without relying on additional income. This is intended as a contingency to cover operational expenditure in the event of trading income of its subsidiary ceasing. In addition, the Trustees are of the opinion that this provides:

- sufficient flexibility to cover temporary shortfalls in incoming resources due to timing differences in income flows;
- adequate working capital to cover core costs; and
- an allowance to enable the organisation to cope and respond to unforeseen emergencies whilst specific action plans are implemented.

The consolidated balance sheet shows total funds of £4,595,503 which includes three grants subject to donor

imposed conditions and general funds. General funds of the charity including its subsidiary at 31 December 2014 were £4,482,292.

PLANS FOR THE FUTURE

a. FUTURE DEVELOPMENTS

At the end of 2014 the board of trustees set out its vision and operational goals of the charity for 2015. The 2015 charitable goals in order of emphasis are:

- Support and enhance both informal and formal education of computing particularly (but not exclusively) in the UK;
- Promote and evangelise the creative use of computing in science, mathematics, engineering and creative arts education; and
- Encourage the use of the Raspberry Pi as a low cost productivity and general education computer platform for the developing world.

In pursuit of these goals the charity intends to:

- Increase and expand the number of Picademy training courses offered to teachers in the UK;
- Establish a Raspberry Pi curriculum framework and generate educational resources for covering learning in the field of computing for children aged from 7 to 18 years of age;
- Establish the Raspberry Pi Excellence in Computing and Raspberry Pi Digital Creatives Arts Gold award schemes;
- Establish and hold the inaugural Raspberry Pi conference; and
- Establish at least one large scale deployment of Raspberry Pi in a developing country.
