Patent Register Portal

The Patent Register Portal is your gateway to online patent registers and gazettes and to legal-status-related information from over 200 jurisdictions and patent information collections. Use it as a first step to identify what information can be retrieved online and how to access it.

Contact us with any suggestions for improvements or updates.

Jurisdictions that have an online patent register

Online Register

- Yes
- No
- No data available

The map displays a world map where countries are color-coded based on their online patent register status. Dark blue countries include the United States, Canada, Mexico, Brazil, Australia, and several European and Asian nations. Light grey countries include many in Africa, South America, and parts of Asia. Medium grey countries include India and several in Africa and Asia. The map includes navigation controls: a search icon, a home icon, and zoom in (+) and zoom out (-) buttons.

MALAYSIA - MY

Jurisdiction - General Information

Malaysia has been a Contracting Party to the Paris Convention for the Protection of Industrial Property since January 1, 1989. It has also been a Contracting Party to the Patent Cooperation Treaty (PCT) since August 16, 2006.

Malaysia is also part of the regional IP information platform [ASEAN Patentscope](#).

More legal information about intellectual property-related laws and regulations of Malaysia can be found on [WIPO Lex](#).

Online Patent Register and Online Gazette

Malaysia has an [Online Register](#) (“IP Online Search”) and an [Online Gazette](#) (“IP Online Journal”).

Features and search functionalities

The online patent register has an **English interface** and offers simple and advanced search functionalities. Users have to register with MyIPO first in order to access the information (registration is free).

Through the patent register you can retrieve information on **Legal Status** and **PCT National Phase Entry**.

WIPO INSPIRE: How to use

Derwent Innovation

Summary	
Provider	Clarivate Analytics
Fee	Fee paying
ASPI	Yes
Database description	Derwent Innovation is a proprietary patent research application that provides trusted patent data and tools to monitor technology trends and competitive landscapes, inform FTO opinions, prosecute patents, monetize and license assets and support litigation activities. It provides access to Derwent World Patents Index (DWPI), a globally trusted, curated patent database with editorially curated titles and abstracts, special subject matter classification coding and indexing, and proprietary patent invention-centric family building. Also includes the Derwent Patent Citation Index (DPCI) which indexes backwards and forwards patent and literature citations. DWPI and DPCI are integrated with the full text of patents from a number of patent authorities, including translations for major authorities such as China, Korea and Japan, enabling users to navigate via the DWPI value add through to the associated patent full text. Derwent Innovation uses AI to drive "Smart Search" technology to assist novelty and FTO searches, "Optimized Assignee" with Ultimate Parent to reveal current patent assignees and ultimate ownership, and legal status predictions.

Networking: eTISC

The screenshot shows the WIPO eTISC website. At the top, there is a dark blue header with the WIPO logo on the left and a 'Contact Us' link on the right. Below the header, the main content area is divided into two columns. The left column features a section titled 'WIPO eTISC' with a descriptive paragraph. The right column has a light blue background and is titled 'Collaborate with eTISC community', containing a paragraph and two buttons: 'Log in' and 'Create account'. Below this, there is a navigation bar with 'Home' and 'About' links. The bottom section is titled 'News' and contains two news items with their respective dates. A 'View All' button is located in the top right of the news section.

WIPO Contact Us

WIPO eTISC

It is a community platform which provides a space for the TISC community to interact and discuss topics to help them with their work, meet, exchange views, and build partnerships.

Collaborate with eTISC community

You can access the eTISC platform by login in using your WIPO account. If you do not have a WIPO account, create one using the link below.
